GUIDE *to* Education

ECS to Grade 12

September 2005

All changes to Alberta Education requirements contained in this document are effective the first day of the school year as defined by the school authority.

I, Gene Zwozdesky, Minister of Education, in accordance with section 39 of the *School Act*, Revised Statutes of Alberta 2000, Chapter S-3, as amended, authorize this *Guide* for use in Alberta schools.

Minister of Education

Courses and course codes approved after the printing of this *Guide* will be updated throughout the year in the online version. The newly approved course codes will be shown with a colour shaded background in the online version. As desired, pertinent pages may be printed off for updating print copies of the *Guide*.

Available in electronic format on the Internet at <www.education.gov.ab.ca>
under Kindergarten to Grade 12 and then Legislation, Regulations and Policies.

Print copies of this *Guide* are available for purchase from the Learning Resources Centre.

For suggested changes, or questions regarding content, contact the Director, Governance and Program Delivery Branch, Alberta Education, 780-427-7235. To be connected toll free inside Alberta, dial 310-0000. E-mail <edguide.contact@education.gov.ab.ca>.

All references to the *School Act* are to the Revised Statutes of Alberta 2000, Chapter S-3, as amended.

The primary intended audience for this *Guide* is:

<i>Administrators</i>	✓
<i>Counsellors</i>	✓
<i>General Audience</i>	
<i>Parents</i>	
<i>Students</i>	
<i>Teachers</i>	✓

FOREWORD

Education is the key to our young people being full partners in shaping a global future and in shaping our province's and our nation's future. Quality education for our young people is key to maintaining Alberta's standard of living and ensuring our competitiveness in a world market. Our education system must focus on what all students need to learn and be able to do in order to participate successfully in an economy and society undergoing fundamental changes. Alberta Education's three-year business plan provides direction for the future of education in Alberta. It is a plan for Alberta students to be well prepared for the world of work and for lifelong learning.

The initiatives in Alberta Education's three-year business plan describe directions that will help all our young people get the education they need. These initiatives reflect Alberta Education's leadership role in developing programs for students, in setting standards for education, in communicating these expectations to our partners, and in supporting improvements that better meet student needs.

Schools have the responsibility to provide instructional programs that ensure students will meet the provincial graduation requirements and are prepared for entry into the workplace or post-secondary studies. As well, schools are to ensure that students understand the rights and responsibilities of citizenship, and have the skills and disposition to pursue learning throughout their lives.

The directions and initiatives outlined in the education plan are reflected in this *Guide to Education: ECS to Grade 12 (Guide)*. Some examples of these directions and initiatives include: learning in the workplace through the Registered Apprenticeship Program; the provision for students to learn skills through career and technology studies while at school, and/or with the assistance of business, to deliver some skills programs; the provision of the Kindergarten statement; and the provision for challenge assessments. All of these examples reflect a results orientation to curriculum.

The *Guide* is released by Alberta Education for the use of administrators, counsellors, teachers and other parties engaged in the delivery of quality basic education. It has been developed to assist in the implementation of the objectives and underlying principles of the *School Act*. Policies, procedures and organizational information required to operate schools are included, or directions are given for the reader to obtain this information. For educators in Francophone schools, please refer to the French edition of this *Guide to Education: ECS to Grade 12* entitled *Guide de l'éducation, Manuel de la maternelle à la 12^e année*.

This *Guide* serves the following purposes:

- identifies program requirements specified by Alberta Education, and provides the foundations upon which these requirements are based
- provides information about Kindergarten to Grade 12 programs, education delivery and achievement standards for students enrolled in Alberta schools
- communicates information useful in organizing and operating Alberta schools to meet the needs of children and students.

In school, students should be encouraged to challenge themselves at new levels and in new experiences, as well as to prepare themselves for future choices in their lives and in the lives of their communities. The Vision, Mission and Basic Education section of the *Guide* defines basic education and addresses the learning outcomes for students and schools. This focus on students is integral to all school programming and reflects the emphasis of the *School Act*.

Alberta Education's management system is policy-based and results-oriented. As much as possible, policies and procedures are used to set educational directions and goals. This *Guide* supports Alberta Education's objective of providing consistent direction while encouraging flexibility and discretion at the local level.

- Definitions

References to "boards" and "schools" in this document are in accordance with definitions used in the *School Act*. In this *Guide*, "jurisdiction and/or school authority" means the board of a public or separate school district, a regional division, a school division, charter schools and/or the operator of a private school accredited by the Minister under section 28(2) of the *School Act*.

Graduation is defined as having met the requirements to earn an Alberta High School Diploma or an Alberta High School Equivalency Diploma.

- Identification of Requirements

This *Guide* contains information on a wide variety of topics. Some of the procedures are mandated; others are discretionary. Appendices 3 and 4, and passages in **boldface**, are either required by definition through this *Guide* or represent text quoted from other, legal, Alberta Education or Government of Alberta documents and are identified by an “R” beside their corresponding headings in the Table of Contents. Electronically, these same passages also are indicated in **boldface**.

- Interdisciplinary Studies

The programs referred to in this *Guide* are outlined in subject area categories. Organization for instruction may be based on these subject categories or on a locally developed integrated programming model.

- Internet

Alberta Education is on the Internet at www.education.gov.ab.ca. The site contains information covering all areas of education in the province, from ECS to Grade 12. From the home page, this *Guide* can be found by clicking on Kindergarten to Grade 12 and then clicking on Legislation, Regulations and Policies.

For ease of use and access, the *Guide* is in both pdf and html formats.

The pdf  version of the *Guide* is designed for viewing and downloading and may be printed in its entirety or by sections.

The html version of the *Guide* is designed for online viewing, searching and ease of navigation to hyperlinks.

The following icons appear throughout the *Guide*, identifying hyperlinks that can be found in the online html version to referenced government documents, Web sites and other sections within the *Guide*:

Denotes a hyperlink to a referenced government document. See list of referenced documents and corresponding Web site addresses in the Addresses section of this *Guide*.

Denotes a hyperlink to a referenced government Web site. See list of referenced Web sites in the Addresses section of this *Guide*.

Denotes a hyperlink to a referenced section within this *Guide*.

- Document Availability

All documents referenced in this *Guide*, including print copies of the *Guide* itself, are available for purchase from the Learning Resources Centre, unless otherwise stated.

- Identification of Content Changes

Users are encouraged to familiarize themselves with this document in its entirety. A list of content changes is provided in the accompanying document: *Summary of Changes*.

PROGRAM FOUNDATIONS

Vision, Mission and Basic Education

Vision

The best Kindergarten to Grade 12 education system in the world.

Mission

The Ministry of Education, through its leadership and work with stakeholders, ensures that students are prepared for lifelong learning, work and citizenship so that they can become self-reliant, responsible and contributing members of a democratic, knowledge-based and prosperous society.

Goals and Standards Applicable to the Provision of Basic Education in Alberta

Ministerial Order No. 004/98
Section 39(1)(f), *School Act*
February 10, 1998

A basic education must provide students with a solid core program, including language arts, mathematics, science and social studies.

Students will be able to meet the provincial graduation requirements and be prepared for entry into the workplace or post-secondary studies. Students will understand personal and community values and the rights and responsibilities of citizenship. Students will develop the capacity to pursue learning throughout their lives. Students also should have opportunities to learn languages other than English and to attain levels of proficiency and cultural awareness which will help to prepare them for participation in the global economy.

Student Learning Outcomes

Students are expected to develop the knowledge, skills and attitudes that will prepare them for life after high school. A basic education will allow students to:

- (a) read for information, understanding and enjoyment
- (b) write and speak clearly, accurately and appropriately for the context
- (c) use mathematics to solve problems in business, science and daily-life situations
- (d) understand the physical world, ecology and the diversity of life
- (e) understand the scientific method, the nature of science and technology, and their application to daily life
- (f) know the history and geography of Canada and have a general understanding of world history and geography
- (g) understand Canada's political, social and economic systems within a global context
- (h) respect the cultural diversity and common values of Canada
- (i) demonstrate desirable personal characteristics, such as respect, responsibility, fairness, honesty, caring, loyalty and commitment to democratic ideals
- (j) recognize the importance of personal well-being, and appreciate how family and others contribute to that well-being
- (k) know the basic requirements of an active, healthful lifestyle
- (l) understand and appreciate literature, the arts and the creative process
- (m) research an issue thoroughly, and evaluate the credibility and reliability of information sources
- (n) demonstrate critical and creative thinking skills in problem solving and decision making
- (o) demonstrate competence in using information technologies
- (p) know how to work independently and as part of a team
- (q) manage time and other resources needed to complete a task
- (r) demonstrate initiative, leadership, flexibility and persistence
- (s) evaluate their own endeavours and continually strive to improve
- (t) have the desire and realize the need for lifelong learning.

Standards for Student Learning

The Minister of Education defines acceptable standards and standards of excellence for student achievement in consultation with Albertans. Employers are involved in specifying the knowledge, skills and attitudes needed in the workplace. Schools, school authorities and the Minister of Education assess and report regularly to the public on a range of student learning.

The school's primary responsibility is to ensure that students meet or exceed the provincial standards, as reflected in the Student Learning Outcomes (outlined above), the Alberta Programs of Study, provincial achievement tests, diploma examinations and graduation requirements.

Education Delivery

Schools must engage students in a variety of activities that enable them to acquire the expected learnings. Schools have authority to deploy resources and may use any instructional technique acceptable to the community as long as the standards are achieved. Schools, teachers and students are encouraged to take advantage of various delivery options, including the use of technology, distance learning and the workplace.

Schools play a supportive role to families and the community in helping students develop desirable personal characteristics and the ability to make ethical decisions. Schools also help students take increasing responsibility for their learning and behaviour, develop a sense of community belonging and acquire a clearer understanding of community values and how these relate to personal values.

Students learn basic, transferable knowledge, skills and attitudes in school. Schools, in co-operation with employers, provide opportunities for students to develop and practise employability skills. The Minister of Education provides credit for off-campus learning that is approved and accepted by the school and the employer. Government works with schools, employers and post-secondary institutions to help young people make a smooth transition to work and further study.

Programming Principles

The development of programs to meet the educational needs of students involves more than one level of planning and decision making. At the provincial level, in accordance with section 39(1) of the *School Act*, planning takes place through the development of programs of study. Programs of study identify the outcomes for the core subjects that apply to all students, as well as those that apply for optional courses or programs. Alberta Education seeks broad input from educators, business, industry and the community, in planning programs of study.

At the local level, planning involves decisions about how programs of study can be implemented best with particular groups of students and with individual students. This type of planning is referred to as programming.

- Programs of study are established at the provincial level and apply to all students.
- Programming takes place at the local level and is concerned with effective delivery of the programs of study to the students enrolled. Programming decisions are made by school authorities, by schools, by teachers and by students.

Programming involves a variety of processes for ensuring effective program implementation. These processes include:

- identifying outcomes for learning (based on programs of study and student progress)
- organizing for instruction (including the grade configuration of schools)
- selecting learning activities
- selecting learning resources
- assessing student progress
- providing time for learning based on student progress.

Programming decisions are best made at the local level to ensure that the scope of programs offered and the delivery of those programs is responsive to student growth in learning. Decision making at the local level also provides opportunity for effective use of local resources and for local guidelines to be recognized.

General Principles for Effective Programming

Outcomes are clearly defined.

The following principles provide a general guide for programming.

Progress in learning is enhanced when the student, the parents and the teacher have a clear understanding of what is to be achieved. A shared understanding of what is expected enables the student, the parents and the teacher to work together, and provides the opportunity for each to take an initiative in support of learning.

The selection and setting of outcomes for student learning should be based on the programs of study. Both general and specific outcomes should be set, and these should be linked to specific ways in which students can demonstrate their learning.

Outcomes are most clear when the means of determining student progress are identified and communicated to all. The criteria to be used in assessment, the products of their work, and student performance, are all a part of the outcomes.

Planning is based on assessments of student progress.

Ongoing assessment of student progress informs the student, parents and teacher what has been achieved and what is yet to be achieved. Learning and instruction should be consistent with student abilities and should set appropriate levels of challenge.

Learning experiences are connected.

Student learning is cumulative and takes place in a variety of formal and informal settings. Learning is enhanced when what is learned in one setting reinforces and extends what has been, and is being, learned in others.

- **Communication between School and Home**

Parents are the first and ongoing educators of their children. Schools should enable families to continue their involvement with their children's education. The linkage between school and home enables teachers and parents to exchange information, jointly support student learning and ensure continuity of learning experiences.

- **Connections across Subject Areas**

There are many opportunities to connect and apply what students learn in one subject area with what they learn in other subject areas of the curriculum. By making these connections, student learning in each subject area is enhanced, and their ability to apply learning in new situations is improved. This helps students see the world as a connected whole instead of in fragmented bits.

Programming responds to the learning progress of students.

- **Partnerships between School and Community**
What students learn in school is enhanced when applied and extended in the community. Involvement in projects, community service activities, mentorship programs and job shadowing makes learning more relevant. Involvement in these activities also may provide significant role models for students and an opportunity for them to explore future career possibilities.
- **Consistency between Curriculum and Assessment**
Student learning is reinforced when what is taught is reflected in what is assessed. The methods used in assessing student progress, as well as mastery of the subject matter, should be consistent with the outcomes that have been communicated to students.
- **Coordination between Schools**
When students change schools, the coordination of programming and assessment practices between schools can help achieve a smooth transition. Disruptions can be minimized when the receiving school is provided full information on student attainment and learning characteristics. Information on student progress should be referenced directly to programs of study.

Programming involves decisions about time, resources, instructional approaches, assessment and organization for instruction. To maximize the learning for students, programming needs to be flexible and responsive to the learning progress of students.

Flexible programming involves:

- use of time as a resource, recognizing that students learn at different rates
- grouping students according to educational needs and according to the characteristics of the learning activity
- use of a broad range of learning resources, with selection of particular resources according to learner needs and learning traits
- use of a broad range of instructional strategies to provide a variety of ways for viewing subject matter, as well as the opportunity for individual students to learn in a preferred mode
- use of a wide variety of examples and applications of the subject matter to provide students with an opportunity to explore and discover areas of relevance and interest
- use of a wide variety of assessment strategies to monitor student progress in all areas of the curriculum.

Programming responds to developmental stages of students.

During their school years, students go through many developmental stages in their intellectual, physical, emotional and social growth. The stage of student growth in each of these areas is an important consideration in developing and implementing school programs.

Indicators of Effective Programming

School programming is effective when it responds to the learning needs and progress of students. The following characteristics and indicators provide a description of programming that recognizes and responds to learning needs.

CHARACTERISTICS

INDICATORS

The learning needs and progress of each student are known.

- Parents are aware of the learning needs and educational progress of their children.
- Teachers are aware of the characteristics and learning needs of individual students.
- Teachers are aware of student progress in previous years.
- Teachers are aware of student progress in other program areas.
- Students are able to describe their learning progress, can identify what they are currently studying, and can identify what they will be working on next.

Instruction is based on the student's current level of achievement.

- Students are able to complete successfully the learning activities they are assigned.
- Students show continuous growth in their learning.

Connections are made between what the student already knows and what the student learns next.

- Students can describe the relationship between what they are currently studying and what they have previously studied.
- Students are able to apply learning in situations that require a combination of knowledge, skills and attitudes from different parts of their programs.

School learning experiences provide challenge.

- Students show interest in their studies.
- Parents comment on student interest and achievement.
- Students experience a wide range of approaches to learning.
- At any given time, different students can be observed working on different tasks.
- Students use a variety of sources to complete their work.
- Students take initiative in and show responsibility for their learning.

PROGRAM LEGISLATION: *The School Act*¹

Introduction

This section of the *Guide* contains extracts from the *School Act* that highlight the role expectations for school councils, principals, teachers and students. Sections from the *Act* regarding student attendance, suspension and expulsion also have been included so that they may be related to the role of the student.

The *School Act*

The *School Act* sets out the legal parameters that govern the education of students in the province of Alberta. The management, operation and powers of school boards are outlined in the *Act*.

The *Act* gives the Minister the authority to set regulations in particular areas. Regulations provide specificity on matters for which there is regulation-making authority in the legislation. Regulations have the force and effect of law.

Provincial policies outline Alberta Education's position on key educational issues. These policies identify expected outcomes and establish direction for action.

Procedures specify how a policy is to be administered. They outline mandatory and discretionary activities, responsibilities and funding mechanisms.

¹ All references to the *School Act* are to the Revised Statutes of Alberta 2000, Chapter S-3, as amended.

The governance of basic learning in Alberta is guided by the following principles:

- policies and procedures rather than rules are to continue to be used for setting educational goals and directions
- the province is to continue to provide consistent direction, while encouraging flexibility and discretion at the school authority and school level by keeping policies and procedures to a minimum
- all Alberta Education's regulations, policies and procedures are to be consistent with the objectives and underlying principles of the *School Act*.

The *School Act* is available for purchase from the Queen's Printer Bookstore, Edmonton or Calgary, or online at www.qp.gov.ab.ca. Note: To view the *School Act* online, search *School Act*, select "electronic version," then click "View text of this document."

Role of the School Council

Section 22 of the *School Act* states:

- (1) A school council shall be established in accordance with the regulations for each school operated by a board.
- (2) The majority of the members of a school council shall be parents of students enrolled in the school.
- (3) A board of a separate school district or a division made up only of separate school districts, by resolution, may require that the parents of students enrolled in a school operated by the board who are members of the school council must also be of the same faith as those who established the separate school districts, whether Protestant or Roman Catholic.
- (4) A school council may, at its discretion,
 - (a) advise the principal and the board respecting any matter relating to the school,
 - (b) perform any duty or function delegated to it by the board in accordance with the delegation,
 - (c) consult with the principal so that the principal may ensure that students in the school have the opportunity to meet the standards of education set by the Minister,

-
- (d) consult with the principal so that the principal may ensure that the fiscal management of the school is in accordance with the requirements of the board and the superintendent, and
 - (e) do anything it is authorized under the regulations to do.
- (5) Subject to the regulations, a school council may make and implement policies in the school that the council considers necessary to carry out its functions.

These functions may include, but are not limited to, policies respecting:

- the nature of the programs offered
 - the expenditure of money
 - the educational standards to be met by students
 - the management of the school.
- (6) A school council may make bylaws governing its meetings and the conduct of its affairs.
- (7) Subject to the regulations, a board may develop and implement policies respecting school councils.
- (8) A board shall establish an appeal process or conflict resolution procedure under which the principal or the school council may apply respecting disputes on policies proposed or adopted for a school.
- (9) The Minister, on the request of the board, may dissolve a school council without notice at any time if the Minister is of the opinion that the school council is not carrying out its responsibilities in accordance with this *Act* and the regulations.
- (10) The Minister may make regulations
- (a) respecting the election or appointment of the members of a school council and the term or other conditions of election or appointment and the dissolution of a school council;
 - (b) respecting the roles of the principal and the school council of a school and their respective powers, duties and responsibilities;
 - (c) respecting any other matter the Minister considers necessary respecting school councils;
 - (d) exempting a school or class of schools from the application of this section.

Role of the Principal

Section 20 of the *School Act* states a principal of a school must

- (a) provide instructional leadership in the school;
- (b) ensure that the instruction provided by the teachers employed in the school is consistent with the courses of study and education programs prescribed, approved or authorized pursuant to this *Act*;
- (c) evaluate or provide for the evaluation of programs offered in the school;
- (d) ensure that students in the school have the opportunity to meet the standards of education set by the Minister;
- (e) direct the management of the school;
- (f) maintain order and discipline in the school and on the school grounds and during activities sponsored or approved by the board;
- (g) promote co-operation between the school and the community that it serves;
- (h) supervise the evaluation and advancement of students;
- (i) evaluate the teachers employed in the school;
- (j) subject to any applicable collective agreement and the principal's contract of employment, carry out those duties that are assigned to the principal by the board in accordance with the regulations and the requirements of the school council and the board.

Role of the Teacher

Section 18 of the *School Act* states a teacher while providing instruction or supervision must

- (a) provide instruction competently to students;
- (b) teach the courses of study and education programs that are prescribed, approved or authorized pursuant to this *Act*;
- (c) promote goals and standards applicable to the provision of education adopted or approved pursuant to this *Act*;
- (d) encourage and foster learning in students;

-
- (e) regularly evaluate students and periodically report the results of the evaluation to the students, the students' parents and the board;
 - (f) maintain, under the direction of the principal, order and discipline among the students while they are in the school or on the school grounds and while they are attending or participating in activities sponsored or approved by the board;
 - (g) subject to any applicable collective agreement and the teacher's contract of employment, carry out those duties that are assigned to the teacher by the principal or the board.
-

Role of the Student

Section 12 of the *School Act* states a student shall conduct himself or herself so as to reasonably comply with the following code of conduct:

- (a) be diligent in pursuing the student's studies;
 - (b) attend school regularly and punctually;
 - (c) co-operate fully with everyone authorized by the board to provide education programs and other services;
 - (d) comply with the rules of the school;
 - (e) account to the student's teachers for the student's conduct;
 - (f) respect the rights of others.
-

Student Attendance

Attendance at school is compulsory for eligible students who, at **September 1 in a year, [are] 6 years of age or older, and [are] younger than 16 years of age** [*School Act*, section 13(1)]. School authorities may make rules regarding school attendance under section 60(3)(b). Expectations for student conduct regarding school attendance are set out under section 12(b). Students may be excused from attending school for reasons described under section 13. Enforcing school attendance is described under section 14.

Attendance Board

The Attendance Board provides a means to address and seek solutions to issues or problems regarding attendance at school. Referrals to the Attendance Board, under section 15, are made when a student who is required to attend school under

section 13 does not attend school, and where attempts by the school authority to enforce school attendance under section 14 have not been effective. Under section 126, before referring a matter to the Attendance Board, a school authority shall ensure that the student has been advised of the student's duty to attend school under section 13 and shall ensure that all reasonable effort has been made to enforce the student's attendance at school.

Section 128
Order of [the Attendance] Board

For the purpose of conducting a hearing, the Attendance Board has the same power as the Court of Queen's Bench for civil trials. Upon hearing a matter, the Attendance Board may issue an order under section 128 directing the student and the parent to do a number of things, including directing the student to attend school, directing the parent to send the student to school, and directing the student to take a program or course. An order of the Attendance Board, when filed with the Court of Queen's Bench, has the same force and effect as if the order were an order of that Court. Failure to comply with a filed order of the Attendance Board may lead to civil contempt proceedings before the Court of Queen's Bench.

**Exemptions by
Parental Request**

Students may be exempted, by parental request, from Health and Life Skills and Career and Life Management (CALM) classroom instruction and activities that involve learner outcomes specifically related to human sexuality.

In the case of religious beliefs, parents/guardians must write to the Minister of Education requesting an exemption from the CALM course.

For further information on exemptions by parental request, see section 13 of the *School Act*. See also Physical Education exemptions in this *Guide*.

**Suspension and
Expulsion of
Students**

Suspension
[*School Act*, Section 24]

Suspension is defined in the *School Act* (RSA 2000) by section 1(1)(hh):

"suspend" means to remove a student

- (i) from school,**
 - (ii) from one or more class periods, courses or education programs, or**
 - (iii) from riding in a school bus**
- for a period of 10 school days or less in accordance with section 24.**

The school is responsible for communicating behaviour expectations and the consequences of misconduct to all students and parents of the school. School handbooks, newsletters, assemblies, general announcements, and/or building notices are some of the means that may be used to ensure universal student and parent awareness. When considering student suspension, the following sections of the *School Act* are of basic importance:

- Section 12 describes a student's conduct responsibilities.
- Section 24(1)(b) provides a broader expectation for student behaviour and may form the basis for a suspension.
- Section 45(8) notes the board responsibility for providing a safe and caring environment.

These sections should guide the setting of school and board policy surrounding student conduct and the consequence of student suspension.

The process considerations for suspension of a student are described in section 24. Some points of emphasis are:

- Only the principal can suspend a student for more than one class period, or from riding a school bus. The principal must sign the letter of suspension.
- The parent or the student, if at least 16 years of age, must be given the opportunity to discuss the particulars of the suspension with the principal.
- The principal can only suspend a student for up to 5 school days, unless the student is being referred to the school board with a recommendation to expel.
- A student may only remain under suspension beyond 5 school days when the principal has recommended expulsion to the school board. The board must then expel or reinstate the student within 10 school days of the initial time of suspension.

Expulsion

[*School Act*, Section 25]

Expulsion is defined in the *School Act* (RSA 2000) by section 1(1)(j):

“expel” means to remove a student

(i) from school,

**(ii) from one or more courses or education programs,
or**

(iii) from riding in a school bus

**for a period of more than 10 school days in accordance
with section 25.**

The student expulsion process is covered in section 25. A principal may recommend to the board that a student be expelled. When considering an expulsion, the following should be noted:

- Only a school board may expel a student.
- A hearing must be held that allows the parent and/or the student the opportunity to present their case in a fair setting.
- All information to be considered must be shared among the parties concerned.
- An expelled student must be provided another education program with appropriate supports.
- The term of the expulsion must be specified.
- The right of the parent or the student, if at least 16 years of age, to request a review by the Minister must be communicated in writing. Contact information should be included.

During the suspension/expulsion process, certain considerations are necessary:

- The rights of the student must be respected and communicated to the parent and/or the student as the process advances through its steps.
- Disciplinary measures taken by the school will be independent of all other agencies or authorities.
- The entire process must be timely, open, impartial and reasonable in the circumstances.
- The rules for re-enrolling a student following the term of an expulsion must be stated.

When considering suspensions or expulsions, administrators may also refer to the following sections of the *School Act*:

- Section 8 affirms the student's right of access to an education.
- Section 13(5)(c) and (d) excuses a suspended or expelled student from compulsory attendance.
- Section 45(1) and (7) assigns the responsibility to the board for providing each resident student with an education program.
- Section 60(1)(e) requires the board to make rules regarding suspension, expulsion and re-enrolment.

Section 124 indicates that a parent or student, if at least 16 years of age, may write to the Minister to request a review of an expulsion. In the event of an expulsion review by the Minister there are generally four guiding terms of reference:

1. Did the board's policy and procedures for suspension and expulsion comply with the *School Act*?
2. Did the school board adhere to its policy and procedures?
3. Was the board's decision to expel reasonable in the circumstances?
4. Was the board's offering of another education program for the student appropriate in the circumstances?

The decision of the Minister on a review is final.

For further clarification or interpretation of the student suspension and expulsion process, please contact the Disputes Management Team Leader in the Governance and Program Delivery Branch.

Safe and Caring Schools

Section 45(8) of the *School Act* highlights the importance of providing a safe and caring environment for students.

45(8) A board shall ensure that each student enrolled in a school operated by the board is provided with a safe and caring environment that fosters and maintains respectful and responsible behaviours.

Remembrance Day Act

Chapter R-16 RSA 2000

HER MAJESTY, by and with the advice and consent of the Legislative Assembly of Alberta, enacts as follows:

School remembrance ceremony

- 1 (1) A board, as defined in the *School Act*, shall on Remembrance Day, with respect to each of its schools,
- (a) arrange for a remembrance ceremony that will encompass at least the time period from 11:00 a.m. to 11:05 a.m., or
 - (b) ensure the observance of 2 minutes' silence from 11:00 a.m. to 11:02 a.m.
- (2) If a ceremony referred to in subsection (1)(a) is held at a school, all pupils shall either attend the ceremony or remain in the school, silent, during the ceremony.
- (3) If Remembrance Day falls on a day on which the school is not open, the board shall comply with subsection (1) on the school day immediately preceding Remembrance Day.

K–12 Learning System Policy, Regulations and Forms Manual

Policy Introduction

The Alberta Education *K–12 Learning System Policy, Regulations and Forms Manual* contains information that affects the operation of schools and has been developed for school boards, charter school boards, private schools and ECS private operators, for the following purposes:

- to communicate key, Alberta Education policies
- to provide direction to school boards and ECS private operators who wish to access provincial resources
- to provide school boards and ECS private operators with legislation, regulations, policies and procedures.

Schools operate under the jurisdiction of the school authority. **All actions undertaken by the principal**, as referenced in this *Guide*, **shall be in accordance with school authority policy. Local policies and procedures shall be consistent with the requirements of Alberta Education.**

Most of the regulations and policies derive their authority from the *School Act* and impart Alberta Education's philosophy. They provide direction to the educational system, support the rights of students and parents, and encourage flexibility at the local level. The *K–12 Learning System Policy, Regulations and Forms Manual*, which is updated regularly, can be found at the Alberta Education Web site under Kindergarten to Grade 12 and then Legislation, Regulations and Policies.

Accountability in Education Policies

Accountability is the obligation to answer for the execution of assigned responsibilities. Alberta Education and school authorities are accountable for ensuring that the highest quality of education is provided for students in the province.

The accountability process for Alberta's public, separate, charter and funded private schools includes requirements for school authorities as embodied in the following policies:

- Policy 2.1.1 School Authority Accountability
- Policy 2.1.2 Student Evaluation
- Policy 2.1.3 Use and Reporting of Results on Provincial Assessments
- Policy 2.1.4 School Superintendents
- Policy 2.1.5 Teacher Growth, Supervision and Evaluation
- Policy 2.1.6 School Authority Financial Accountability and Audits.

Ministerial Orders

Teaching Quality Standard Applicable to the Provision of Basic Education in Alberta (Ministerial Order No. 016/97)

The Teaching Quality Ministerial Order:

- includes a standard of practice expected of teachers
- lists the knowledge, skills and attributes teachers are expected to possess and practise.

The teaching quality standard and description:

- focus teaching on optimum learning by students
- reflect a professional model of teaching
- expect that teachers exercise reasoned professional judgement in their practices
- include the knowledge, skills and attributes that teachers are expected to possess when they first enter the classroom and when they qualify for permanent professional teacher certification two years later
- help school jurisdictions develop local teacher evaluation policies.

Quality teaching occurs when the teacher's ongoing analysis of the context, and the teacher's decisions about which pedagogical knowledge and abilities apply, result in optimum learning by students.

Regulations Introduction

The following subsections provide a synopsis of those regulations that are relevant to the operation of school programs. For the complete regulations, refer to the *K–12 Learning System Policy, Regulations and Forms Manual*. The sections of the *School Act* to which these regulations refer, and the regulation numbers, are noted.

Charter Schools

Section 31

Policy 1.1.1

A.R. 212/2002

This regulation addresses the definition of and the maximum number of charter schools in the province. It also outlines the application for and approval or rejection of charter school status, contents of a proposed charter, charter renewal, charter amendment, and charter repeal.

Early Childhood Services

Section 30

Policy 1.1.3

A.R. 31/2002

This regulation sets out the requirements for the operation of early childhood services programs and includes information on safety standards, programs, policies, record keeping, financial reporting and insurance.

Home Education

Section 29

Policy 1.1.2

A.R. 126/99

as amended

This regulation recognizes a parent's right to choose a home education program, provided the program meets the requirements of the regulation and is under the supervision of a board or an accredited private school.

The regulation provides parents with alternatives in regard to supervision. They must notify their supervising board or supervising private school of their desire to educate their child at home.

Language of Instruction

Section 10(2)

This regulation, still under development, addresses the right to a French language education in accordance with section 23 of the *Canadian Charter of Rights and Freedoms*.

Practice Review of Teachers

Section 94(1)

A.R. 4/99

as amended

This regulation provides an orderly process by which complaints about the unskilled or incompetent teaching practices of a teacher can be investigated and acted upon in cases where the local process has failed. This includes conduct by teachers not subject to the discipline procedure of the *Teaching Profession Act*. The regulation includes a process for initiating complaints and conducting investigations, hearings and appeals.

Private Schools

Section 28(6)

A.R. 190/2000

as amended

Section 28(1) and (2) set out the requirements for registered and accredited private schools.

This regulation addresses the application for registration and accreditation; the required programs for funded private schools; the additional records to be kept by private schools; rules for discipline, suspension and expulsion; required notices; school policies; required insurance; and financial reporting provisions.

The regulation also requires private schools, among other obligations, to complete an Annual Operational Plan (AOP) form; keep student records; ensure student records follow the student when the student changes schools; and make rules for discipline, suspension and expulsion.

Student Evaluation

Section 39(3)(c)

A.R. 177/2003

as amended

This regulation describes how provincial tests, examinations or other methods of evaluating a student's achievement are conducted. It provides for directives to be issued outlining Alberta Education's administrative and procedural requirements for evaluating students.

The regulation also covers: security of evaluation materials; eligibility of students to write provincial tests; student conduct resulting in eviction or invalidation and related objection and appeal procedures; review of evaluation results and an appeal process that may include Special Cases Committee; ministerial determination of fees and the use of evaluation results.

Student Record

Section 23(9)

A.R. 71/99

as amended

This regulation itemizes what the student record, established and maintained by the school board, shall and shall not contain, states the length of time a record must be retained, the disposal and destruction of records, what happens when a student transfers to another school, and regulation compliance. It also addresses right of access to a record and the disclosure of information in accordance with the *Freedom of Information and Protection of Privacy Act*.

Legal Resources

Legal Resources for Schools

Legal resources are approved by the Minister or Deputy Minister and are designed to communicate Alberta Education requirements as set forth in provincial legislation, regulations, policies or programs. Schools should have current copies of the following documents:

- *Funding Manual for School Authorities*
- *Guide to Education: ECS to Grade 12*
- *Standards for Special Education*
- *K-12 Learning System Policy, Regulations and Forms Manual*
- Programs of Study (Elementary Schools and/or Junior High Schools and/or Senior High Schools)
 - *Kindergarten Program Statement* (for schools with Kindergarten)
- *School Act.*

All of the above documents are available on the Alberta Education Web site at www.education.gov.ab.ca.

PROGRAM PLANNING: Programs of Study

Programs of Study

The following programs of study are prescribed by order of the Minister pursuant to section 39(1) of the *School Act*.

- *Program of Studies: Elementary Schools*
- *Program of Studies: Junior High Schools*
- *Program of Studies: Senior High Schools*

Mandatory requirements for programs and courses are outlined in the programs or courses of study, each of which contains the following components:

- Program Rationale and Philosophy
- Outcomes
 - General Outcomes
 - Specific Outcomes.

Alberta Education develops programs of study in both English and French. Alberta Education recognizes that English and French are official languages of Canada and that Canadian citizens belonging to the French-language minority in Alberta have the right to have their children educated in French according to section 23 of the *Canadian Charter of Rights and Freedoms* and section 10 of the *Alberta School Act*.

Implementation Schedule for Programs of Study and Related Activities

The Implementation Schedule for Programs of Study and Related Activities indicates implementation dates, revised provincial assessments, and the availability of learning and teaching materials in English and French. The degree of change for each new program is indicated using a star rating system.

 Denotes a hyperlink in the online version to a referenced government document.

 Denotes a hyperlink in the online version to a referenced government Web site.

 Denotes a hyperlink in the online version to a referenced section within this *Guide*.

Learning Resources

All authorized learning and teaching resources available for purchase are listed in the *Learning Resources Centre Resources Catalogue* (in print or CD-ROM format), or through the LRC Web site at www.lrc.education.gov.ab.ca. Also, all authorized resources are listed at the Alberta Education Web site under Kindergarten to Grade 12, Curriculum, and Curriculum Resources.

ECS to Grade 9 Programming

Early Childhood Services

Early childhood is a particularly significant period in human development, and the Early Childhood Services (ECS) programs provide services to address the developmental needs of children before they enter Grade 1. In ECS programs, young children participate as active partners in learning, build a set of shared experiences and develop knowledge, skills and attitudes that prepare them for subsequent learning.

ECS programs are voluntary programs, which may be offered by school boards, private schools and private ECS operators.

Kindergarten

Kindergarten, as part of the ECS programs, is intended for children in the year prior to entry into Grade 1 and **shall be planned, implemented and evaluated as** outlined in the *Kindergarten Program Statement* (current version).

The *Kindergarten Program Statement*, available from the Curriculum Branch, or for viewing and downloading from the Alberta Education Web site, describes the learning achievement that helps prepare children for entry into Grade 1 and provides them with a foundation for later success. The statement is the basis for all ECS programs funded by the province.

Program Organization and Delivery

Kindergarten Minimum Hours

Where Kindergarten programs are offered, approved operators/schools shall provide access to at least 475 hours of instructional program activities for each child in a centre during a fiscal year, or at least 22 in-home visits of one-and-a-half hours duration or more (child must be in attendance) to each child in an in-home program during a fiscal year, or the equivalent in a combination of centre hours and in-home visits.

Instructional Time Kindergarten

Instructional programming time of 475 hours includes:

- time scheduled for purposes of instruction
- other student activities where direct student–teacher interaction and supervision are maintained.

An operator/school may use a maximum of 35 hours of instructional time for activities, such as:

- “transitional” home visits^①
- staggered entry
- small group days
- demonstration of child learning in child–parent–teacher conferences (child must be in attendance)

that promote the transition of children from home to school, and encourage communication and relationship building.

Instructional programming time of 475 hours does not include:

- teacher convention
- professional development days
- teacher planning days
- staff meetings
- statutory and school authority-declared holidays
- lunch breaks
- recesses
- time taken for the registration of students.

^① The time dedicated toward “transitional” home visits, of 30 to 60 minutes in duration, be cumulative and contribute toward the total number of instructional hours. These home visits support transition from home to school, including meeting the parents/guardians and providing orientation about the program or for following up on child progress.

Instructional Time Grade 1 to Grade 9

Schools are required to ensure that Grade 2 to Grade 9 students have access to 950 hours of instruction per year in each grade. For Grade 1, alternative minimum times enabling a smooth transition from ECS are permissible.

Instructional time includes:

- time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

Instructional time does not include:

- teacher convention
- professional development days
- parent–teacher interview days
- teacher planning days
- staff meetings
- statutory and school authority-declared holidays
- lunch breaks
- breaks between classes
- recesses
- time taken for the registration of students
- extracurricular activities.

Definition of Instruction

Instruction is the process in which certificated teachers take responsibility for ensuring that learning activities for students are directed towards achieving outcomes of approved *Program of Studies* and/or Individualized Program Plans through:

- interaction with students, either face-to-face or using information and communication technology, for the purpose of teaching, assessing student achievement of outcomes and related activities, including tutorials, discussion groups and learning skill centres, and/or
- interaction with students who are engaged in self-directed packages, independent study, computer-assisted learning and/or classroom learning, and/or
- supervision of presentations for and/or by students, workplace learning and other learning activities.

Reference: The Teaching Quality Standard, Ministerial Order No. 016/97
Section 18, *School Act*

Access to Instruction Grade 1 to Grade 9

To ensure equitable access of opportunity for Grade 1 to Grade 9 students, a minimum number of instructional hours are specified. The organization of schools at these grade levels is the responsibility of the school authority.

In accordance with section 39(1)(c) of the *School Act*, and to allow for a balanced program that leads to the student learning outcomes indicated in the description of Basic Education, schools are required to ensure that Grade 2 to Grade 9 students have access to 950 hours of instruction per year in each grade. For Grade 1, alternative minimum times enabling a smooth transition from ECS are permissible.

Policy 1.5.3, Languages Other than French or English, states that a partial immersion (bilingual) program means a program in which a language other than English or French is used as the language of instruction, to a maximum of 50 per cent of the instructional day. In offering a partial immersion (bilingual program), boards:

- must ensure that students also have opportunity to acquire competence in all English language arts skills to meet graduation requirements
- have the responsibility of deciding the amount of time needed in all subject areas from Kindergarten to Grade 12, providing the instruction time is consistent with the direction in this *Guide*.

Daily Physical Activity

The goal of Daily Physical Activity (DPA) is to increase students' physical activity levels. DPA is based on the belief that healthy students are better able to learn and that school communities provide supportive environments for students to develop positive habits needed for a healthy, active lifestyle.

Policy

Starting in September 2005, school authorities shall ensure that all students in grades 1 to 9 are physically active for a minimum of 30 minutes daily through activities that are organized by the school.

Guiding Principles

- Schools have the responsibility of creating and nurturing a learning environment for students that supports the development of the lifelong habit for daily physical activity and for healthy lifestyles.
- Daily physical activities should:
 - vary in form and intensity
 - take into account each student's ability
 - consider resources available within the school and the larger community
 - allow for student choice.

Procedures

- School authorities have the flexibility to use instructional and/or noninstructional hours to implement Daily Physical Activity.
 - Physical education classes are an appropriate strategy to meet the daily physical activity requirement.
 - DPA should be offered in as large a block of time as possible but can be offered in time segments adding up to the minimum 30 minutes per day; e.g., two fifteen minute blocks of time for a total of 30 minutes.
 - DPA can be incorporated throughout the day and integrated into other subject areas.

-
- School authorities will monitor the implementation of DPA to ensure that all students are active for a minimum of 30 minutes daily.
 - Exemptions from DPA may be granted by the principal under the following conditions:
 - religious beliefs—upon written statement from the parent to the principal
 - medical reasons—certification to principal by a medical practitioner indicating in which activities the student is not able to participate.
-

Organizing Instructional Time

The following requirements and considerations apply.

- **All students must be provided access to a specified number of hours of instructional service.** See the Kindergarten Minimum Hours, Instructional Time Grade 1 to Grade 9 and Access to Instruction Grade 1 to Grade 9 in this section.
- Subject to the above requirement, decisions on the organization and scheduling of instructional time are a board matter and should be flexible enough on a daily, weekly and yearly basis to meet the learning needs of students; e.g., block planning, artist in residence.
- Organization for instruction may be based on an integrated programming model in which the outcomes from two or more subject areas are addressed within a common time block.
- All students should be provided sufficient opportunity to achieve the outcomes outlined in the programs of study. To assist schools in planning, recommendations regarding the apportioning of instructional time for required and optional subjects are provided in the subsections that follow.

Elementary Program

In planning for instruction in the elementary grades, the following percentage time allocations for the school year are recommended for required and optional subject areas. Individual students may require varying times to meet the learning outcomes in each subject area.

Percentage Time Allocations Recommended

Grade 1 and Grade 2

Subject Areas	English Instruction Percentage	French Instruction Percentage
English Language Arts	30%	0%–10%
French Language Arts ^①	0%	20%–30%
Français ^②	0%	30%
Mathematics	15%	15%
Science	10%	10%
Social Studies	10%	10%
Art and Music	10%	10%
Health and Physical Education	10%	10%

Information and Communication Technology (ICT) is a core program infused within core curricula in language arts, mathematics, science and social studies at all grade levels.

Time for optional subjects (e.g., second languages, drama, religious instruction), Information and Communication Technology outcomes not integrated with a core subject, or additional allocations to the core subjects listed above.	15%	15%
---	-----	-----

① French language arts is taught in alternative French language programs (includes French immersion).

② Français is taught in Francophone programs.

Grade 3 through Grade 6

Subject Areas	English Instruction Percentage	French Instruction Percentage
English Language Arts	25%	{ 35% }
French Language Arts ^① /Français ^②	0%	
Mathematics	15%	15%
Science	15%	10%
Social Studies	10%	10%
Art and Music	10%	10%
Health and Physical Education	10%	10%

Information and Communication Technology (ICT) is a core program infused within core curricula in language arts, mathematics, science and social studies at all grade levels.

Time for optional subjects (e.g., second languages, drama, religious instruction), Information and Communication Technology outcomes not integrated with a core subject, or additional allocations to the core subjects listed above.	15%	10%
---	-----	-----

^① French language arts is taught in alternative French language programs (includes French immersion).

^② Français is taught in Francophone programs.

Information and Communication Technology

The Information and Communication Technology (ICT) curriculum identifies the technology outcomes that students should achieve by the end of grades 3, 6, 9 and 12. The outcomes provide a basic technology curriculum for students so that they are prepared for the workplace, further studies and lifelong learning. Proficiency with technology has become an essential skill in almost every area of human endeavour. Students need to have these basic skills along with the skills found in language arts, mathematics, science and social studies. Although the technology outcomes form a program of studies, they are not intended to be taught as a stand-alone course, but rather within the context of other subject areas being studied. All school authorities are required to have an ICT curriculum implementation plan in place that takes into consideration how the ICT outcomes will be addressed within grade levels and within specific subjects.

Elementary Program Optional Subjects

At the elementary level, programming may include one or more optional subjects. Optional subjects are those parts of the elementary school program that are based on outcomes other than those outlined for core subjects.

Optional subjects may be developed and approved at the local level, as per section 60(1)(a) of the *School Act*. The following are optional subjects for which outcomes have been developed at the provincial level.

- Aboriginal Language and Culture courses
- International Language and Culture courses
- Drama
- French as a Second Language (see French as a Second Language section in this *Guide*)

Early Literacy Initiative

The Early Literacy Initiative (ELI) addresses the needs of children in Early Childhood Services (ECS) programs and students in Grade 1 and Grade 2 who are experiencing difficulties in developing reading readiness and early literacy skills. The initiative provides school authorities with additional human resources that may be flexibly deployed, as long as the ultimate benefit of any assignment serves to enhance the literacy skills of those identified as being at risk. The ELI also provides funding for resources, as well as inservices for teachers and other staff deployed as part of the program.

For more information about the Early Literacy Initiative, see the *Funding Manual for School Authorities*, or contact the Curriculum Branch.

Junior High Instructional Time

At the junior high level, schools must provide access to 950 hours of instruction per year in each grade.

Junior High Program

The primary consideration that schools need to take into account when organizing for instruction, is to provide their students with an opportunity to meet all of the requirements of a basic education. The junior high school program should be organized within the context of the outcomes included in the Vision, Mission and Basic Education section in this *Guide*.

A course in junior high school represents a set of specific knowledge, skills and attitudes. Most students can achieve these in the recommended times. It is recognized that some students can acquire the knowledge, skills and attitudes specified in a course of studies in less than the recommended time, while others may require more time.

Recommended Time Allotments for the Required Junior High School Program

<u>Subject Areas</u>	<u>Hours, or More, Per Year</u>
English Language Arts	150
French Language Arts ^① and English Language Arts Français ^② and English Language Arts	{250}
Mathematics	100
Science	100
Social Studies	100
Physical Education	75
Health and Life Skills	50
Optional Courses	150

① French language arts is taught in alternative French language programs (includes French immersion).

② Français is taught in Francophone programs.

For schools offering instruction in a language other than English or French (*School Act*, section 11), the above time recommendations for core courses apply. In addition to English language arts, it is recommended there be a minimum of 150 hours of language arts in the language of instruction.

Information and Communication Technology

The Information and Communication Technology (ICT) curriculum identifies the technology outcomes that students should achieve by the end of grades 3, 6, 9 and 12. The outcomes provide a basic technology curriculum for students so that they are prepared for the workplace, further studies and lifelong learning. Proficiency with technology has become an essential skill in almost every area of human endeavour. Students need to have these basic skills along with the skills found in language arts, mathematics, science and social studies. Although the technology outcomes form a program of studies, they are not intended to be taught as a stand-alone course, but rather within the context of other subject areas being studied. All school authorities are required to have an ICT curriculum implementation plan in place that takes into consideration how the ICT outcomes will be addressed within grade levels and within specific subjects.

Junior High Optional Courses

Schools shall offer two provincially authorized optional courses except where instruction in a language other than English (*School Act*, sections 10 and 11) is offered, then only one provincially authorized optional course is required.

Optional courses help students achieve the outcomes outlined in the Vision, Mission and Basic Education section of this *Guide*. Also, optional courses reinforce learnings in language arts, mathematics, science and social studies, as well as address learnings in other subject areas.

Sequencing

Students should be encouraged to continue in Grade 8 and Grade 9 with at least one of the optional courses selected in Grade 7.

Optional Courses

The optional courses are categorized as follows:

Aboriginal Languages

- Blackfoot Language and Culture
- Cree Language and Culture

Career and Technology Studies

- Introductory level courses for all CTS strands are considered appropriate for junior high school students.

(For further information, see the *CTS Manual for Administrators, Counsellors and Teachers*.)

Environmental and Outdoor Education

Ethics

- This course may be offered in Grade 7, Grade 8 or Grade 9.

French as a Second Language

Fine and Performing Arts

- Art
- Drama
- Music
 - Choral
 - General
 - Instrumental

International Languages

- Chinese Language and Culture
- German Language Arts
- German Language and Culture
- Italian Language and Culture
- Japanese Language and Culture
- Spanish Language and Culture
- Ukrainian Language Arts
- Ukrainian Language and Culture

Locally Developed/Acquired and Locally Authorized Optional Courses

Religious Studies

- Religious studies may be offered at the discretion of the local school board, under section 50 of the *School Act*.

For more information, see the Instruction in Languages Other than English or French section in this *Guide*.

Planning Junior High Course Selections

A student's choice of programs is subject to approval of the principal, except where a student (age 16 or over) elects to take distance learning courses. Steps should be taken to ensure parents understand and concur with their children's course selections. Principals should ensure students are made aware of special programs available to meet their individual educational needs. Francophone education is addressed in the French edition of this *Guide*, *Guide de l'éducation*. Aboriginal students may access resources and programs designed to reflect and respect their cultures.

Planning in Junior High for Senior High Programs

Students should be provided with assistance in planning their senior high school programs. Certain courses are required for an Alberta High School Diploma or a Certificate of Achievement. Some Grade 10 courses are prerequisites for more advanced senior high school courses. When junior high school students are planning their Grade 10 programs, all students and parents should become familiar with the guidelines in order to avoid possible difficulties in the later senior high school years. Also see under Student Information Needs in the Senior High School Programming section.

For mathematics, students need to focus on their strengths and determine what they are likely to do after Grade 12. The main difference between the applied and pure sequences in senior high school is the approach to problem solving—different concepts and methods are used to solve mathematical problems. If students have an aptitude for solving problems, using numerical reasoning or geometry, they would do better in applied mathematics. If they have an aptitude for theory and algebra, they should consider pure mathematics. Some areas of post-secondary study require pure mathematics. Also see under Assisting in Student Planning in the Senior High School Programming section.

When assisting students in planning their programs, junior high school staff should ensure that students discuss their proposed programs with their parents and keep in mind the credit requirements for graduation from senior high school.

Career Plans

Schools are encouraged to require students to develop a program and career plan beginning in junior high school. The plan should be updated annually and signed off annually by the parents and the principal.

For more information about planning for careers, refer to the *Student Learning – Career Information Booklet and Planners*, and *A Credit to Yourself*.

Senior High School Programming

School Organization

Schools must ensure that students have access to a minimum of 1000 hours of instruction per school year.

School jurisdictions are to develop methods of school organization and program delivery that best meet the needs of their students. Jurisdictions are encouraged to adopt alternatives to the current Carnegie Unit organizational and scheduling model. The development of 1-credit course offerings in career and technology studies (CTS), the increased participation in off-campus and outreach programs, and the increased enrollments in blended programs and virtual schools, means there is greater flexibility in course offerings and delivery methods for students. **All delivery methods must ensure that the needs and the best interests of individual students are taken into consideration.**

A credit at the senior high school level represents course-specific knowledge, skills and attitudes. One credit is defined as being equal to 25 hours of instruction, within which most students can achieve a credit. However, it also is recognized that some students can acquire the knowledge, skills and attitudes specified for 1 credit in a course of studies in less than 25 hours, while others may require more time.

Whatever methods of school organization are adopted, students must have access to instruction that is focused on the outcomes of the courses they have chosen and be evaluated on that basis.

Any method of delivery must ensure that each student has access to at least 25 hours of instruction per high school credit. Exceptions to this requirement are:

- all 3-credit courses require a minimum of 62.5 hours for each course, including Work Experience 15, 25 and 35 and Special Projects 10, 20 and 30
- schools can deliver a block of three, 1-credit CTS courses for 62.5 hours; however, schools must ensure that students meet all of the outcomes of each 1-credit course. CTS courses will be funded at one credit enrollment unit for each 1-credit course
- summer break, evening (6 p.m. or later) and weekend credit courses must provide access to instruction of at least 16 hours per credit. The exceptions are Work Experience 15, 25 and 35, Special Projects 10, 20 and 30 and the Registered Apprenticeship Program courses, which require 25 hours of access to instruction per credit.

Three-credit courses in Work Experience 15, 25 and 35 and Special Projects 10, 20 and 30 will be offered for 62.5 hours and funded at 2.5 credit enrollment units.

For further details, see the *Funding Manual for School Authorities*.

Definition of Instruction

Instruction is the process in which certificated teachers take responsibility for ensuring that learning activities for students are directed towards achieving outcomes of approved *Program of Studies* and/or Individualized Program Plans through:

- interaction with students, either face-to-face or using information and communication technology, for the purpose of teaching, assessing student achievement of outcomes and related activities, including tutorials, discussion groups and learning skill centres, and/or
- interaction with students who are engaged in self-directed packages, independent study, computer-assisted learning and/or classroom learning, and/or
- supervision of presentations for and/or by students, workplace learning and other learning activities.

Reference: The Teaching Quality Standard, Ministerial Order No. 016/97
Section 18, *School Act*

Access to Instruction

Access to instruction means:

- certificated teachers are assigned to deliver or supervise the instruction
- the instruction, and evaluation of performance, is based on the outcomes in an approved program of studies

- there are designated times when teachers are available to the students
- students know, prior to enrolling in courses, how and when they will be able to access the instructional expertise of teachers.

Instructional time includes time scheduled for purposes of instruction, examinations and other student activities where student-teacher interaction and supervision are maintained.

Instructional time does not include teacher convention days, professional development days, parent-teacher interview days, teacher planning days, staff meetings, statutory and school authority-declared holidays, lunch breaks, breaks between classes, supervised study halls, time taken for the registration of students or extracurricular activities.

Program Organization

Priority should be given to offering a senior high school program that enables students to:

- meet diploma requirements (see the Senior High School Graduation Requirements section) and earn a minimum of 100 credits in three years
- have some opportunity to take optional courses
- enter post-secondary institutions or seek employment.

Assisting in Student Planning

Certain courses are mandatory in order to meet diploma and certificate requirements. Some Grade 10 courses are prerequisites for more advanced senior high school courses. In order to avoid possible difficulties in later senior high school years, principals should ensure that students planning their Grade 10 programs are familiar with the guidelines.

Upon entry into senior high school, students registering in either Applied Mathematics 10 or Pure Mathematics 10 should have passed Mathematics 9. Students who have not been successful in Mathematics 9 can take either Mathematics 14, which leads to Mathematics 24, or register in Mathematics Preparation 10. Successful completion of Mathematics Preparation 10 leads to either of Applied Mathematics 10 or Pure Mathematics 10 or Mathematics 24.

Principals must ensure that credits to be earned are recorded correctly and checked carefully at the school level. For more information about these procedures, see under the Information Services Branch in the Instructional Delivery section.

Programming for Application and Transfer of Learning

To enhance student learning, senior high school programming and course timetabling should provide students with the opportunity to transfer learning to other areas.

Within each course, students have opportunities to apply their learning. As well, student learning may be extended through the application of the outcomes in one course to the outcomes in other courses. Educators are encouraged to use planning and course timetabling to capitalize on opportunities for connections within and across subjects in order to strengthen student learning.

All senior high school courses offered to students must be appropriately timetabled, taught, assessed, and reported to Alberta Education.

For funding conditions for Grades 10–12, school authorities should consult the current *Funding Manual for School Authorities*.

Focused, Articulated Programming

Some school systems have worked in cooperation with local post-secondary institutions and employers to develop high school programming that articulates with a variety of programs in colleges and technical institutes, as well as meeting the requirements of the Alberta High School Diploma. This programming is focused in that it combines a selection of interrelated CTS courses with appropriate academic courses and off-campus learning. Alberta Education encourages these local initiatives.

For more information, contact the Curriculum Branch.

Student Information Needs

- Also see under Planning in Junior High for Senior High Programs in the ECS to Grade 9 Programming section.
- Students should be given assistance in planning their senior high school programs. Steps also should be taken to secure parents' understanding of and concurrence with their children's registrations.

- In planning a program, schools should ensure that students keep in mind the requirements for a diploma or a certificate as outlined in this *Guide*.

- In addition to graduation requirements, a student's choice of subjects in senior high school may be governed by requirements adopted by the school authority that has jurisdiction over the student, provided that these requirements do not contravene the provisions of this *Guide*.

In providing assistance to students planning their programs, care should be taken to ensure that such programs enable each student to attain the aim of either meeting entry requirements for post-secondary programs or acquiring the knowledge, skills and attitudes that will facilitate direct career entry. Also see Focused, Articulated Programming in this section.

- Students under age 16 may take distance learning courses from the Alberta Distance Learning Centre, subject to approval of the principal. Students aged 16 or over do not require approval of the principal to take distance learning courses.

For more information about the Alberta Distance Learning Centre, see the Instructional Delivery section.

- Students should be made aware of special programs that are available to meet their individual needs or the needs of their community.

- Students eligible under section 10 of the *School Act* have the opportunity to complete most of their core course work in French, with the exception of English language arts requirements.

- Aboriginal students also may access resources and programs that are designed to meet their needs and to further their knowledge of Aboriginal languages and cultures. The Native Education Policy 3.6.3 is in the *K–12 Learning System Policy, Regulations and Forms Manual*.

Scholarships

All students should be made aware of the requirements for the Alexander Rutherford Scholarships for High School Achievement.

These scholarships are awarded to students achieving an average of 80% or higher in five designated subjects in each of Grade 10, Grade 11 and Grade 12. Each grade is assessed independently. CTS courses may be used to meet the eligibility requirements for Grade 10 and Grade 11 only. Also see Percentages and Letter Gradings in this section of this *Guide*.

Also, the top ten Alberta students graduating from Grade 12, as determined solely on the basis of diploma examination results in English Language Arts 30-1 or Français 30, Social Studies 30, and three other diploma examination subjects, are recognized as "Rutherford Scholars."

LINK

For more information, contact Alberta Scholarship Programs or visit their Web site at www.alis.gov.ab.ca/scholarships.

Registered Apprenticeship Program (RAP) Scholarship

The Alberta Apprenticeship and Industry Training Board Registered Apprenticeship Program Scholarship—known as the RAP Scholarship—recognizes annually the academic and trade-related accomplishments of up to 50 senior high school students who are taking part in the Registered Apprenticeship Program. This scholarship provides \$1000 toward the costs of continuing into regular apprenticeship programs.

To qualify for the scholarship, an applicant must:

- be registered as an Alberta apprentice in a trade
- have plans to continue into a regular apprenticeship program after completing senior high school
- achieve an Alberta High School Diploma or Certificate of Achievement
- have completed a minimum of 250 hours of on-the-job training and work experience in the respective trade
- get a recommendation from an employer, supervisor or journeyman stating that they should continue in the apprenticeship program with the goal of becoming a Certified Journeyman.

Applicants will be asked to provide:

- a personal statement of purpose indicating why he or she is a "good fit" for a career in a trade
- a recommendation from their employer
- a recommendation from a senior high school teacher or counsellor.

LINK

For more information about this scholarship, and its awards, contact Alberta Scholarship Programs or visit their Web site at www.alis.gov.ab.ca/scholarships. For further information, visit Apprenticeship and Industry Training at www.tradesecrets.org.

General Requirements for Admission to Post-secondary Educational Institutions

Possession of an Alberta high school diploma or certificate does not guarantee admission to a post-secondary institution. Students who intend to enter a post-secondary institution should be advised, as early as Grade 10, to check the calendars of these institutions for admission requirements, and they should plan their senior high school programs accordingly. Information about post-secondary institutions can be found on the Alberta Learning Information Service (ALIS) Web site at www.alis.gov.ab.ca.

For planning high school occupational and career and technology studies programs for articulation with Apprenticeship and Industry Training programs, see Apprenticeship Articulation under Career and Technology Studies in the Courses and Programs section, and the Senior High School Graduation Requirements section.

Percentages and Letter Gradings

Marks are to be submitted to Alberta Education in percentages. Physical Education 10, taken through a home education program, may be submitted as a pass or a fail.

Evaluations of course work completed outside of Alberta are to be reported in percentages that conform to the Alberta scale below, or may be reported as a pass or fail.

Percentage Scale

80 – 100
65 – 79
50 – 64
0 – 49

Letter Grading

A
B
C
F

The Alexander Rutherford Scholarships for High School Achievement require that achievement and evaluation in completed courses be reported in percentages. Subjects in which achievement is reported by a pass or fail are not considered in the calculation of averages by the scholarship program administrators. Also see Scholarships in this section.

For more information, contact Alberta Scholarship Programs.

**High School
Summer Break,
Evening (6 p.m. or
later) and Weekend
Programs**

Summer, evening and weekend programs for senior high school students may be offered by boards, accredited private schools and other accredited high schools; e.g., Alberta vocational colleges, private and public colleges.

The requirements noted in this *Guide* apply to all schools offering senior high school summer, evening and weekend programs for credit, with the exception that for these programs, schools must provide access to instruction of at least 16 hours per credit.

The exceptions to the above are that Work Experience 15, 25 and 35, Special Projects 10, 20 and 30 and the Registered Apprenticeship Program courses require 25 hours per credit even when offered in summer, evening or weekend programs.

Three-credit courses in Work Experience 15, 25 and 35 and Special Projects 10, 20 and 30 will be offered for 62.5 hours and funded at 2.5 credit enrollment units.

Courses and Programs

Introduction

This section of the *Guide* provides information primarily about senior high school courses and programs. However, in several instances, references to courses and programs are made for elementary, Kindergarten to Grade 6, and to junior high school, Grade 7 to Grade 9. Such references have been included here to reduce repetitiveness of information.

The areas pertaining to more than senior high school are:

- Career and Technology Studies
- Alternative Language Programs under sections 11 and 21 (includes French immersion)
- Language Courses
- Information and Communication Technology
- Instructional Time and Funding
- Integrated Occupational Program
- Locally Developed Courses
- Mathematics
- Off-campus Education, including Work Study/Community Partnerships
- Physical Education.

Career and Life Management (CALM)

CALM may be taken by senior high school students in their Grade 10, Grade 11 or Grade 12 year.

Principals may wish to consider the option of having students take CALM in either their Grade 10 or Grade 12 year, if such students plan to take three sciences, as well as a fine arts or career and technology studies course in Grade 11.

Exemptions

Transfer-in students and mature students may be exempted from the CALM requirement. See under the Grade 12 Exemptions for Transfer-in Students in the Student Assessment in Senior High School Subjects section and also the Mature Students section.

Career and Technology Studies

CTS is a competency-based curriculum with an integrated structure that provides increased opportunity for schools to offer programs to meet the needs of students.

CTS is organized into the following 22 strands. Strands are made up of 1-credit courses.

Agriculture	Fashion Studies
Career Transitions	Financial Management
Communication Technology	Foods
Community Health	Forestry
Construction Technologies	Information Processing
Cosmetology Studies	Legal Studies
Design Studies	Logistics
Electro-Technologies	Management and Marketing
Energy and Mines	Mechanics
Enterprise and Innovation	Tourism Studies
Fabrication Studies	Wildlife

Senior High School Credits for CTS Courses Completed in Junior High School

Some students may complete successfully all of the outcomes for individual CTS courses while in junior high school. The senior high school principal may accept a recommendation from the junior high school principal that a student has completed successfully all of the course outcomes and should be given credit. A mark of "P" for pass, or a percentage grade, may be assigned to the student by the senior high school principal. This course can then be included when reporting student achievement through the normal student records system and will appear on the student's transcript.

Note 1: Any CTS courses completed in junior high school and recommended for credits in senior high school will not receive credit enrollment unit (CEU) funding.

Note 2: The course challenge provision does not apply to these students.

More information is available in the *Funding Manual for School Authorities*.

Reporting CTS Student Achievement

Schools are to report completed CTS courses with percentage grades.

Note: The option of reporting a "P" for pass is available **only** when credit recommendation is based on course completions in junior high school. All other circumstances require the reporting of a percentage grade.

Apprenticeship Articulation

Articulation agreements have been established with the Automotive Service Technician, Cabinetmaker, Carpenter, Cook, Electrician, Electronic Technician, Hairstylist, Warehousing, Outdoor Power Equipment Technician and Welder trades. Based on these agreements, and a policy on prior learning assessment developed by Apprenticeship and Industry Training, students may qualify for a portion of the in-school training component and on-the-job credit for these trades. These students are to have taken the appropriate career and technology studies (CTS) courses and successfully challenged the appropriate theory examinations in the respective trades.

Further details regarding apprenticeship articulation agreements, including correlations to CTS strands and courses, are provided in Appendix 5 of the *CTS Manual for Administrators, Counsellors and Teachers*.

A senior high school diploma is encouraged for admission into an apprenticeship program. However, students and their parents should be made aware that admission into apprenticeship programs may not require a senior high school diploma.

For more information, contact Apprenticeship and Industry Training or access their Web site at www.tradesecrets.org.

English as a Second Language

Senior high schools with students learning English as a second language should refer to the senior high school program of studies and the *Senior High English as a Second Language Guide to Implementation*, 2002. Elementary schools should refer to the *Elementary English as a Second Language Guide to Implementation*, 1996, available for purchase from the Learning Resources Centre, or for viewing and downloading from the Alberta Education Web site. Junior high schools can find useful information in both of these documents.

For more information, see the English as a Second Language Policy 1.5.1 in the *K–12 Learning System Policy, Regulations and Forms Manual*, and the *Language Education Policy for Alberta*, 1988, or contact the Curriculum Branch.

Francophone Programs

Section 10 of the *School Act* states that where individuals have rights under section 23 of the *Canadian Charter of Rights and Freedoms* to have their children receive school instruction in French, their children are entitled to receive that instruction in accordance with those rights wherever in the province those rights apply. School jurisdictions should consult the *Language Education Policy for Alberta*, 1988 and the *K–12 Learning System Policy, Regulations and Forms Manual*.

For more information, contact the French Language Services Branch.

Alternative Language Programs

Alternative French Program (includes French Immersion)

According to section 11 of the *School Act*, a board may **authorize the use of French or any other language as a language of instruction**. Alberta Education encourages opportunities for all Alberta students to learn French by making available programs and services for alternative French language programs (includes French immersion) under section 21 of the *School Act*.

[French as a Second Language and French Language Immersion—Policy 1.5.2]

Boards offering alternative French language programs (includes French immersion) and French as a second language programs shall develop, keep current and implement written policy and procedures consistent with provincial policies and procedures.

Instruction Time

Research and experience have demonstrated clearly that student proficiency in the French language is strongly correlated to the amount of time during which French is used as a language of instruction. Recognizing that many local factors may determine the time allocated to instruction in the French language, the following ranges are recommended as supportive of the objectives of alternative French language programs (includes French immersion).

Kindergarten	100%
Grades 1 – 2	90% – 100%
Grades 3 – 6	70% – 80%
Grades 7 – 9	50% – 80%
Grades 10 – 12	40% – 80%

More information is available in the *K–12 Learning System Policy, Regulations and Forms Manual*, the current *Funding Manual for School Authorities*, and from the French Language Services Branch.

Funding

The following table summarizes the minimum number of instructional hours per year, using French as the language of instruction, that are required to qualify for Official Languages in Education program funding and for full-time equivalent (FTE) funding in alternative French language programs^❶ and in French first language programs.

French First Language/ Alternative French Language Programs ^❶	Instructional Hours in French for Minimum Program Funding	Instructional Hours in French for Full FTE Funding
Kindergarten	238	712
Grades 1 to 6	475	712
Grades 7 to 9	380	570
Grades 10 to 12	250 (10 credits)	600

❶ Includes French immersion.

School authorities only receive funding at the French as a second language rate for students who receive less than the above minimum number of instructional hours in French.

That is, less than 238 hours in Kindergarten, less than 475 hours in Grade 1 to Grade 6, less than 380 hours in Grade 7 to Grade 9, and less than 250 hours in Grade 10 to Grade 12.

For more information, see the *Funding Manual for School Authorities*.

Languages Other than English or French (Bilingual Programs)

According to section 11 of the *School Act*, a school board may authorize the use of a language other than English or French as a language of instruction. In such cases, “**partial immersion (bilingual) program**” means a program in which a language other than English or French is used as the language of instruction, to a maximum of 50% of the instructional day. German language arts (K to Grade 12), Spanish language arts (K to Grade 6) and Ukrainian language arts (K to Grade 12) programs of study are available provincially. School authorities wishing to develop a language arts program in a language other than English or French should consult *The Common Curriculum Framework for Bilingual Programming in International Languages, Kindergarten to Grade 12*, 1999.

For more information, contact the Curriculum Branch.

Language Courses

Aboriginal Language and Culture Courses

An Aboriginal language and culture course means a course in which the Aboriginal language is studied as a subject for the purpose of developing communication skills and cultural awareness.

Language courses have been developed provincially for Blackfoot and Cree. Course development for Cree for various entry points at the elementary, junior high and senior high school levels is currently under way.

For more information, contact the Curriculum Branch.

French as a Second Language Courses

In French as a second language courses (FSL), the French language is often taught between 30 and 40 minutes a day as a subject. The goal of the sequence of FSL courses is to develop students' linguistic, cultural and strategic knowledge in French in order to be able to communicate in the language and develop understanding of Francophone cultures.

For federal funding information, see the Federal French Language section in the *Funding Manual for School Authorities*.

Elementary and Junior High Schools

The Nine-year French as a Second Language Program of Studies is available for implementation from grades 4–9 in schools that are currently offering FSL programming at the elementary and junior high school levels. The nine-year program of studies is a grade-related course sequence as opposed to a proficiency-based program of studies (1992). This course sequence will assist in improved articulation between elementary and junior high schools.

Until the language requirement becomes mandated at the junior high school level, Grade 6 students entering junior high school should be encouraged to continue their study of French.

Junior high school principals may offer senior high school French courses for credit. For more information on the offering of French 10 and/or French 20 for credit at the junior high school, refer to Senior High School Courses and Credits for Junior High School Students in the Student Placement and Promotion section.

Senior High Schools

For the 2005–2006 school year the 1992 FSL program at the senior high school level, which consists of seven courses, is available for students:

- French 13
- French 10
- French 20
- French 30
- French 31a
- French 31b
- French 31c

When students enter senior high school, they are to be placed in FSL courses that correspond to their level of proficiency in FSL. For example, a student who has acquired the skills and knowledge required for Beginning Level 3 in junior high should be placed in French 20. A student who has completed the equivalent of French 20 in junior high school should be placed in French 30. To assist with the placement of students in FSL courses, see the following testing package: *French as a Second Language Evaluation Package for Junior/Senior High Schools – Beginning Level 3*. This material is available for purchase from the LRC.

The French 13, 10, 20, 30 course sequence will be phased out on a year-to-year basis starting in September 2005 with French 13.

It is recommended that schools offer the French 10-9Y, French 20-9Y and French 30-9Y course sequence only if students demonstrate the requisite skills, knowledge and attitudes outlined in the Grade 9 portion of the Nine-year French as a Second Language Program of Studies.

International Language and Culture Courses

An international language and culture course means a course in which the international language is studied as a subject for the purpose of developing communication skills and cultural awareness.

Language courses have been developed provincially for Chinese, German, Italian, Japanese, Latin, Spanish and Ukrainian at a Grade 10 entry point.

Courses have also been developed for various entry points at the elementary and junior high school levels with continuing courses at the senior high school level in Chinese, German, Italian, Japanese, Spanish and Ukrainian.

For more information, contact the Curriculum Branch.

Course Challenges for Languages

In the assessment process for a language course challenge, students need to perform a number of oral, written and listening and reading comprehension tasks as well as show samples of their work that demonstrate the expected standards for the course being challenged. Student performance and quality of work are to be evaluated by a certificated teacher who has expertise in the language course being challenged. For more information on the Challenge Procedure, see Appendix 3: Course Challenge in this *Guide*.

Exceptions

French 13 is excluded from the course challenge and waived prerequisite provisions.

Locally Developed Language Courses

Locally developed/acquired and locally authorized courses in second languages are also available. See the Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Course Policy 1.2.1 in the *K-12 Learning System Policy, Regulations and Forms Manual*; the Language Education Policy for Alberta, 1998; or contact the Curriculum Branch for more information.

School authorities wishing to locally develop language and culture courses should refer to The Common Curriculum Frameworks for International Languages, 2001.

The Government of Alberta has recognized the multicultural nature of the province through the *Alberta Human Rights, Citizenship and Multiculturalism Act*, 1996 and the *Language Education Policy for Alberta*, 1988. Accordingly, Alberta Education encourages school authorities to develop second language courses to meet the needs of the local community when such courses are not available as provincially authorized courses. Guidelines and procedures for the development and authorization of these second language courses are contained in the *K–12 Learning System Policy, Regulations and Forms Manual*.

For more information, contact the Curriculum Branch.

Gifted and Talented Student Programs

[For Senior High Schools]

International

Baccalaureate Program,

Advanced Placement

Program,

Locally Developed/Acquired

and Locally Authorized

Complementary Courses

Schools are encouraged to challenge capable students beyond the 10–20–30 course sequences. This challenge can be provided through the International Baccalaureate program, or by preparing students to challenge the Advanced Placement program examinations, or by offering locally developed/acquired and locally authorized courses. These programs extend the outcomes beyond the provincial 10–20–30 course sequences.

Schools should inform students of the acceptability of International Baccalaureate courses, of the Advanced Placement program, and of locally developed/acquired and locally authorized courses for credit and/or advanced placement by post-secondary institutions.

Schools also should inform students that these gifted and talented student programs do not replace the diploma requirements outlined in the Senior High School Graduation Requirements section.

Further information may be obtained on the International Baccalaureate Organization Web site at www.ibo.org or the Advanced Placement Web site at www.ap.ca.

Green Certificate Program

The Green Certificate Program is administered by Alberta Agriculture, Food and Rural Development. Alberta senior high school students can register in any one of the seven specializations available. Each specialization can be studied at three levels of increasing knowledge and proficiency.

The program is delivered off-campus, and students may earn credits for successfully completing a Green Certificate Program by enrolling in courses in any of the seven available Green Certificate Specializations: Cow-Calf Beef Production, Dairy Production, Feedlot Beef Production, Field Crop Production, Irrigated Field Crop Production, Sheep Production, and Swine Production. Courses in these specializations may be found in Appendix 1 of this *Guide*.

Information and Communication Technology

The Information and Communication Technology (ICT) curriculum identifies the technology outcomes that students should achieve by the end of grades 3, 6, 9 and 12. The outcomes provide a basic technology curriculum for students so that they are prepared for the workplace, further studies and lifelong learning. Proficiency with technology has become an essential skill in almost every area of human endeavour. Students need to have these basic skills along with the skills found in language arts, mathematics, science and social studies. Although the technology outcomes form a program of studies, they are not intended to be taught as a stand-alone course, but rather within the context of other subject areas being studied. All school authorities are required to have an ICT curriculum implementation plan in place that takes into consideration how the ICT outcomes will be addressed within grade levels and within specific subjects.

Integrated Occupational Program

The Integrated Occupational Program (IOP) is a five-year program that begins in the Grade 8 year of schooling and continues through the Grade 12 year of schooling. It is for students who demonstrate reading, writing, computational and other levels of achievement below those of their age peers.

The IOP is intended for students who require an integrated program that enhances their academic and occupational competencies as well as their ability to enter into employment and/or continuing education and training. The program provides students with opportunities to acquire, consolidate and expand on knowledge, skills and attitudes necessary for successful transfer to regular programs or for progression through the IOP.

The Integrated Occupational Program is available to students in grades 8, 9, 10, 11 and 12 in jurisdictions that choose to offer the program. Certificates of Achievement are awarded to those who successfully complete the program. Most students entering the senior high IOP will have completed the junior high IOP. However, students may enter the Integrated Occupational Program in their Grade 10 year.

The following criteria have been established, which, taken together, may help determine student eligibility for the Integrated Occupational Program.

- **Age:** Students must be 12 years and six months of age or older as of September 1 of the current school year and be entering their Grade 8 year.
- **Achievement:** Candidates for the Integrated Occupational Program have a range of abilities and interests. Their achievement levels tend to make it difficult for them to experience success in a diploma program.
- **Related Factors:** Some of the factors that should be considered are: behaviour, motivation, emotional makeup, psychomotor coordination, work habits, attendance, persistence.
- **Learning Styles:** Candidates benefit from concrete learning experiences.

IOP academic courses focus on the development of knowledge, skills and attitudes necessary for everyday living at home, in the community and on the job. IOP occupational courses provide students with the opportunity to apply the knowledge, skills and attitudes developed in academic courses and, at the same time, prepare them for entry-level job opportunities in eight occupational clusters.

The eight occupational clusters are: agribusiness, business and office operations, construction and fabrication, creative arts, natural resources, personal and public services, tourism and hospitality, and transportation. Community partnerships are integral to all IOP courses. See Off-campus Education in this section.

More information is provided in the *Integrated Occupational Program Information Manual for Administrators, Counsellors and Teachers*, 1994; in the *K–12 Learning System Policy, Regulations and Forms Manual*; and in the *Funding Manual for School Authorities*.

Junior High IOP Core and Occupational Courses

A student shall have access to a minimum of 950 hours of instruction at Grade 8 and Grade 9.

- The recommended time allotment for Integrated Occupational Program (IOP) courses is:

Minimum Core Time	575	hours per year
Minimum Occupational Courses Time	225	hours per year
Unspecified Core and/or Occupational Courses Time	<u>150</u>	hours per year
Minimum TOTAL Instructional Time	950	hours per year

- The IOP Occupational Courses consist of Business Education, Personal and Public Services, and Technical/Occupational courses. Both Grade 8 and Grade 9 instruction are to include at least two of these three occupational courses.
- Unspecified time of 150 hours may be used to provide additional instructional time in the IOP academic core courses and/or the occupational courses.

Senior High IOP Courses

Although academic courses in the Integrated Occupational Program are designated 3-credit courses, schools are encouraged to provide more instructional time than would normally be allocated for a 3-credit course, if this would help to ensure student success.

Some students in the Integrated Occupational Program, upon completion of a Certificate of Achievement, may wish to complete their Alberta High School Diploma as well. Should this occur, 10 credits in a 36-level course from any occupational cluster will satisfy both of the 10-credit requirements for the Alberta High School Diploma. Students who wish to complete the Alberta High School Diploma are expected to satisfy the requirements as outlined in the Senior High School Graduation Requirements section.

Some students in the Integrated Occupational Program may wish to complete an Alberta High School Diploma rather than completing their Certificate of Achievement. These students are expected to meet the specified Alberta High School Diploma graduation requirements.

Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses^①

Note: Policy 1.2.1 – *Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses* is currently under review.

Alberta Education is committed to ensuring that all students have access to a quality education. Locally developed/acquired and authorized junior and senior high school courses authorized by school authorities provide instructional opportunities that complement provincially authorized programs. This policy enables school authorities to be innovative and responsive to local and individual needs through the development and authorization of courses at the local level.

Prior to submitting a senior high school course to the school authority for approval, the course outline will be forwarded to the Director, Curriculum Branch for review regarding overlap with provincially authorized curriculum.

School authorities shall forward all **completed^②** authorizations and course outlines of credit courses (including second language courses) to the Director, Curriculum Branch by:

- May 31 for implementation in the first semester of the following school year, or
- December 31 for implementation in the second semester of the same school year.

Locally developed/acquired courses must be locally authorized before being offered to students.

For procedures and criteria for meeting the expectations of locally developed/acquired and authorized courses, refer to Policy 1.2.1 – *Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses* in the *K–12 Learning System Policy, Regulations and Forms Manual*.

^① The waiver prerequisite provision does not apply to any locally developed/acquired and authorized senior high school complementary courses.

^② Completed authorizations for senior high school credit courses include the board motion—which is requested from the local board/authority after Alberta Education has reviewed the course outline for significant overlap with provincial courses/programs of study, the final version of the locally developed and authorized course outline, and, if a course is acquired from another authority, a letter of permission from the developing board granting permission to your authority to use or adapt their course. Please allow six weeks for the Alberta Education review.

Information on Courses

For current information on what locally developed/acquired and locally authorized courses are being offered in the province, contact the Curriculum Branch.

International Baccalaureate

School authorities offering the International Baccalaureate program are permitted to develop and locally authorize these courses. Only those schools authorized to offer the International Baccalaureate program are permitted to use these courses.

Religious Studies

Religious studies may be offered at the discretion of the school board under section 50 of the *School Act*.

School authorities requiring the authorization or reauthorization of religious studies courses are to continue following the Locally Developed Religious Studies Courses provision. A description of each course is to be forwarded to the Director, Curriculum Branch.

School authorities wishing to offer locally developed religious studies courses for credit should refer to the Locally Developed Religious Studies Courses provision. These courses continue to require ministerial authorization.

All school authorities wishing to continue offering locally developed religious studies courses for credit need to submit their requests for reauthorization to the Director, Curriculum Branch, every three years.

For more information on locally developed/acquired and locally authorized junior and senior high school complementary courses, refer to the *K–12 Learning System Policy, Regulations and Forms Manual*.

Mathematics

Calculator Policy for Mathematics

To ensure compatibility in Alberta's programs of study for senior high school mathematics, Alberta Education expects students to use calculators in their day-to-day studies as well as when writing diploma examinations in mathematics and the sciences.

In 1996, Alberta Education informed schools that the two new senior high school programs—Applied Mathematics 10–20–30 and Pure Mathematics 10–20–30—require graphing calculators. School authorities decide whether to have students purchase calculators, make rental calculators available like textbooks, provide class sets, or loan calculators through the school library.

For further information, see the *General Information Bulletin: Diploma Examinations Program*, or contact the Learner Assessment Branch.

Mathematics Preparation 10

Mathematics Preparation 10 can be offered in senior high school to those students who have not experienced success in Grade 9 mathematics. Mathematics Preparation 10 leads to both the applied and pure mathematics sequences and may be offered for 3 or 5 credits. A 3-credit course may be offered for 62.5 hours of instruction and will be funded at 2.5 CEUs.

Music—Private Study

When a student requests music credits for private study, in voice or an instrument, a principal may grant 5 credits for each of:

- Choral Music 10 for voice or Instrumental Music 10 for an instrument
- Choral Music 20 for voice or Instrumental Music 20 for an instrument
- Choral Music 30 for voice or Instrumental Music 30 for an instrument.

Students are not to receive credits for both school music and music by private study when those programs are both instrumental or both choral [voice]. The maximum credits a student can earn in either a Choral Music 10–20–30 program or an Instrumental Music 10–20–30 program is fifteen. For example, a student cannot earn 15 credits in instrumental school music and another 15 credits in instrumental private study. This does not affect locally developed/acquired and locally authorized courses.

Credits for work in private music study completed in previous years may be applied to courses in advance of the student's current grade level.

If a student presents an official transcript verifying that he or she has achieved the outcomes required for the equivalent of a 30-level credit, the principal is to recommend the awarding of a maximum of 15 credits in music (5 each for 10 level, 20 level and 30 level), whether or not the student has documentation for all the required components for equivalent credits for the 10 and 20 levels.

Similarly, if a student has achieved the outcomes required for 20-level equivalency, the principal is to recommend the awarding of 10 credits in music (5 for the 10 level and 5 for the 20 level). The chart, which follows, provides the information necessary for principals to recommend credits for music taken by private study.

The principal is to evaluate the documents and provide this information to the Information Services Branch. Electronic submission of this information, using Edulink, is encouraged, however, a High School Evaluation form can be forwarded to the Information Services Branch. Evaluation forms can be obtained from the Alberta Education Extranet Web Site under Tools and Software. To obtain credit, students are to have passed both the practical and theory components listed in the chart for that course level.

Marks submitted by schools to Alberta Education should be calculated for each course level as follows:

Practical Component (Course Level)	– 70% of mark submitted
Other Components (Theory)	– 30% of mark submitted

Note: Principals are to recommend credits only on the basis of official transcripts as issued by Conservatory Canada, the Royal Conservatory of Music or Mount Royal College, Calgary. Diplomas, photocopies of diplomas or photocopies of transcripts are themselves insufficient for evaluation purposes.

In those instances where a student does not provide an official transcript for each lower course level being evaluated, the principal is to report a mark of “P” for pass, rather than a percentage score, when recommending the awarding of waived credits.

COURSES FOR WHICH CREDITS MAY BE RECOMMENDED
FOR MUSIC TAKEN BY PRIVATE STUDY
Revised 2003

		10-level Courses	20-level Courses	30-level Courses
Conservatory Canada	Voice ^①	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
	Electronic Organ, Pipe Organ, Organ	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
	Piano, Strings, Guitar ^②	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
	Woodwind, ^③ Brass ^④	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
Royal Conservatory of Music	Voice ^①	Grade 6 + Theory I	Grade 7 + Theory II	Grade 8 + Theory II
	Piano, Strings, ^② Accordion, Guitar, Organ	Grade 6 + Theory I	Grade 7 + Theory II	Grade 8 + Theory II
	Woodwind, ^③ Brass, ^④ Percussion, Recorder	Grade 4 + Theory I	Grade 6 + Theory II	Grade 8 + Theory II
Mount Royal College, Calgary	Voice ^①	Grade 4 + Theory I	Grade 6 + Theory II	Grade 8 + Theory II
	Piano, Strings ^②	Grade 6 + Theory I	Grade 7 + Theory II	Grade 8 + Theory II
	Woodwind, ^③ Brass, ^④ Percussion	Grade 4 + Theory I	Grade 6 + Theory II	Grade 8 + Theory II

① All voice courses count as Choral Music 10–20–30 respectively for senior high school credits. All other courses are to be used for Instrumental Music 10–20–30 respectively.

② Strings include violin, viola, violoncello and double bass only.

③ Woodwind includes flute, oboe, bassoon, clarinet and saxophone only.

④ Brass includes trumpet, horn (French horn), trombone, euphonium and tuba only.

Off-campus Education

[Policy 1.4.3]

Alberta Education's three-year business plan encourages schools and teachers to take advantage of different delivery options, such as distance education and workplace learning. The Off-Campus Education policy supports efforts made to enhance and expand learning through the use of community resources. The policy includes a number of programs and a range of instructional and delivery strategies. The Off-Campus Education policy:

- supports the use of off-campus initiatives across the curriculum; that is, courses and course components in both core and optional subject areas
- supports the issuing of senior high school credit for workplace learning that is approved by the school and by the employer.

Specific procedures and legislation about off-campus education programs are provided in the *Off-campus Education Guide for Administrators, Counsellors and Teachers*, 2000 and the *K-12 Learning System Policy, Regulations and Forms Manual*.

The off-campus policy includes the following categories:

- Integrated Occupational Program
- Registered Apprenticeship Program
- Work Experience 15, 25 and 35.

Program components include:

- community partnerships
- job shadowing
- mentorships
- work study.

Registered Apprenticeship Program

The Registered Apprenticeship Program (RAP) is a program in which students spend part of their time in school and part of their time in industry as registered apprentices in one of Alberta's 50 designated trades.

Students enrolled in the Registered Apprenticeship Program are paid by their employers. Students enrolled in Work Experience Courses may be paid by the employer at the employer's discretion.

Information about RAP may be obtained from the *Registered Apprenticeship Program: Information Manual*, from the Curriculum Branch, or from the nearest Apprenticeship and Industry Training Office, Alberta Advanced Education.

Additional information, course sequences and course codes and names for RAP are contained in Appendix 2 of this *Guide*.

Work Experience 15, 25 and 35

Work experience education is addressed in the Off-Campus Education policy.

1. Each of the Work Experience 15, 25 and 35 courses, at each level, may be offered for 3, 4, 5, 6, 7, 8, 9 or 10 credits. Students may earn any number of credits in work experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.
2. Career Readiness courses are available within the Career Transitions strand of the Career and Technology Studies program. These courses are linked to the Work Experience 15, 25 and 35 courses, as follows.
 - The introductory course, CTR1010: Job Preparation, is a required course for, but in addition to, the first work experience course taken by a student.
 - The intermediate course, CTR2010: Job Maintenance, is a recommended course for the second work experience course taken by a student.
 - The advanced course, CTR3010: Preparing for Change, is a recommended course for the third work experience course taken by a student.

The following procedures associated with previous work experience education courses are retained.

- Each work experience course is to be time-based; i.e., 25 hours per credit. The exception is that 3-credit courses are to be offered for 62.5 hours and will be funded at 2.5 credit enrollment units.
- A student may enroll in Work Experience 35 without having completed Work Experience 15 and/or Work Experience 25.
- A student completing Work Experience 35 for 10 credits will have met the “10 credits in any 30-level courses” graduation requirement for the Alberta High School Diploma.
- The provision of credits for waived prerequisite courses, as outlined in this *Guide*, does not apply to Work Experience 15, 25 and 35. Nor does the course challenge provision apply.

Learning Plans

The board shall be responsible for ensuring that course content, where available, is followed and where necessary, developed; and that off-campus education courses approved by the board shall specify outcomes for each student, as covered in Procedure 3 and Procedure 4 of the Off-Campus Education policy.

It is recommended that learning plans be developed for students enrolled in a work experience course through consultations among the teacher, student and employer.

A summary of competencies for each participating student outlines for employers the expectations that go along with participation in the program. It is recommended that the teacher sit down with the employer and attempt to identify and list the tasks the student is expected to perform, and that the on-site supervisor [employer] evaluates student performance in conjunction with the teacher.

Sample Learning Plan Templates are provided in the *Off-campus Education Guide for Administrators, Counsellors and Teachers*, 2000.

Reporting Work Experience Credits

When schools report work experience marks and credits to the Information Services Branch, they are to report the marks and credits given for career transitions courses separately as career and technology studies. For example, a student who took work experience for a total of 6 credits, which included the required CTR1010 course, should be reported as having taken a 1-credit CTS course and a 5-credit Work Experience 15 course.

Work Study/ Community Partnerships

Work study and community partnerships are components of other courses and are integrated into the teaching and experiential learning activities under the cooperative supervision of teacher-coordinators and employers.

Work Study

Work study education provides an opportunity for junior and senior high school students to apply the knowledge, skills and attitudes they have acquired in course work to real-life situations through a school-community partnership arrangement.

Work study includes experiential learning activities undertaken by a student:

- as an integral part of an approved school course or program
- under the cooperative supervision of the subject area teacher-coordinator and the employer.

It is recommended that junior high school work study take place between 8:30 a.m. and 4:30 p.m., Monday through Friday.

Community Partnerships

Community partnerships are based on the belief that educators can enhance student learning experiences by bringing the community into the school and by placing students out into the community.

Using the expertise, talent and resources of community-based service organizations and agencies, and of business, industry, citizen groups and parents, schools can enrich the educational experiences of students. School authorities are encouraged to develop policies respecting community partnerships and

business involvement in education. Also see Partnerships between School and Community under the General Principles for Effective Programming in the Vision, Mission and Basic Education section.

Students may be introduced to the concept of community partnerships through such activities as:

- inviting members of the community into the school as guest speakers or to give demonstrations
- involving community members in special events, such as career days or education week
- touring local businesses and industries
- sharing resources, such as films, videos, booklets, pamphlets, equipment or specialized laboratory facilities
- participating in programs, such as work study, job shadowing or mentorships
- participating in community service activities.

Community partnerships included in the Integrated Occupational Program are addressed in the *Integrated Occupational Program Information Manual for Administrators, Counsellors and Teachers*, 1994.

Physical Education

To meet the aim of the Physical Education program it is recommended that a variety of movement experiences be provided in all dimensions.

Exemptions— Senior High School

In the following specified circumstances; however, exemptions may be warranted from one or more dimensions and/or a physical education course.

Category	Conditions for Exemption	Procedures	Other Experiences
INDIVIDUAL	Religious beliefs	<ul style="list-style-type: none"> • Statement in writing from parent to principal. 	<ul style="list-style-type: none"> • When exemption is granted, other activities consistent with the aim and outcomes of the program should be substituted, where appropriate.
INDIVIDUAL	Medical	<ul style="list-style-type: none"> • Certification to principal by medical practitioner with statement of activities in which the student is not able to participate. 	
CLASS, GRADE OR SCHOOL	Access to facilities	<ul style="list-style-type: none"> • Initiated by school authority or parent. • Approved by school authority. 	

When a Grade 10 student is unable to meet the requirement for Physical Education 10 for medical reasons, every effort should be made to meet this requirement during the Grade 11 or Grade 12 year.

Notice of a student's exemption from Physical Education 10 is to be reported by the principal, to the Information Services Branch, by April 30 in the year of the student's anticipated graduation. When using the High School Course Reporting Form, an "EXP" is to be placed in the Completion Status column. An exemption may be reported electronically.

Students exempted from the Physical Education 10 requirement still are to present the total number of credits required for graduation.

Home Education

The results for Physical Education 10, taken through a home education program, may be submitted to Alberta Education as a pass or as a fail.

Special Projects Credits

Special projects credits are designed for work undertaken by students on an individual or small group basis and should not be used as a means of offering credits for unapproved courses. Students may enroll in Special Projects 10, 20 or 30. Special Projects 20 and Special Projects 30 do not have prerequisites.

Purpose

Special projects serve two major functions.

- Students become involved in the selection, planning and organization of their own programs.
- Students pursue activities in which they have considerable interest or ability but which are not within the scope of the regular curriculum or the programs being offered in the school.

Procedures

The requirements for special projects^❶ credits are outlined below.

- **Each project shall be carried out under the supervision of a staff teacher in the school.**
- **Students are required to submit a clearly planned proposal to the principal for approval, which should include:**
 - description or outline of the project
 - number of hours of work expected to complete the project
 - method by which the project is to be carried out
 - description of expected learner outcomes
 - evaluation procedures as outlined by a teacher
 - completion date expected
 - name of the supervising teacher.

❶ 4-H projects may qualify as special projects as long as they meet the requirements indicated. A student may not present a 4-H finished project for credit, without following the requirements indicated.

- The principal shall retain a copy of each special project proposal.
- The content of the special project need not be related to a specific school subject.
- If a special project is related to a specific school subject, the content of the project shall be distinct from, and in addition to, regular course requirements.
- Projects shall be completed and reported to the principal prior to the conclusion of the semester or full term.
- Where a project takes a student off campus, the provisions of the Off-Campus Education policy (see *K–12 Learning System Policy, Regulations and Forms Manual*) shall apply.
- Students who successfully complete projects are granted 3 credits for 62.5 hours of work or 5 credits for 125 hours of work in any one semester, or full term, on the approval of the principal. Three-credit special projects courses will be funded at 2.5 credit enrollment units (CEUs).
- Special projects also may be offered for 1, 2 or 4 credits. Credits will be awarded for successful completion in any one semester, or full term, on approval of the principal. These special projects courses will be funded at one credit enrollment unit, per course credit, for each 25 hours of instruction.
- School jurisdictions shall develop policies to ensure overall consistency and standardization of procedures governing special projects in their schools. Evaluation and reporting procedures should be included in the policy.
- Special projects credits may be applied toward the Alberta High School Diploma. A student completing Special Projects 30 may use these credits to partially fulfill the “10 credits in any 30-level courses” graduation requirement for the Alberta High School Diploma.

The following restrictions apply to special projects.

- Special projects credits shall not be awarded for student activities that would be considered a normal part of extracurricular or cocurricular activities generally offered by a school; e.g., school team sports, school newspaper, yearbook.
- In instances where a student enrolls in more than one special project, credits shall not be approved unless the projects vary substantially from year to year or demonstrate increased levels of proficiency.

Transfer Points (Recommended) and Course Sequences

Provincially developed programs are designed to accommodate transfer between course sequences at particular points. Also see under Course Sequence Transfer in the Awarding Course Credits section.

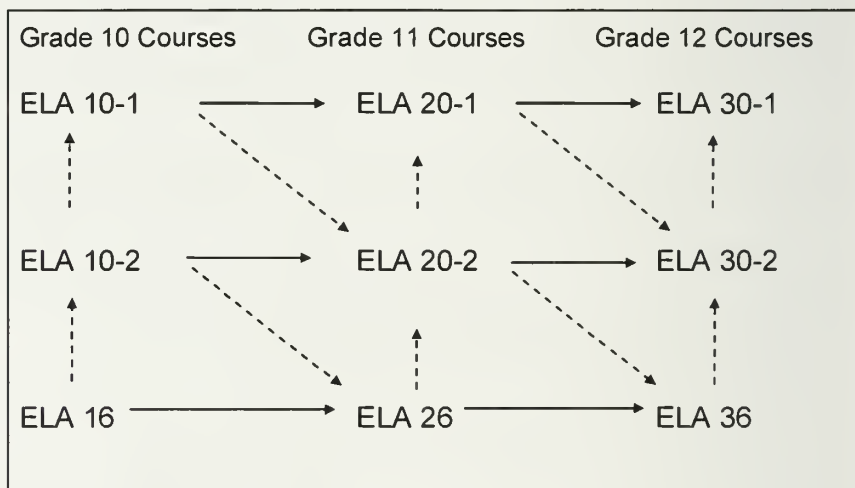

Special circumstances may warrant student transfer at other points in the curriculum; however, the standard transfer points are as follows for:

- English Language Arts Program
- Français Program
- French Language Arts Program
- French as a Second Language Program
- Mathematics Program
- Science Program
- Social Studies Program
- IOP, Occupational Courses to Career and Technology Studies Courses.

Students generally take the prerequisite in a course sequence; e.g., Social Studies 10–20–30. This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.

English Language Arts (ELA) Program

Français Program

French Language Arts Program

❶ Optional implementation 2005–2006. Provincial implementation 2006–2007.

French as a Second Language Program

1. For Students Commencing French in Senior High School

2. For Students Who Have Completed the Requirements of French 10 Prior to Grade 10

3. For Students Who Have Completed the Requirements of French 30 Prior to Grade 10

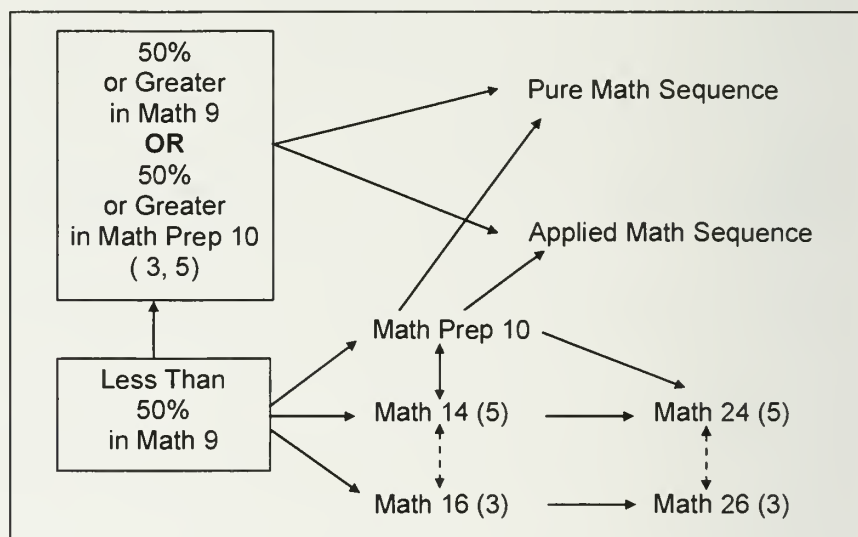

4. For Students Who Have Completed Grade 9 French Upon Entering Grade 10

Mathematics Program

For Students Who Entered Grade 10 in September 1998 or Subsequent School Years

Possible Sequences

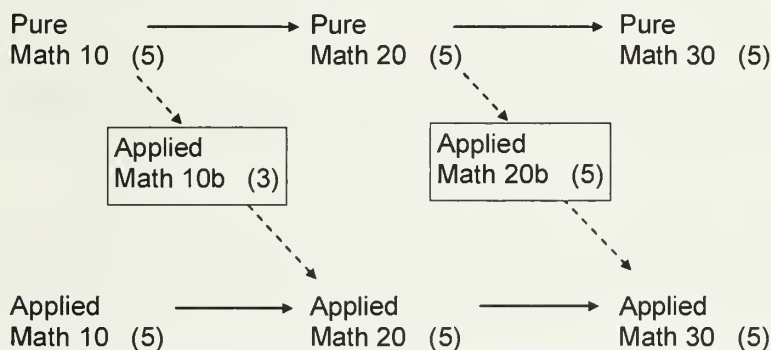

Pure and Applied Sequences

★ Pure Mathematics 30 is a corequisite for Mathematics 31.

Transferring from Pure to Applied

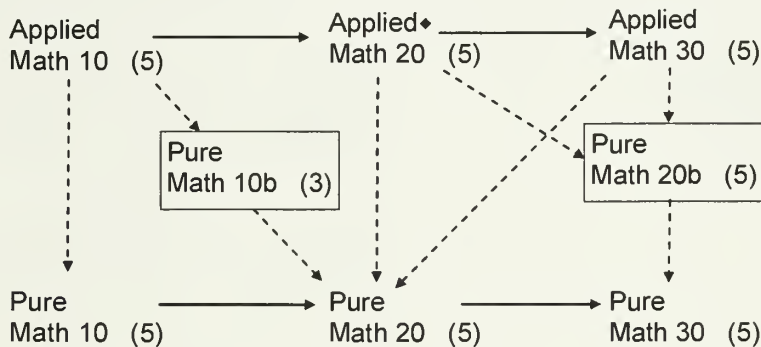

[Always requires a minimum of three courses to complete the sequence to the 30-level.]

Note: Although the recommended transfers from pure mathematics to applied mathematics are through the bridging courses, in some cases, students may move from the lower level of pure mathematics to the next level of applied mathematics serving the student's best interests.

Transferring from Applied to Pure

[Always requires a minimum of four courses to complete the sequence to the 30-level.]

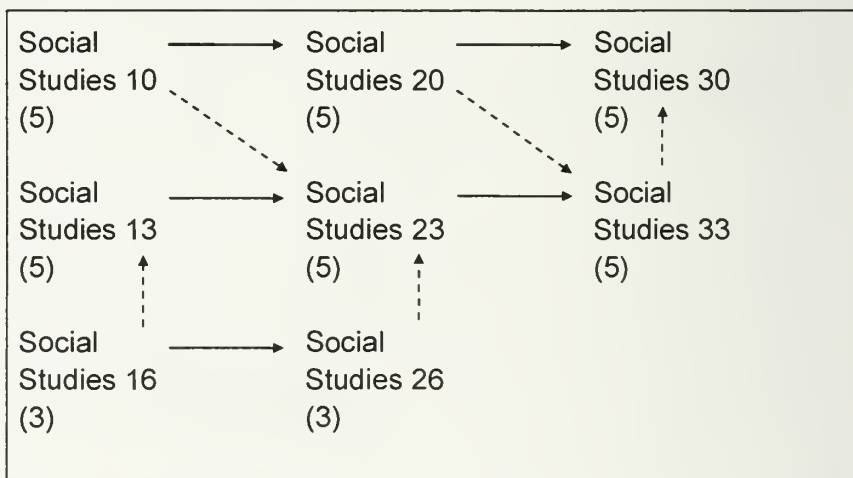

◆ A mark of 75% or greater in Applied Mathematics 20 is recommended for students transferring to Pure Mathematics 20.

Science Program

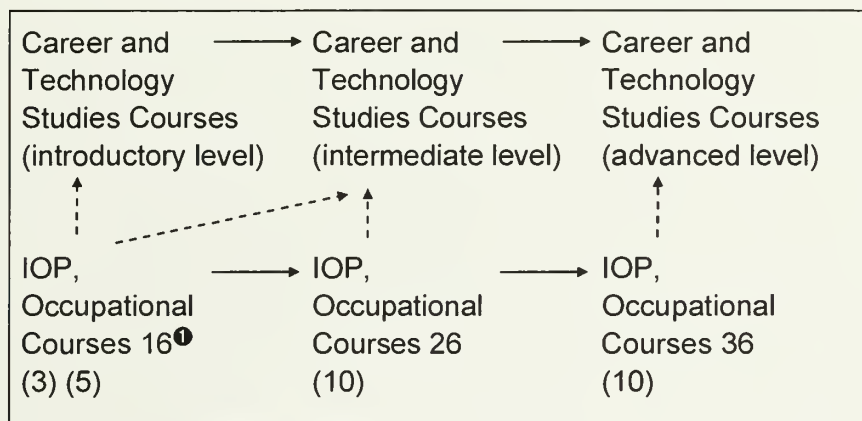

- ① Although the recommended transfer point from Science 24 is to Science 10, in exceptional cases, students may move from Science 24 to 20-level courses serving the student's best interests.
- ② Students who have passed Biology 20, Chemistry 20, Physics 20 or Science 20 (50% or greater) may enroll in Science 30.

Social Studies Program

Note: Social Studies 30 and Social Studies 33 may be taken in the same semester. If this occurs, it is the responsibility of the student to ensure that appropriate arrangements are made to write both diploma examinations.

IOP, Occupational Courses to Career and Technology Studies Courses

- ① Transfer from a 16-level occupational course directly to an intermediate-level career and technology studies course may be considered where there is content relevancy and prerequisite requirements are met.

Administrators are referred to the Senior High School Graduation Requirements section for more information regarding student transfer to the Alberta High School Diploma route.

PROGRAM

ADMINISTRATION:

Instructional Delivery

Aboriginal Education

Aboriginal people throughout the province have indicated that they want their children to complete regular school requirements and achieve the same standards as set for all students in Alberta.

To support the learning of Aboriginal students, schools are encouraged to use learning resources that give attention to Aboriginal heritage perspectives. Basic and other classroom resources (print and video), as well as a teacher resource catalogue and Aboriginal language programs, have been developed.

Both provincially authorized and locally authorized Blackfoot and Cree language and culture courses, as well as locally authorized courses for other Aboriginal languages, are offered in the province.

Alberta Education's policy on Aboriginal education states that all students in Alberta should understand and be aware of Aboriginal cultures, lifestyles and heritage. Aboriginal issues and culture may be explored in art, drama, science, social studies and other areas of the curriculum. Students, teachers and administrators may also explore Aboriginal issues in Alberta through a locally developed and/or authorized Aboriginal studies course. The *First Nations, Métis and Inuit Education Policy Framework*, 2002 is available on the Alberta Education Web site at www.education.gov.ab.ca/nativeed/nativepolicy.

Denotes a hyperlink in the online version to a referenced government document.

Denotes a hyperlink in the online version to a referenced government Web site.

Denotes a hyperlink in the online version to a referenced section within this *Guide*.

Many worthwhile initiatives including the establishment of the First Nations, Métis and Inuit Education Program resulted from the policy. Education programs were established to address the long term expected outcomes of the Policy Framework:

1. Improve First Nations, Métis and Inuit learner success in Early Childhood Services to Grade 12 and in post-secondary education.
2. Recognize and increase parental involvement in the education of First Nations, Métis and Inuit learners.
3. Strengthen relationships between First Nations, Métis and Inuit people, school jurisdictions, post-secondary institutions, vocational schools, apprenticeship providers, industry, other key education stakeholders and government.
4. Foster a greater appreciation and understanding by all Albertans of First Nations, Métis and Inuit people.

Alberta Education commits to proactive collaboration and consultation with First Nations, Métis and Inuit parents and communities, and other key education, government and community stakeholders to implement learner-focused strategies that will:

- increase and strengthen knowledge and understanding among all Albertans of First Nations, Métis and Inuit governance, history, treaty and Aboriginal rights, lands, cultures and languages
- provide First Nations, Métis and Inuit learners with access to culturally relevant learning opportunities and quality support services
- develop ministry capacity to address First Nations, Métis and Inuit learner needs effectively
- report progress on the achievement of expected long-term outcomes for First Nations, Métis and Inuit people, and other Albertans.

Funds are provided to provincial school jurisdictions with specific plans or programs that are designed to enhance appreciation and understanding of Aboriginal people. In addition, each school division is encouraged to make available cultural and linguistic opportunities for all of their students and to encourage participation in the school by Aboriginal groups and by the community in general.

More information on Aboriginal courses and resources is available from the Aboriginal Services Branch.

Alternative Programs

(*School Act*, Section 21)

An alternative program is an education program that:

- (a) **emphasizes a particular language, culture, religion or subject-matter, or**
- (b) **uses a particular teaching philosophy,**

but is not a special education program, not a Francophone program, nor a program of religious education offered by a separate school board.

Boards may charge parents enrolling a student in the alternative program a fee to defray all or a portion of any non-instructional costs that the board may incur by offering the alternative program and that are in addition to the board's regular education program costs.

Blended Program

A blended program is an education program that consists of two distinct parts:

- Part 1—an in-school program where a teacher, employed by the school board or accredited private school, is responsible for the direct delivery and evaluation of courses
- Part 2—a home education program that meets the requirements of Home Education Regulation 251/2001 as amended.

For more information on the requirements for the home education portion of the program, see the Home Education section of this *Guide*. School boards, or accredited private schools, are not required to offer blended programs; the offering of a blended program is optional.

A funded blended program is a blended program where the teacher employed by a school board, or an accredited private school, is responsible for the direct delivery and evaluation of courses amounting to:

- at least 50% of the student's program in grades 1 to 9
- at least 20% of the student's program in grades 10 to 12.

Charter Schools

A charter school is a public school that provides innovative or enhanced means of delivering education to improve student learning; that is, improved acquisition, in some measurable way, of skills, attitudes and knowledge. The proposed method of educational delivery that improves student learning must be supported by research. **A charter school must have characteristics that set it apart from other public schools**

in the same area. A charter school is designed to meet the needs of a specific group of students through a specific program or approach. Charters are granted by the Minister and are term specific.

A group interested in a charter school must first approach their local school board to determine if the group and the board can work to establish the innovative approach as an alternative program.

For more information regarding charter schools, contact the Special Programs Branch of Alberta Education. The charter schools regulation, policy and handbook are presently under review.

Controversial Issues

Controversial issues are those topics that are publicly sensitive and upon which there is no consensus of values or beliefs. They include topics on which reasonable people may sincerely disagree. Opportunities to deal with these issues are an integral part of student learning in Alberta.

Studying controversial issues is important in preparing students to participate responsibly in a democratic and pluralistic society. Such study provides opportunities to develop the ability to think clearly, to reason logically, to open-mindedly and respectfully examine different points of view, and to make sound judgements.

Teachers, students and others participating in studies or discussions of controversial issues shall exercise sensitivity to ensure that students and others are not ridiculed, embarrassed, or intimidated for positions that they hold on controversial issues.

Controversial issues:

- represent alternative points of view, subject to the condition that information presented is not restricted by any federal or provincial law
- reflect the maturity, capabilities and educational needs of the students
- meet the requirements of provincially prescribed and approved courses and programs of study and education programs
- reflect the neighbourhood and community in which the school is located, as well as provincial, national and international contexts.

Controversial issues that have been anticipated by the teacher, and those that may arise incidentally during instruction, should be used by the teacher to promote critical inquiry and teach thinking skills.

The school plays a supportive role to parents in the areas of values and moral development, and shall handle parental decisions in regard to controversial issues with respect and sensitivity.

Distance Learning

Alberta Education designs, develops and produces distance learning courses and courseware through the Learning Technologies Branch (LTB). These are available for purchase from the Learning Resources Centre. See Learning Technologies Branch in this section.

The Alberta Distance Learning Centre (ADLC) is operated by Pembina Hills Regional Division No. 7. Information on programs and services may be obtained directly from ADLC or found on their Web site at www.adlc.ca.

Guidance and Counselling Programs and Services

The comprehensive school guidance and counselling program is centred on helping individual students meet their growth and developmental needs—educational, personal, social and career. Delivery of these programs is collaborative and multidisciplinary, involving the school counsellor and other school staff. Program success is based on a close partnership among school, home and community. The four components of the comprehensive approach are:

- developmental guidance instruction
- individual student planning
- responsive services
- school/community support.

School boards, accredited private schools and charter schools are expected to implement the *Comprehensive School Guidance & Counselling Programs and Services: Guidelines for Practice—A Program Development and Validation Checklist*, 1997, which reflects the content of the comprehensive approach to guidance and counselling in schools. Schools and school jurisdictions are expected to use the guidelines to monitor and evaluate their guidance and counselling programs and services.

Home Education

Home education recognizes a parent's right to provide home education to their children. Home education is a program of choice.

A parent wishing to home educate their child must notify any school board or an accredited private school of their intent to home educate and request that the board or private school supervise their child's home education program. Notification of the intent to home educate should be made during a school year. A supervising board or private school will review the completed notification form and the education plan developed by the parent and make a decision within 15 days. **Supervising boards and accredited private schools must develop policy that includes guidelines for a home education student's participation in school and extracurricular activities.**

Home education must be based on a program that is prescribed, authorized or approved by the Minister or a program designed by the parent. Parents can choose curriculum resources and methodology that are consistent with the family's religious and conscientiously held beliefs. If the parent designs a program that does not follow the Alberta Program of Studies, the parent must declare that the program is consistent with the student learning outcomes listed in the schedule in the Home Education Regulation. Parents may ask the supervising board or private school for assistance in developing a home education plan or program.

Teachers are to be assigned to home education to facilitate student learning by providing assistance and advice to the parent. Teachers are required to conduct at least two evaluations in each school year, including a review of the student portfolio, with the parent at least twice a year. If a parent of a grade 3, 6 or 9 home education student refuses to have his or her child write either the appropriate Provincial Achievement Test or the alternative assessment, approved by the superintendent, the supervising board or accredited private school are required to provide a written report of the student's progress. This written report is included in the student's record.

If a supervising board or private school terminates a home education program, it is responsible for the student's education for the remainder of the school year and must make suitable arrangements for the student's access to an education program.

For more information regarding home education programs, refer to Home Education Regulation 126/99 as amended and the Home Education Policy 1.1.2 available on the Alberta Education Web site at www.education.gov.ab.ca, or by contacting the Special Programs Branch of Alberta Education.

Information Services Branch

The Information Services Branch collects, maintains and distributes basic data on all Alberta students. Jurisdictions are to register all students in ECS to Grade 12 by sending an electronic file to the Information Services Branch. Refer to the Schedule of Activities documentation available from the Information Services Branch.

Students taking continuing education programs or summer school courses for high school credit also are to be registered with the Information Services Branch.

The following information services are available on the Alberta Education Extranet Web site at <https://phoenix.edc.gov.ab.ca>. This is a secure Web site and requires a password. Visit the Web site and complete the appropriate application form to request access to various services and information, such as:

- course/mark inquiry
- declare attendance
- student ID search
- statement of courses and marks request
- transcript request.

Course/Mark Inquiry

This service allows viewing of the courses and marks that Alberta Education has on file for a student. It permits authorized school personnel to gain access to student course/mark information to facilitate placing a student in an appropriate program or to verify the student's course and mark information with Alberta Education for accuracy and completeness.

Declare Attendance

This service allows a school administrator to declare that a student, not currently registered in the school, is in the process of registering to attend the school during the current school year. This service helps school staff to serve better Alberta students who are transferring into their schools.

Student ID Search

This service provides schools with the ability to access **existing** Alberta Student Numbers. Students who have just transferred to an Alberta school for the first time will not yet have an Alberta Student Number.

Statement of Courses and Marks Request

This service allows users to request a Statement of Courses and Marks on behalf of any student for whom they have the Alberta Student Number. The report provides information that Alberta Education has available regarding a student's courses and marks. It is not the same as an Official Transcript. There is no cost for a Statement of Courses and Marks.

Transcript Request

This service allows for assisting students to request an official Alberta Education transcript, providing an Alberta Student Number exists. Only certain credit cards are accepted. Transcripts can be sent to the student's home address and/or to a post-secondary institution. There is a fee for an official transcript.

For more information, contact the Information Services Branch.

Learning Technologies Branch

Alberta Education continues its responsibility for the design, development, production and distribution of distance learning courses.

The Learning Technologies Branch (LTB) is responsible for providing leadership and consultation in the identification, development, implementation and evaluation of effective distance learning strategies and techniques in Alberta schools. LTB can be found on the Alberta Education Web site at www.education.gov.ab.ca/ltb. The following are some of the LTB services:

- providing workshops and seminars to groups establishing distance learning networks and consortia
 - assessing developments in technology, telecommunications networking, database access, hardware and software
 - maintaining liaison with suppliers of materials for use in distance learning
 - designing and developing all educational technology products used to deliver instruction in distance learning courses.
-

Ministerial Directives

Human Sexuality Education

Human sexuality is taught at several levels in Alberta, including the Grade 4 to Grade 9 Health and Life Skills program, and the senior high school Career and Life Management (CALM) course. The learning outcomes to be achieved by students are prescribed by Alberta Education through the programs of study.

Students may be exempted, by parental request, from Health and Life Skills and CALM classroom instruction and activities that involve learner outcomes specifically related to human sexuality sections of these courses.

In the case of religious beliefs, parents/guardians must write to the Minister of Education requesting an exemption from the CALM course.

For more information, contact the Curriculum Branch.

HIV/AIDS in Educational Settings

The Information Bulletin on Acquired Immunodeficiency Syndrome in Educational Settings provides information and advice to school boards and regional health authorities in meeting their joint responsibility to provide educational programming to all eligible children and to protect the general public from communicable diseases.

Guidelines

HIV/AIDS is covered under the Communicable Diseases Regulation of the *Alberta Public Health Act*, and there is no legal basis on which to prevent children infected with HIV from attending school.

A mechanism for ongoing communication between school boards and regional health authorities should be established. School jurisdictions, with the assistance of local public health personnel, should develop policies consistent with provincial guidelines regarding HIV/AIDS and other infectious diseases. Such policies should be reviewed regularly by school boards and local health authorities, and regular communication should be maintained on all health matters.

For the complete text, see Appendix 4 in this *Guide*. Additional information on HIV/AIDS, or other health-related matters, is available from local health authorities located throughout the province.

Online Delivery

An online program is a structured learning environment in which students access educational programs electronically. The planning, implementation and assessment of instruction is the responsibility of a certificated teacher employed by a school board or accredited private school. **Online program providers must ensure elementary and junior high school students have access to a minimum of 950 hours of instruction and senior high school students have access to a minimum of 1000 hours of instruction for Alberta courses and programs of study.**

School authorities providing instruction through online delivery should develop policies and/or procedures on a variety of issues prior to program implementation. Specifically, school authorities should consider:

- how student attendance is to be defined
- the role of parents in instruction, assessment and supervision of student work
- staffing levels
- time frames for student access to the instructional expertise of teachers
- student evaluation practices
- requirements for program access by students living outside Alberta
- program decisions; e.g., self-paced or teacher controlled
- how to deliver all outcomes of Alberta programs of study
- provision for writing achievement tests and diploma examinations
- program and teacher evaluation
- how to provide alternative forms of program delivery for nonresident students who are experiencing difficulty in the online environment.

Students are to be identified in the Student Information System (SIS), using the grants program code for online programs.

The Alberta Online Consortium provides further information about online education and online schools. The Alberta Online Consortium can be contacted at www.albertaonline.ab.ca.

Outreach Program

The Outreach Program provides an educational alternative for students who, due to individual circumstances, find that the traditional school setting does not meet their needs. The program allows students to access resources that improve their ability to succeed academically and socially. A flexible approach is taken to teaching and learning in recognition of individual student needs.

Outreach programs generally serve students of senior high school age. However, elementary and junior high school students experiencing difficulties with effective learning in regular programs, may also be served. For complete funding information, see the *Funding Manual for School Authorities*.

Outreach programs must be offered in a stand-alone facility, separate from a building already in use as a school. The facility must meet Alberta building, health and safety standards for school buildings. The school board must ensure that its liability insurance extends to the stand-alone facility for the Outreach Program.

A school board motion must grant approval to the school to offer the program. To support implementation, the school board must develop a written policy addressing, at a minimum, student eligibility, attendance requirements and performance expectations.

The Outreach Program must provide students with educational services that are in addition to distance learning courses and materials. Examples of such services are personal and career counselling, conflict resolution, anger management training, time management and study skills.

School jurisdictions choosing to run their Outreach Program as a school will be required to meet the legislative and policy requirements associated with operating a school; e.g., designating a school principal, establishing a school council, preparing annually a school three-year education plan and a school annual results report, following the school closure regulation and other regulations.

A school board intending to offer an Outreach Program must complete and submit to the Director, Special Programs Branch, a Request for Approval: Outreach Program Funding form by March 31 for the subsequent school year. Once granted, program funding approval is ongoing.

School Library Program

Students in Alberta schools should have access to an effective school library program that is integrated with instructional programs. Such library programs improve student opportunities for achieving a basic education.

Student learning experiences should integrate information retrieval and research skills. These skills are learned best within the curriculum. To promote integration, opportunities for cooperative planning between teachers and teacher-librarians should be provided.

In an integrated school library program, the services and activities are not peripheral or supplementary to the school's instructional program; they are an essential and dynamic part of it. The integrated library program widens, deepens and personalizes learning by involving students in the planned and purposeful use of resources. Library resources are designed to help students expand their ability to find, generate, evaluate and apply information. Developing these information skills will, in turn, prepare students to function effectively as individuals and as full participants in society.

An integrated school library program attends not only to its formal instructional role, but also to its function as a centre for informal learning. As a resource centre, the school library should be a place where students can pursue their individual educational interests.

For more information, see *Focus on Learning: An Integrated Program Model for Alberta School Libraries*, 1985, *Focus on Research: A Guide to Developing Students' Research Skills*, 1990 and *Focus on Inquiry: A Teacher's Guide to Implementing Inquiry-based Learning*, 2004.

Special Education

 Students with mild, moderate and severe special needs, and those who are gifted and talented, require specialized learning opportunities to achieve their full potential. The school board program delivery requirements and expectations that support Alberta Education's objective of providing consistent direction, while supporting flexibility and discretion at the school authority level, can be found in the *Standards for Special Education* (formerly *Guide to Education for Students with Special Needs*).

 Alberta Education supports the education of students with special needs. Section 45 of the *School Act* requires that school boards provide each resident student with an education program. Section 47 states that students with special needs are entitled to have access to special education programs consistent with their needs. School boards are responsible for assessing student needs and identifying appropriate programs. Parents should be involved in decisions relating to the educational programs for their children.

A special education program:

- is based on an individualized program plan (IPP); all students with special needs, including students who are gifted and talented, require IPPs
- may be provided in a variety of settings
- is based on, and modified by, the results of continuous assessment and evaluation
- provides for instruction appropriate to individual learning needs.

Students with special needs taking curriculum courses for credit are expected to meet those course requirements.

 For more information regarding special education programs and resources, contact the Special Programs Branch.

Program Information

The series *Programming for Students with Special Needs* includes practical suggestions about instructional strategies, classroom management, preparing individualized program plans, understanding the nature of special needs, and the availability of special education resources.

Titles in the series are:

- *Teaching for Student Differences* (Book 1)
- *Essential and Supportive Skills for Students with Developmental Disabilities* (Book 2)
- *Individualized Program Plans (IPPs)* (Book 3)
- *Teaching Students Who Are Deaf or Hard of Hearing* (Book 4)
- *Teaching Students with Visual Impairments* (Book 5)
- *Teaching Students with Learning Disabilities* (Book 6)
- *Teaching Students Who Are Gifted and Talented* (Book 7)
- *Teaching Students with Emotional Disorders and/or Mental Illnesses* (Book 8)
- *Teaching Students with Autism Spectrum Disorders* (Book 9)
- *Teaching Students with Fetal Alcohol Spectrum Disorder* (Book 10)

These resources are available for purchase from the Learning Resources Centre.

Use of Human Tissue and Fluid in Educational Programs

Alberta Education firmly believes that the safety and well-being of students, teachers and other school staff should be a first consideration in the selection of materials for study. Therefore, all activities involving the extraction and analysis of samples of human fluid or tissue are prohibited in Alberta schools. Information regarding this topic is provided in *Clarification of Statements Prohibiting the Use of Human Body Substances in the Alberta Science Curriculum*, 1988.

Student Assessment

ECS to Grade 9

Purpose of Assessment

A comprehensive assessment program provides relevant data for all important educational decisions related to learning: instruction, program improvement and public accountability. It includes a variety of assessments for different purposes.

The assessment of student progress in relation to the outcomes outlined in programs of study is important for the following reasons:

- The information on student progress is essential so that teachers can change or refine instructional plans to ensure learning activities are appropriate for all students.
- The information is required for reporting student progress clearly to students and parents.
- The information is used in making decisions regarding student placement.
- The information is required for evaluation of program effectiveness and for revision of programs to improve student learning.

Assessment as a Guide for Learning and Instruction

The assessment of student progress serves as a guide for learning and instruction. Knowledge about each student's current level of achievement is essential for planning learning activities to meet their learning needs.

This information should be collected in a variety of ways to provide feedback that is useful to student and teacher alike. To be most useful, the classroom assessment should have the following characteristics:

- It should be part of instruction and should clearly reveal to students what is expected of them.
- It should be an ongoing process rather than a set of isolated events, with the methods and instruments varied, and used in a variety of contexts.
- It should focus on a broad range of outcomes, reflecting multiple dimensions of skill development.
- The measures should be appropriate to student development and cultural background.
- It should be constructive. It should focus on what students can do, clearly identifying both strengths and areas of difficulty. It should encourage improvement in areas of difficulty, linking new learning to what a student already knows and can do.
- It should involve students in their own assessment. This gives them responsibility for their own learning and fosters lifelong learning.

Diagnostic Approaches to Instruction

The terms diagnostic instruction and diagnostic teaching cycle are often used to refer to instruction that is closely linked to assessment. Diagnostic instruction provides a means to ensure that learning difficulties are recognized early and that students receive the help they need. It also provides a means of confirming student learning so that more challenging activities can be provided as students become ready.

To assist teachers in applying diagnostic techniques, Alberta Education has developed the following materials that are available from the Learning Resources Centre.

- *Diagnostic Reading Program* (Grade 1 to Grade 6, 1986)
Resource materials include assessment instruments and descriptions of evaluation and instructional strategies.
- *Diagnostic Mathematics Program* (Grade 1 to Grade 6, 1990)
Resource materials provide guidance in the use of manipulatives, individual interviews and small group activities. The activities serve as a basis for both evaluation and instruction.
- *Evaluating Students' Learning and Communication Processes* (Grade 7 to Grade 10, 1993)
Resource materials provide a strategy for evaluating student skills in six communication processes: exploring, narrating, imagining, empathizing, abstracting and monitoring. To demonstrate these processes, diagnostic teaching units are included for language arts (Grade 7), science (Grade 7 and Science 14) and social studies (Grade 7, Grade 8 and Grade 9).

Assessment as the Basis for Communicating Individual Student Achievement^①

When students are placed in age appropriate groups for instruction, parents can become confused about the distinction between the grade in which their child is placed (the instructional group) and the grade level at which their child is actually working in various subjects; e.g., the child is placed in a Grade 4 class but is working at approximately the Grade 3 level in language arts. Where such confusion exists, parents can misinterpret information regarding their child's progress. They may think that indications of satisfactory progress are made with reference to the instructional group the child is in rather than to the grade level at which the child is working. The provision for Assessment as the Basis for Communicating Individual Student Achievement is intended to reduce this type of confusion and to support the professional responsibilities of teachers to provide clear communication in describing student progress.

Teachers shall ensure that information is effectively communicated to parents about:

- **what their child knows and can do in the courses being studied**
- **how well their child is doing in those courses**
- **the grade level(s) the child has achieved in relation to the grade levels of the provincial programs of study for language arts, mathematics, science and social studies.**

The provision does not restrict the communication of achievement to written reports, nor does it require schools to use a particular type of instructional grouping or placement policy.

Teachers must communicate the grade levels at which they judge a student to be working, in at least the four specified subject areas of the curriculum. The basis for their professional judgement in these matters also needs to be clear so that parents can readily understand how student learning has been assessed.

Principals determine how to implement this provision, in consultation with teachers, parents and school councils and in a manner consistent with any related school jurisdiction policies. The communication can take place in a wide variety of ways, including parent-teacher conferences, assessment

^① This also applies to students in home education programs.

portfolios, report cards or student work samples. An individual program plan (IPP) is a method often used by teachers when there is a gap between a student's level of achievement and the student's grade placement. Whatever methods are chosen for implementing this provision, often face-to-face methods are the most successful for achieving clear and open communication.

All assessment information should be shared, not only with parents, but also with students when it is in the students' best interest to do so. Communicating with students about their levels of achievement is particularly important when students are planning their future courses and making program choices.

To assist teachers in assessing student achievement in relation to provincial standards, Alberta Education has developed classroom assessment materials, in English and in French, for teachers' discretionary use in language arts, mathematics, science and social studies in grades 1, 2, 4, 5, 7 and 8. There also are science materials for Grade 3. These materials were supplied to all schools. Additional classroom assessment materials are available for purchase from the Learning Resources Centre.

Provincial Achievement Testing Program

The provincial achievement tests measure knowledge and skills in language arts, mathematics, science and social studies. They are based on what students are expected to know and be able to do as set out in the programs of study.

All students in the appropriate grades are expected to write the annually administered achievement tests. English language arts and mathematics are assessed at grades 3, 6 and 9. Science and social studies are assessed at grades 6 and 9. The tests reflect a common provincial standard for students in a grade; and:

- accommodations are available for students with special needs for writing achievement tests
- there are French versions of the achievement tests in mathematics (grades 3, 6 and 9), science (grades 6 and 9), and social studies (grades 6 and 9). As well, there are French language arts tests for students in Grade 6 and Grade 9 alternative French language programs (includes French immersion), and Français for Grade 6 and Grade 9 Francophone students
- every effort is made to ensure that the tests show respect for cultural diversity and do not bias the performance of particular groups of students

-
- results are reported in such a way as to encourage improved learning, while minimizing possible harmful effects of testing for individual students. The numbers of students who achieve the acceptable standard and the standard of excellence are reported to facilitate interpretation of local results and to enable comparisons of local results to provincial and local targets. Group results for fewer than six students are reported to the jurisdiction and the school but are not reported publicly. Alberta Education encourages comparisons of local results with local targets, not comparisons of individual scores with other students' scores.

Schedules for administering achievement tests are mandated by the province and communicated to schools early in the school year. Information about student achievement is provided to jurisdictions and schools, parents, and the public so that they may know how well students in their schools are meeting local targets and provincial outcomes. The document *Guidelines for Interpreting the Results of Achievement Tests* is provided along with the results.

For more information on provincial achievement testing, see the following documents sent to schools or provided electronically each year:

- *General Information Bulletin: Achievement Testing Program*
- Information bulletins about the tests in Grade 3, Grade 6 and Grade 9 are available on the Alberta Education Web site
- *Parent Guide to Provincial Achievement Testing for Grade 3, Grade 6 and Grade 9.*

Individual Student Profile

For each student who writes achievement tests, an Individual Student Profile for the student's education record is provided electronically to the school through the secured extranet site. The profile shows the student's test results in relation to the standards in the courses tested. A second copy of the student's profile is provided to the school for the student's parent or guardian.

Senior High School Graduation Requirements

Introduction

Students who entered Grade 10 in the 1994–1995 and subsequent school years are eligible to receive the Alberta High School Diploma, the High School Equivalency Diploma or the Certificate of Achievement upon completion of graduation requirements.

The diplomas and certificate certify that the holder has successfully completed a prescribed program of instruction. However, possession of a diploma or certificate does not necessarily guarantee admission to a post-secondary institution. Students should be advised to check the calendars of post-secondary institutions for admission requirements.

The Alberta High School Diploma graduation requirements follow in this section.

The Certificate of Achievement requirements, outlining the specific eligible courses and required credits, follow in this section.

The High School Equivalency Diploma requirements can be found in the Mature Students section.

High School
Diploma Graduation
Requirements
(English)**

ALBERTA HIGH SCHOOL DIPLOMA GRADUATION REQUIREMENTS (ENGLISH)
The requirements indicated in this chart are the <u>minimum</u> requirements for a student to attain an Alberta High School Diploma. The requirements for entry into post-secondary institutions and workplaces may require additional and specific courses.
100 CREDITS including the following:
ENGLISH LANGUAGE ARTS – 30 LEVEL (English Language Arts 30-1, 30-2, 30 or 33)
SOCIAL STUDIES – 30 LEVEL (Social Studies 30 or 33)
MATHEMATICS – 20 LEVEL^① (Pure Mathematics 20, Applied Mathematics 20 or Mathematics 24)
SCIENCE – 20 LEVEL^② (Science 20, Science 24, Biology 20, Chemistry 20 or Physics 20)
PHYSICAL EDUCATION 10 (3 CREDITS)
CAREER AND LIFE MANAGEMENT (3 CREDITS)
10 CREDITS IN ANY COMBINATION FROM: <ul style="list-style-type: none"> • Career and Technology Studies (CTS) • Fine Arts • Second Languages^③ • Physical Education 20 and/or 30^④ • Locally developed/acquired and locally authorized courses in CTS, fine arts or second languages • one 36-level course from any IOP Occupational cluster • one 35-level locally developed IOP course, or • two 35-level courses from any trade in the Registered Apprenticeship Program
10 CREDITS IN ANY 30-LEVEL COURSE^⑤ (IN ADDITION TO A 30-LEVEL ENGLISH LANGUAGE ARTS AND A 30-LEVEL SOCIAL STUDIES COURSE AS SPECIFIED ABOVE) <ul style="list-style-type: none"> • Locally Developed/Acquired and Locally Authorized Courses • 3000 Series; Advanced Level in Career and Technology Studies Courses • 35-level Work Experience^⑥ • one 36-level IOP Occupational Course • one 35-level Locally Developed IOP Course • two 35-level courses from any trade in the Registered Apprenticeship Program • two 30-level courses from any Green Certificate Specialization

(continued)

(continued)

- ❶ For students who entered Grade 10 before September 1998, the mathematics requirement—Mathematics 20 or 23 or 24—may also be met with any 10-credit combination of mathematics courses that includes either Mathematics 13 or Mathematics 10; e.g., Mathematics 10 and Mathematics 14. Students may also use Pure Mathematics 10, Applied Mathematics 10, Mathematics Preparation 10 (5 credits) in conjunction with Mathematics 10 or Mathematics 13 to meet this requirement.
- ❷ The science requirement—Science 20 or 24 or Biology 20 or Chemistry 20 or Physics 20—may also be met with the 10-credit combination of Science 10 and Science 14.
- ❸ Students may earn any number of credits in the study of second languages, but only a maximum of 25 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.
- ❹ Students entering Grade 10 in the 1998–1999 school year and subsequent school years will be able to use Physical Education 20 and/or 30 to meet this 10-credit requirement.
- ❺ Integrated Occupational Program (IOP) students who wish to transfer to an Alberta High School Diploma route at any time must meet the requirements outlined above. One 36-level course (10 credits) from any occupational cluster, or 10 credits from any Green Certificate Specialization or two 35-level RAP courses are acceptable for students transferring from IOP to the Alberta High School Diploma program in order to meet the 10-credit requirement in any 30-level courses.
- ❻ Students may earn any number of credits in work experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.

FURTHER NOTES:

- For 30-level courses that have a diploma examination, the final course mark consists of an average of the school-awarded mark and the diploma examination mark.
- Students in Francophone programs should consult the Alberta High School Diploma Graduation Requirements for French First Language—Francophone in this *Guide*.
- Mature students should consult the Mature Students section in this *Guide* for applicable graduation requirements.

ALBERTA HIGH SCHOOL DIPLOMA GRADUATION REQUIREMENTS (FRENCH FIRST LANGUAGE–FRANCOPHONE)
The requirements indicated in this chart are the <u>minimum</u> requirements for a student to attain an Alberta High School Diploma. The requirements for entry into post-secondary institutions and workplaces may require additional and specific courses.
100 CREDITS including the following:
FRANÇAIS 30 OR 30-2
ENGLISH LANGUAGE ARTS – 30 LEVEL^① (English Language Arts 30-1, 30-2, 30 or 33)
SOCIAL STUDIES – 30 LEVEL (Social Studies 30 or 33)
MATHEMATICS – 20 LEVEL^② (Pure Mathematics 20, Applied Mathematics 20 or Mathematics 24)
SCIENCE – 20 LEVEL^③ (Science 20, Science 24, Biology 20, Chemistry 20 or Physics 20)
PHYSICAL EDUCATION 10 (3 CREDITS)
CAREER AND LIFE MANAGEMENT (3 CREDITS)
10 CREDITS IN ANY COMBINATION FROM: <ul style="list-style-type: none"> • Career and Technology Studies (CTS) • Fine Arts • Second Languages^④ • Physical Education 20 and/or 30^⑤ • one 36-level course from any IOP Occupational cluster • one 35-level locally developed IOP course, or • two 35-level courses from any trade in the Registered Apprenticeship Program
10 CREDITS IN ANY 30-LEVEL COURSE^{⑥⑦} (IN ADDITION TO A 30-LEVEL SOCIAL STUDIES COURSE AS SPECIFIED ABOVE) <ul style="list-style-type: none"> • English Language Arts 30-1, 30-2, 30 or 33 • Locally Developed/Acquired and Locally Authorized Courses • 3000 Series; Advanced Level in Career and Technology Studies Courses • 35-level Work Experience^⑧ • one 36-level IOP Occupational Course • one 35-level Locally Developed IOP Course • two 35-level courses from any trade in the Registered Apprenticeship Program • two 30-level courses from any Green Certificate Specialization

(continued)

(continued)

- ❶ Students enrolled in Francophone programs must present Français 30 or 33 to meet their language arts diploma requirement. However, they must also present English Language Arts 30-1 or 30-2 (or English Language Arts 30 or 33) to fulfill, in part, the 10-credit diploma requirement from any combination of courses in the areas of second languages, career and technology studies (CTS), fine arts, Physical Education 20 and/or 30, or locally developed/acquired and locally authorized courses.
- ❷ For students who entered Grade 10 before September 1998, the mathematics requirement—Mathematics 20 or 23 or 24—may also be met with any 10-credit combination of mathematics courses that includes either Mathematics 13 or Mathematics 10; e.g., Mathematics 10 and Mathematics 14. Students may also use Pure Mathematics 10, Applied Mathematics 10, Mathematics Preparation 10 (5 credits) in conjunction with Mathematics 10 or Mathematics 13 to meet this requirement.
- ❸ The science requirement—Science 20 or 24 or Biology 20 or Chemistry 20 or Physics 20—may also be met with the 10-credit combination of Science 10 and Science 14.
- ❹ Students may earn any number of credits in the study of second languages, but only a maximum of 25 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.
- ❺ Students entering Grade 10 in the 1998–1999 school year and subsequent school years will be able to use Physical Education 20 and/or 30 to meet this 10-credit requirement.
- ❻ Francophone students may use English Language Arts 30-1, 30-2, 30 or 33 to meet, in part, this 10-credit requirement.
- ❼ Integrated Occupational Program (IOP) students who wish to transfer to an Alberta High School Diploma route at any time must meet the requirements outlined above. One 36-level course (10 credits) or 10 credits from any Green Certificate Specialization or two 35-level RAP courses are acceptable for students transferring from IOP to the Alberta High School Diploma program in order to meet the 10-credit requirement in any 30-level courses.
- ❽ Students may earn any number of credits in work experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.

FURTHER NOTES:

- For 30-level courses that have a diploma examination, the final course mark consists of an average of the school-awarded mark and the diploma examination mark.
- Mature students should consult the Mature Students section in this *Guide* for applicable graduation requirements.

Certificate of Achievement

To qualify for a Certificate of Achievement, Integrated Occupational Program students must earn a minimum of 80 credits.

Subject	Minimum Credits	Minimum Course(s)	Eligible Courses and Credits ^①
English Language Arts ^②	8/9	2/3	Eng Lang Arts 16(3) 26(3) 36(3) ^③ OR Eng Lang Arts 16(3) 26(3) and 20-2(5) OR Eng Lang Arts 16(3) and 20-2(5)
Social Studies	5/6	1/2	Social Studies 16(3) 26(3) OR Social Studies 13(5) OR Social Studies 16(3) 23(5)
Mathematics	3	1	Mathematics 16(3) OR Mathematics 14(5) OR Mathematics Preparation 10 (3, 5)
Science	3	1	Science 16(3) OR Science 14(5)
Physical Education	3	1	Physical Education 10(3, 4, 5)
Career and Life Management	3	1	CALM (3)
Core Courses	25/27^④		
Courses selected from the Occupational Clusters ^{⑤⑥}	40	2	Occupational Courses 16 level – recommended minimum of 10 credits
• Agribusiness		2	26 level – recommended minimum of 20 credits
• Business and Office Operations			
• Construction and Fabrication		1	36 level – required minimum of 10 credits
• Creative Arts			
• Natural Resources			
• Personal and Public Services			
• Tourism and Hospitality			
• Transportation			
		65/67 Specified Credits^④	13/15 Unspecified Credits^④

① Credits are indicated in parentheses.

② To be considered for a Certificate of Achievement, a student must complete successfully the English Language Arts requirements.

③ Francophone students in IOP are encouraged to take Français 16(3), Français 26(3) and Français 36(3), in addition to the English Language Arts courses indicated above.

④ Minimum credits may vary depending upon the Eligible Courses and Credits options chosen.

⑤ One 36-level course (10 credits) from any occupational cluster or one 35-level locally developed IOP course (10 credits) is acceptable for students transferring from the Integrated Occupational Program to the Alberta High School Diploma program in order to meet the 10-credit requirements.

⑥ Students may meet the 40-credit occupational course requirement by completing:

- IOP occupational courses from among the clusters listed on the previous page, AND/OR
- 40 credits in CTS courses including 10 credits in advanced-level courses, AND/OR
- 40 credits in RAP including two 35-level RAP courses, AND/OR
- 40 credits in any combination of any level IOP occupational courses, RAP courses and two 30-level Green Certificate courses in any specialization, AND/OR
- any 40-credit combination of IOP occupational courses, CTS courses, RAP courses or Green Certificate courses that include a minimum of 10 credits in 35-level RAP courses, or 36-level occupational courses, or ten advanced-level CTS courses.

Student Placement and Promotion

Placement and Promotion

Placement and promotion of a student from one grade or course to another is determined by the school principal, subject to policies of the school authority and to provisions in this *Guide*.

Grade 10 Students

For the purpose of determining a student's graduation requirements, the following is to apply: upon promotion from Grade 9, and subsequent placement in Grade 10, the student's Grade 10 year is the school year in which the student receives the first mark (between 0% and 100%) in a senior high school course, as reported to Alberta Education, or the student is registered in a noncredit English as a Second Language course. Also see the Mature Students section for information regarding those who entered senior high school in, or before, the 1983–1984 school year.

Senior High School Courses and Credits for Junior High School Students

Secondary education programs recognize and accommodate the wide range of developmental needs and abilities that exist among students.

The opportunity to take senior high school courses for diploma credits during a junior high school's regular instructional day may be offered as a privilege to an eligible student, as identified by the principal of a junior high school.

Note: An eligible student is one who, in the opinion of the junior high school principal, has satisfied the general and specific outcomes for each core course of the junior high school program to the extent of his or her potential, has achieved acceptably in all enrolled optional courses, and shows special interest and signs of high potential in subject areas that are part of a senior high school graduation program.

A decision to extend this privilege to a student follows appropriate consultation with and approval of a parent or guardian and the senior high school principal.

A student may be offered an opportunity to take one or more senior high school courses at the junior high school or by attending a senior high school part time.

The opportunity to access advanced level instruction applies to those course sequences that are continuous with junior high school programs and that extend beyond the challenges of Grade 9 courses.

The following are examples of course sequences that meet these criteria:

- English Language Arts 10-1, 20-1, 30-1
- Français 10–20–30
- French Language Arts 10–20–30
- Applied Mathematics 10–20–30
- Pure Mathematics 10–20–30
- Science 10–20–30
- Social Studies 10–20–30.

Where senior high school courses are offered at the junior high school level, the planning for such courses should be based on collaboration between junior high schools and senior high schools. Junior high school teachers challenging students with senior high school courses should consult with senior high school teachers to establish procedures that ensure consistency in implementing course outcomes and assessment standards.

Schools offering senior high school courses to junior high school students shall ensure that the approved programs of study for the senior high school courses are followed.

A junior high school student receives credits and marks for successfully completed senior high school courses. Upon promotion to Grade 10, the junior high school principal forwards the student's final marks to the principal of the receiving senior high school. The senior high school is to report these marks to the Information Services Branch.

Schools whose students take courses for senior high school credits while in junior high school, including CTS 1-credit courses and heritage language credit courses, will not receive credit enrollment unit funding for those courses completed. For more information, see the *Funding Manual for School Authorities*.

Senior High School Credits for Post-secondary Courses

Post-secondary courses, taken at an institution either inside or outside Alberta, are not equated to credits for the Alberta High School Diploma but may be evaluated for and applied toward the High School Equivalency Diploma.

Evaluation of Out-of-province Educational Documents

Students entering an Alberta senior high school from outside Alberta should submit transcripts, or other official statements of previous standing, to the school they plan to attend. The principal is to evaluate these documents in relation to approved senior high school courses or designate unassigned credits. This assessment is to be based on the number of credits assigned and should take into consideration the best interests of the student. The assessment establishes the specific requirements needed to obtain a senior high school diploma, as outlined in the Senior High School Graduation Requirements section.

Schools must not use locally developed courses for evaluating students unless the courses are authorized by their boards.

School authorities must be authorized to offer senior high school locally developed/acquired courses in order to report marks and credits for these courses.

A transfer guide designed to assist in the placement of students has been authored by the Council of Ministers of Education, Canada (CMEC). This transfer guide can be viewed under Secondary Education in Canada from the CMEC home page at www.cmec.ca under Elementary–Secondary Programs and Student Mobility. For further information, contact the Curriculum Branch.

A list of reference materials, which may be purchased by schools, is available to assist principals in the evaluation of out-of-country documentation. Contact the Teacher Development and Certification Branch for information on publication names and addresses. Their evaluation staff can assist those principals who, following a review of the reference materials, require consultation.

An Alberta High School Diploma is not to be issued solely on the basis of the evaluation of out-of-Alberta credentials. A student in this category who wishes to obtain an Alberta High School Diploma is required to complete a minimum of 5 approved credits as prescribed by a school principal.

The required credits are to be completed in one or more of the subject areas specified under the diploma requirements, exclusive of physical education, and at a level equal to that of the highest Alberta course equivalent granted through credential evaluation.

Electronic submission of senior high school evaluation is encouraged or a copy of the completed High School Evaluation Report form can be forwarded to the Information Services Branch. Evaluation forms can be obtained from the Alberta Education Extranet Web site under Tools and Software.

In the case of a dispute over the number of senior high school credits to be awarded, which cannot be resolved at the level of the school authority, the student has the right to appeal to the Special Cases Committee. This committee, which is the final procedural level in the appeal process, deals with all matters requiring the interpretation and application of policy relative to individual students.

The Special Cases Committee may be contacted by writing to the Executive Secretary, Special Cases Committee, Learner Assessment Branch, Alberta Education.

Students planning to enter directly into a post-secondary institution in Alberta should submit their out-of-province documents to the post-secondary institution of their choice. There are no appeal procedures to Alberta Education in these instances.

Students who use Français 30 or Français 30-2 to meet the language arts requirements for an Alberta High School Diploma must also present English Language Arts 30-1 or 30-2. For more information, refer to the Senior High School Graduation Requirements section. However, a senior high school principal may appeal to the Special Cases Committee for special consideration on behalf of Canadian unilingual Francophone students who enter the Alberta school system in their graduating year. For these students, the principal may recommend that Français 30 or 30-2 be accepted in lieu of English Language Arts 30-1 or 30-2 for Alberta High School Diploma purposes.

Visiting or Exchange Students

Visiting or exchange students from another province or country, who wish to complete a course for credit, should be registered with the Information Services Branch.

Any formal statement of academic achievement required by the school of origin would be issued by Alberta Education in the form of the High School Transcript of Achievement and would reflect only the courses the student actually completed in an Alberta school.

Visiting or exchange students seeking Alberta high school credits in a diploma examination course must write a diploma examination on the same terms as any Alberta student.

For further information, see the *General Information Bulletin: Diploma Examinations Program*.

Visiting or exchange students may not write diploma examinations in any language other than English or French. The English Language Arts 30-1 and 30-2 diploma examinations and the Science 30 diploma examination must be written in English. The Français 30 and French Language Arts 30 diploma examinations must be written in French. The diploma examinations in Social Studies 30, Social Studies 33, Applied Mathematics 30, Pure Mathematics 30, Biology 30, Chemistry 30 and Physics 30 must be written in either English or French.

For information regarding fees, see Eligibility to Write in the Student Assessment in Senior High School Subjects section.

Contact the Office of National and International Education for information about registering students from another province or country, including areas such as study permits, right of access and reciprocal student exchanges.

Student Assessment in Senior High School Subjects

Introduction

The Student Evaluation Regulation AR 177/2003, governing the evaluation of students, has been developed under section 39(3)(c) of the *School Act*. This regulation may be found in Section 5 of the *K–12 Learning System Policy, Regulations and Forms Manual*.

The provincial Student Evaluation Policy 2.1.2 states that each school authority shall develop and implement a student evaluation policy.

To assist teachers in assessing student achievement in relation to provincial standards, Alberta Education has developed classroom assessment materials (CAMP) for teachers' discretionary use. These materials are available for purchase from the Learning Resources Centre.

Reporting Student Achievement in Senior High School Subjects

Alberta Education maintains an individual student record for each Alberta student. The record for a senior high school student is used to provide a complete and accurate reflection of the student's senior high school achievement, inclusive of courses reported as pass or fail.

Alberta Education records a course as completed, if a mark of 0% to 100% is awarded and reported. Career and Technology Studies courses may be reported as "Incomplete," without a mark, if a student achieves a mark of less than 50%. Achievement in all completed senior high school credit courses is to be reported to the Information Services Branch.

All school-awarded marks, 0% to 100%, shall be reported for all courses, including diploma examination courses, to the Information Services Branch, Alberta Education.

Marks shall be reported by electronic transfer or by using the High School Course Reporting Form, the High School Evaluation Report form, the Non-diploma Examination Courses Form or the Diploma Examination School Marks Checklist form.

Schools or school boards wishing to adopt electronic reporting should contact the Information Services Branch.

Only one mark per course in any reporting period will be accepted and added to a student's record; consequently, principals and/or students must withdraw duplicate or multiple registrations in the same reporting period prior to the timelines established for marks reporting.

Once reported to Alberta Education, final marks in all completed courses, whether the course is passed or failed, shall not subsequently be deleted from the student's record. In those instances where a principal discovers an error has been made in reporting a course, credits or mark, an adjustment may be submitted electronically or by using the High School Course Reporting Form.

School-awarded marks in diploma examination courses shall be reported to the Information Services Branch, as directed.^①

School-awarded marks in all non-diploma examination courses shall be reported no later than two weeks following the completion of the respective diploma examination session or as otherwise specified by the Information Services Branch. Schools will receive additional instructions, as required, throughout the year.

① Dates are specified in the Schedules, Dates and Writing Centres section of the *General Information Bulletin: Diploma Examinations Program*.

Reporting CTS Courses

Students must be individually assessed and graded on each 1-credit CTS course taken.

Schools are to report all successfully completed CTS courses to the Information Services Branch, along with an awarded mark not less than 50% for each 1-credit course. Successful completion of a CTS course at the senior high school level is based on demonstrating all of the general outcomes for any given course to the standard defined for each competency. This means that the student must be individually assessed on each of the general outcomes defined for the course in the program of studies.

Schools also report to the Information Services Branch, CTS courses in which the student has not met all the outcomes or has withdrawn. An incomplete (INC) status occurs when a student is registered throughout a course but does not complete all the learner outcomes. A withdrawn (WDR) status occurs when a student chooses not to complete a course. No mark is reported with either a course completion status of INC or WDR, and these courses do not appear on student transcripts.

Challenged CTS courses and those CTS courses given credit through evaluation by the senior high school principal, but taken in junior high school, are also to be reported to the Information Services Branch. See the Course Challenge section in this *Guide*.

The waiver of prerequisite provisions does not apply to CTS courses. See Exceptions in the Waiver of Prerequisites and Credits for Waived Prerequisite Courses in the Awarding Course Credits section in this *Guide*.

Further information about CTS course completion, reporting processes and funding eligibility is provided in the:

- *Funding Manual for School Authorities*
- *CTS Manual for Administrators, Counsellors and Teachers*, Appendix 6: Policies and Guidelines for Implementing CTS Courses in Senior High Schools.

Grade 12 Validation Statement

Alberta Education makes every attempt to confirm the accuracy of each student's senior high school record by issuing to each Grade 12 student a Student Record Validation Statement. This validation statement is produced from the Alberta Education student record. The statement shows the student's complete senior high school achievement record, at the time of issuance, and lists all courses completed, passed or failed. See the Schedule of Activities documentation available from the Information Services Branch.

Grade 12 Exemptions for Transfer-in Students

Out-of-province Grade 12 students who transfer into Alberta schools at the beginning of, or any time during, the school year should be exempted from Career and Life Management and Physical Education 10. These students are still required to achieve the necessary minimum requirement of 100 credits to earn a senior high school diploma.

For the purpose of this exemption, a Grade 12 student is defined as one who is to graduate in the school year the student transfers into an Alberta school.

Notice of a student's exemption is to be reported by the principal, on the High School Course Reporting Form, or electronically, to the Information Services Branch, by April 30 prior to the student's anticipated graduation date.

Diploma Examinations Program

The Diploma Examinations Program consists of course-specific examinations based on the *Program of Studies: Senior High Schools*. Students are required to write diploma examinations in the following courses:

Applied Mathematics 30	French Language Arts 30
Biology 30	Physics 30
Chemistry 30	Pure Mathematics 30
English Language Arts 30-1	Science 30
English Language Arts 30-2	Social Studies 30
Français 30	Social Studies 33

The final mark for diploma examination courses is determined by averaging the diploma examination mark with the school-awarded mark. To obtain credit in a diploma examination course, students are to write the appropriate diploma examination and obtain a final mark in the course of 50% or higher. All diploma examinations are available in the French language, except for English Language Arts 30-1, 30-2, and Science 30. Students may elect to write either the French or English language version of the respective examination.

For more information on diploma examinations, see the following documents available on the Alberta Education Web site at www.education.gov.ab.ca/k_12/testing.

- *General Information Bulletin: Diploma Examinations Program*
- *Information for Students*—a newsprint flyer sent to all schools
- Subject information bulletins for each course in which a diploma examination, as listed above, is administered.

January and June Diploma Examinations

Examinations are written at all senior high schools offering the diploma examination courses. All students currently enrolled in diploma examination courses are to be registered for the examinations with the Information Services Branch by their senior high school principal.

Students not currently enrolled in a diploma examination course, but wishing to write, must register with Alberta Education. This can be achieved by completing a diploma examination registration form, available through senior high school principals, the Learner Assessment Branch, Information Services Branch or the Alberta Education Web site. The registration form is to be forwarded to Alberta Education by the due date, as published in the *General Information Bulletin: Diploma Examinations Program*.

Special writing centres outside Alberta may be authorized for the January and June examination sessions upon application to and approval by the Special Cases Committee.

August Diploma Examinations

August diploma examinations are written only at a selected number of centres and summer schools throughout the province.

For the August administration, students not registered through a summer school register at the time of writing their examinations.

Special writing centres outside Alberta may be authorized for the August examination session upon application to and approval by the Special Cases Committee.

November and April Diploma Examinations

November and April diploma examinations are available only to students in schools that have been approved by the Minister of Education to administer these examinations. Approvals are coordinated through the Learner Assessment Branch of Alberta Education.

Special writing centres outside Alberta may be authorized for the November and April examination sessions upon application to and approval by the Special Cases Committee.

Diploma Examinations Schedules

For information on diploma examinations schedules, consult the current *General Information Bulletin: Diploma Examinations Program*, available in all senior high schools or from the Alberta Education Web site.

Eligibility to Write

- Students who are registered in Alberta senior high schools to receive instruction in a diploma examination course are permitted to write the diploma examination in that course at their school of registration.
- Students currently enrolled in a diploma examination course are required to write the diploma examination in that course before credits are awarded.
- Students who have been awarded credit previously for the course may register to write the diploma examination. A student rewriting a diploma examination is required to pay a rewrite fee (see Rewrite Fees below).
-  • Mature students, as defined in the Mature Students section of this *Guide*, may register to write the diploma examination, without taking instruction.
- Visiting students who are coded 415 or 416 and not funded by Alberta Education and exchange students (not on an approved Alberta Education reciprocal exchange program) who are writing a diploma examination will be required to pay a fee.
-  • Students who are in a Home Education Program are eligible to write diploma examinations.

Rewrite Fees

- Students who intend to rewrite a diploma examination are required to submit a registration form and pay a rewrite fee for each examination, directly to Alberta Education. This applies whether or not students are receiving instruction in the course through day classes, evening classes, summer school or distance learning.
- Students who have unpaid rewrite fees from prior examination sessions will have current payments credited toward the outstanding debts. Students are required to clear any outstanding debt before their current examination marks appear on their senior high school records.
- Students are charged a rewrite fee for a diploma examination if the students have written examinations in this course within the current or previous two years.
-  • Some diploma examinations may not be available for rewrite during certain administrations. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Accommodations for Students with Special Diploma Examination Writing Needs

Students with special diploma examination writing needs may require accommodations in order to write a diploma examination and may request approval for:

- an examination to be provided in Braille, large print or CD format
- variation in writing time and place or mode of response
- other adjustments.

Administrators are directed to the policy Accommodations for Students with Special Diploma Examination Writing Needs, contained in the *General Information Bulletin: Diploma Examinations Program*. The school principal shall make application, together with the required documentation, to the Special Cases Committee, Learner Assessment Branch, Alberta Education according to the dates specified in the *General Information Bulletin: Diploma Examinations Program*.

Accommodations are applied for and granted for a specific examination administration. A renewed application for any accommodation must be made, in writing, for any subsequent administration. Documentation is required only for the initial application.

Exemption from Writing Diploma Examinations

Under specific circumstances, the school-awarded mark may be accepted as the final mark upon application to and approval by the Special Cases Committee. See the *General Information Bulletin: Diploma Examinations Program* for more information.

Diploma Examination Results Statement

Following each diploma examination period, each student who has written one or more diploma examinations receives a Diploma Examination Results Statement. The statement shows the current diploma examination mark, the most recent school-awarded mark, and the final mark for each course.

Note: Students who have unpaid examination rewrite fees are required to clear this debt before any current examination marks will appear on their senior high school records.

For students who may have two or more school-awarded marks, or two or more diploma examination marks in the same course, the final mark, for official transcript purposes, is a blend of the highest school-awarded mark and the highest diploma examination mark achieved in the course within the current and previous two school years.

Reporting to the Public

Schools, school boards, charter school boards and private schools are expected to report annually to the public. They are expected to report on the percentage of students who achieve the acceptable standard and the percentage of students who achieve the standard of excellence on diploma examinations, as well as student participation in diploma examination courses. Student results based on school marks and final marks can also be reported.

Provincial results for diploma examination courses are released annually by the Minister in the fall. Prior to this release, an annual summary report containing combined results for all diploma examination administrations is provided to schools and school authorities. Summary results for the school year are provided on Alberta Education's Web site. For further information, schools can also refer to Policy 2.1.3, Use and Reporting of Results on Provincial Assessments, and the *Guide for School Board Planning and Results Reporting*.

Appeal Procedures

School-awarded Course Marks

School principals should inform students of appeal procedures. A student who is dissatisfied with a school-awarded mark may:

- appeal under the policies set by the school authority, or
- take the course again.

Changes to non-diploma examination course marks shall be received no later than October 31 of the current school year for marks originating in the previous school year.

Formal notifications of school-awarded mark changes in diploma examination courses shall be submitted to the Information Services Branch before the official release dates of Results Statements. These dates are published in the annual *General Information Bulletin: Diploma Examinations Program*.

Requests to change school-awarded marks in diploma examination courses after the published dates shall be submitted to the Information Services Branch for approval.

Diploma Examination Marks

A student who believes that his or her diploma examination mark does not appropriately reflect his or her achievement may:

- submit a written request for a rescore to the Learner Assessment Branch, in accordance with the terms and date specified on the appropriate results statement, or

- rewrite the examination at a later administration date. Some diploma examinations may not be available for rewrite during certain administrations. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Rescoring a Diploma Examination

- A student who wishes to have a diploma examination rescored is required to submit an application form and pay a rescore fee, per examination, directly to Alberta Education. This fee is refunded, if the examination mark is raised by 5% or more.
- The mark resulting from rescoring becomes the final diploma examination mark, whether it is lowered, raised or remains the same.

High School Diplomas, Certificates of Achievement and Transcripts

Information Services Branch issues the Alberta High School Diploma, the High School Equivalency Diploma or the Certificate of Achievement to students who meet the graduation requirements. A Statement of Courses and Marks, containing the entire senior high school record, accompanies the diploma or certificate and is available free to students and schools.

For a fee, students may request that an Alberta High School Transcript of Achievement be sent to themselves, an employer or a post-secondary institution. The transcript is produced from the student's Alberta Education student record. Courses deemed incomplete for any reason are not reported. It is the responsibility of the student to request an updated transcript when additional courses are completed following initial graduation, or as required.

Language Versions

Diplomas, certificates, transcripts and statements of courses and marks are issued in the English language. Principals of schools with alternative French language programs (includes French immersion) are expected to advise their students that they can request that their transcripts and/or Alberta High School Diplomas be in French. Principals should submit a letter to Information Services Branch naming those students wanting French diplomas and transcripts. For students registered in a Francophone school, diplomas, certificates and transcripts will be issued in French.

All students receive a Statement of Courses and Marks in English only.

Provisions for Mature Students

Mature students may earn senior high school credits without holding the prerequisite courses. See the Mature Students section for more information.

Credits for Private School Instruction

When a registered private school is approved as an accredited private school, students enrolled in the school prior to the change in classification may be awarded senior high school credits for courses successfully completed, prior to the change of classification, at the discretion of the principal of the accredited private school.

When a student transfers to a school operated by a public or separate school board, or to an accredited private Alberta high school from a registered Alberta private school, or other nonaccredited school, the student may be awarded credits for previous instruction at the discretion of the principal of the appropriate school. In these instances, the student is responsible for providing the principal with a record of the final mark awarded and an outline of each course.

When credits for previous instruction are awarded, the principal is expected to enter, either electronically or in the course mark column on the High School Evaluation Report form, a "P" for pass, not a grade or percentage score.

Awarding Course Credits

Introduction

After each semester or school year, students shall be awarded credits, by Alberta Education, on the recommendation of the principal, subject to the following departmental requirements:

- instruction is provided by qualified teachers holding valid Alberta teaching certificates
- instructional time allocated to each subject meets minimum times specified by Alberta Education
- the content of each subject follows that outlined in the *Program of Studies: Senior High Schools* and/or course(s) approved by the Minister and/or by the school authority
- the senior high school is operated in accordance with the *Guide to Education: ECS to Grade 12*
- student evaluation is carried out in accordance with school authority policy and is consistent with provincial policy
- school-awarded marks in diploma examination subjects and final marks in all other senior high school subjects are endorsed by the principal in accordance with school authority policy. School-awarded marks are subsequently submitted to Alberta Education for recording, at a time and in a manner determined by the Minister.

Rules Governing Awarding of Credits

- To earn the credits attached to all senior high school courses, a student shall achieve at least 50% ("C" standing) in each course.
 - Credits will not be granted for courses that a student has previously passed and been awarded credits. In the case of a student repeating a course, the higher mark will be recorded on the student's record and will appear on the transcript.
-

Number of Senior High School Credits in French and Other Languages

Senior high school students in Alberta are encouraged to take a wide range of courses. In keeping with this principle, no more than 25 credits may be presented in any one second language, including French, for senior high school diploma purposes. However, for purposes other than the senior high school diploma, such as preparation for the workplace, students may earn any number of credits in each second language, including French.

Course Sequence Transfer

The provision for course sequence transfer enables students to change course sequences, when necessary, to more appropriate levels of challenge. The recommended transfer routes for each program area are given under Transfer Points (Recommended) and Course Sequences in the Courses and Programs section.

Students may transfer from a lower level sequence to a higher level sequence. For example, in senior high school social studies, students may transfer from the 13–23–33 sequence to the 10–20–30 sequence. For specific course sequences, refer to the transfer sequence charts under Transfer Points (Recommended) and Course Sequences in the Courses and Programs section.

Students who transfer from a 10–20–30 sequence to a 13–23–33 sequence, or from a 13–23–33 sequence to a 14–24 sequence, should transfer into the sequence at the next grade level; e.g., Social Studies 10 to Social Studies 23. Students will not receive waived credits for the lower-level course in the new sequence. For example, students who successfully complete Social Studies 10 and then transfer to Social Studies 23 will not receive credits for Social Studies 13.

When a student transfers into a less challenging academic sequence, the principal may admit the student with less than a 50% standing. See Retroactive Credits in this section.

Students who successfully complete the first course in a sequence, and then transfer to another sequence, and are waived to the highest level in that sequence, should receive credits for the middle course in the new sequence, upon successful completion of the highest level course. For example, students who successfully complete Social Studies 10, then successfully complete Social Studies 33 should receive waived credits for Social Studies 23 and earned credits for Social Studies 33.

Circumstances that should be considered when counselling a student to use the course sequence transfer provision include:

- language proficiency; as the student's language proficiency increases, a more academic sequence may provide a more appropriate level of challenge
- the school's ability to schedule the appropriate course route
- the student's ability and motivation.

The school authority shall have a policy that states clearly the criteria to be met by a student who wishes to change program routes.

Course Level Transfer in Diploma Examination Courses

To ensure fairness, consistency and equity, jurisdictions and schools must have procedures in place to govern the assignment of school-awarded marks for students who transfer their diploma course level registration.

Students taking course instruction in diploma examination courses must be registered for their diploma examinations by the dates specified by Alberta Education. Changes in diploma examination registration from one level to another (for example, Social Studies 30 to Social Studies 33) after these registration dates should occur only if there is sufficient time for school staff to assess the student's achievement in the course and adequate time for the student to prepare for the examination. Consultation among the school staff, student, and where applicable parents or guardians, is an important component of the course transfer process.

Students who transfer course level registration in diploma examination courses must receive a final school-awarded mark based on the knowledge, skills and attitudes of the course into which they transfer. The process of evaluation of a student's achievement in this situation would be very similar to that used to evaluate a student's achievement through the Course Challenge provision outlined in this section. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Prerequisite Standing

A student who has achieved a mark of 50% or higher in a given course shall be eligible to take the next or higher ranking high school course in that sequence. See Appendix 1 in this *Guide*.

Course Challenge

Course challenge is a provision that allows senior high school students to challenge the outcomes of a course, including 1-credit career and technology studies courses, through a formal assessment process.

Course challenges are intended to:

- meet the diverse needs of students
- encourage students' ownership of their learning
- acknowledge the learning that students acquire in a variety of settings, not necessarily limited to schools.

Students challenging a course will be given a final course mark, except in diploma examination courses, and, if successful, credits in that course.

This provision applies to the non-diploma examination courses and only to the school-awarded mark component of diploma examination courses. Credit in diploma examination courses can be achieved only through combination of the school-awarded mark (50%) and the diploma examination mark (50%).

The course challenge process must assess a student's achievement of the depth and breadth of the outcomes for the course. Assessment procedures for course challenges shall include a variety of formats and strategies.

Any student who is registered in senior high school and who believes that he or she already possesses the knowledge, skills and attitudes prescribed by the program of studies for a course, shall be allowed to demonstrate these learnings through special assessment opportunities.

For additional information regarding procedures, see Course Challenge in Appendix 3 of this *Guide*.

Exceptions

Since the course challenge policy applies only to students who believe they have the knowledge, skills and attitudes as defined by the program of studies for a given course, they would not be able to challenge courses that do not have specifically defined content in the program of studies.

The following are excluded from the course challenge provision:

- French 13
 - Mathematics Preparation 10
 - All RAP courses
 - Special Projects 10, 20 and 30
 - Work Experience 15, 25 and 35
 - CTS courses completed in grades 7, 8 and 9.
-

Waiver of Prerequisites and Credits for Waived Prerequisite Courses

Prerequisites shown in Appendix 1 of this *Guide* may be waived by the principal.

If the principal waives a prerequisite, the following conditions must be met:

- **the student possesses the knowledge, skills and attitudes identified in the waived course or program of studies**
- **judgements are made on an individual basis, not for an entire class of students**
- **it is in the student's best interest.**

For example:

- A student who is waived into English Language Arts 30-1, and successfully completes the course, receives 5 earned course credits for English Language Arts 30-1 plus waived credits for English Language Arts 10-1 and English Language Arts 20-1, for a total of 15 credits.
- A student successfully completing English Language Arts 10-2, 20-2, 30-2 and English Language Arts 30-1 receives 20 credits. However, waived credits are not granted for English Language Arts 10-1 and English Language Arts 20-1 because the student transferred from a lower-level course to a higher-level course sequence. The student was not waived into English Language Arts 30-1.
- A student who successfully completes English Language Arts 10-1, then earns credits for English Language Arts 30-2, should receive waived credits for English Language Arts 20-2.

Upon successful completion of the next or higher ranking course in a given sequence, the principal shall report, electronically, on the High School Course Reporting Form, any waived course or courses to the Information Services Branch. Credits are then granted for the waived prerequisite course or courses, and a "P" for pass is recorded on the student's record and transcript.^❶ The credits awarded for each prerequisite course are the same as the number of credits achieved for the course completed, unless otherwise specified by the principal.

When it is in the best interest of the student to receive both credits and a mark for a course (other than a "P" for pass), schools can use the flexibility now available through alternatives to the Carnegie Unit organizational model (see under School Organization in the Senior High School Programming section) to provide the instruction necessary to complete the course requirements. The student may then be evaluated to determine a percentage mark.

Exceptions

The waiver provision outlined above does not apply to the following courses:

- all CTS Courses (except as outlined below)
- French 13
- Locally Developed/Acquired and Authorized Complementary Courses (all)
- Mathematics Preparation 10
- Physical Education 10
- Registered Apprenticeship Program 15–25–35
- Social Studies 10
- Social Studies 13
- Special Projects 10, 20 and 30
- Work Experience 15, 25 and 35.

Career and Technology Studies

Students may challenge courses in CTS. See Course Challenge in this section. The waiver provision does not apply to CTS, and as such, the student would receive credits only for courses successfully challenged, regardless of level (introductory, intermediate or advanced). The student would not receive waived credits.

In order for a student to be given advanced standing when entering senior high school with the necessary competencies in a 1-credit CTS course, achieved in junior high school, the student may need to have a prerequisite waived. The only time in which a CTS 1-credit course may be waived is when the senior high school principal accepts the recommendation of a

❶ A "P" for pass mark is not taken into consideration in the calculation of averages for the Alexander Rutherford Scholarships for High School Achievement or for post-secondary entrance.

junior high school principal to place a Grade 10 student into a higher level 1-credit course that requires a prerequisite. In this case, the senior high school principal would place the student in the higher level 1-credit course, in effect waiving the lower level 1-credit course. Upon successful completion of the next or higher ranking course in a given sequence, the principal shall report, electronically, on the High School Reporting Form, any waived course or courses to the Information Services Branch. The student would then receive credit for the waived course and a mark and credit for the 1-credit course. This is the only way in which a CTS prerequisite may be waived.

Retroactive Credits

This section applies to all students except mature students. See the criteria for mature students in the Mature Students section.

Students not achieving at least 50% in a course may repeat the course or, subject to the approval of the school principal, take a course in an alternative sequence. Students who successfully complete the next higher level course in an alternative sequence shall be granted credit for the prerequisite course in that alternative sequence.

The following chart presents the only courses toward which retroactive credits may be applied.

COURSES ELIGIBLE FOR RETROACTIVE CREDITS^①

Registered Course Reported Failed Semester/School Year: A	Alternative Course Passed Semester/School Year: B	Alternative Retroactive Credits Semester/School Year: B
English Language Arts English Language Arts 20-1 English Language Arts 10-1 English Language Arts 20-1 English Language Arts 10-2	English Language Arts 30-2 English Language Arts 20-2 English Language Arts 30-2 English Language Arts 26	English Language Arts 20-2 English Language Arts 10-2 English Language Arts 20-2 English Language Arts 16
Français Français 10 Français 20 Français 10-2	Français 20-2 Français 30-2 Français 26	Français 10-2 Français 20-2 Français 16
French French Language Arts 10 French 31a	French 31a French 30	French 30, 20, 10 French 20, 10
Mathematics Applied Mathematics 10 Pure Mathematics 10 Pure Mathematics 10 Pure Mathematics 20 Mathematics 14 Mathematics Preparation 10	Mathematics 24 Applied Mathematics 20 Mathematics 24 Applied Mathematics 30 Mathematics 26 Mathematics 24	Mathematics 14 Applied Mathematics 10 Mathematics 14 Applied Mathematics 20 Mathematics 16 Mathematics 14
Social Studies Social Studies 10 Social Studies 20 Social Studies 13	Social Studies 23 Social Studies 33 Social Studies 26	Social Studies 13 Social Studies 23 Social Studies 16
Science Science 10 Science 14	Science 24 (5 credits) Science 26	Science 14 Science 16
① The references to Semester/School Year "A" and Semester/School Year "B" are to emphasize that sequential registration and instruction are required.		

Courses for which retroactive credits have been granted will be recorded as "P" for pass on the student's record and transcript.

A student shall be awarded retroactive credits automatically by Alberta Education when all of the following criteria are met:

- The student is registered by the principal in an approved course and receives instruction in the course in Semester "A" or School Year "A".
- At the end of Semester "A" or School Year "A", the principal reports to the Information Services Branch, that the student has failed in the registered course. A mark of less than 50% must be reported to the Information Services Branch and recorded on the student's file in order for the student to be eligible for retroactive credits in the following years.

-
- Pursuant to a specific school authority promotion policy, the student is registered, by the principal, in the next higher level course in an alternative sequence in the following Semester “B” or School Year “B”.
 - The principal subsequently submits to the Information Services Branch, in the appropriate reporting period for Semester “B” or School Year “B”, a pass mark in the higher level alternative course completed.

Mature Students

Mature Student Status

Mature Student Status is granted effective September 1 for the subsequent school year. All the necessary criteria are to be satisfied prior to September 1.

- A mature student, for Alberta High School Diploma purposes, is one who, as of September 1 of the current school year, is:
 - 19 years of age or older; or
 - the holder of a previously awarded high school diploma from the province of Alberta; or an equivalent high school diploma from a jurisdiction acceptable to the Minister.
- The privileges afforded by the granting of Mature Student Status are not applied retroactively to a student's completed course work on file with Alberta Education. The application of Mature Student Status is conditional upon the completion of new course work subsequent to September 1 of the school year in which the status becomes effective.
- If a dispute or uncertainty as to whether or not a person qualifies for Mature Student Status still exists after all avenues of appeal have been explored at the jurisdictional or school authority level, cases may be submitted, in writing, to the Executive Secretary, Special Cases Committee, Alberta Education.

- Mature students enrolled in credit courses must be registered with the Information Services Branch.
- A mature student may earn senior high school credits after successfully completing:
 - courses offered in a regular accredited school
 - courses offered under extension programs
 - courses offered by the Alberta Distance Learning Centre
 - a diploma examination conducted by Alberta Education with or without formal course instruction.
- A mature student is eligible to enroll in any course at the senior high school level or to write a diploma examination without holding the required prerequisite courses.
- A mature student who has achieved a standing of 50% or higher in a senior high school course, by any of the alternatives noted above, will automatically be awarded credits by Alberta Education in the normal prerequisite(s) for the course(s) completed. The credits awarded for each prerequisite course will be the same as the number of credits achieved for the course completed unless otherwise specified by the principal. However, a mature student who completes a lower-level sequence and transfers to the highest course in a higher-level sequence will receive credits only for the courses completed. For example, a mature student completing Social Studies 13–23–33 and Social Studies 30 will receive 20 credits. See under Waiver of Prerequisites and Credits for Waived Prerequisite Courses, second example, in the Awarding Course Credits section.
- Mature students are eligible to receive the Alberta High School Diploma or the Certificate of Achievement upon completing the specified requirements. They are not, however, required to complete Physical Education 10 or Career and Life Management.

Note: Many school authorities offer comprehensive programs for mature students in both credit and noncredit areas. Interested mature students should consult their school authority for details about such programs.

Mature students who enroll in senior high school courses may earn the Alberta High School Diploma under the current diploma requirements. Mature students who have not previously attended senior high school are expected to meet the current requirements, except for Physical Education 10 and Career and Life Management, to earn senior high school diplomas. Mature students who entered senior high school in the 1983–1984 school year, or before, may meet the current requirements for the Alberta High School Diploma or the 1983–1984 requirements, as follows. **For a mature student to meet this provision, the student must have had a mark reported to Alberta Education in, or before, the 1983–1984 school year.** Also see under Grade 10 Students in the Student Placement and Promotion section.

High School Diploma Requirements 1983–1984

A high school diploma is awarded to a student holding 100 credits, subject to the following requirements:

- Language arts—a minimum of 15 credits, five of which must be in English Language Arts 10 or English Language Arts 13 and five in English Language Arts 30 or English Language Arts 33.
- Social studies and social sciences—a minimum of 10 credits, five of which must be earned in Social Studies 10. A maximum of 18 credits may be earned in the social sciences options.
- Physical Education 10—a minimum of 2 credits, which were offered at that time.
- Mathematics—a minimum of 5 credits with a maximum of:
 - 10 credits in Grade 10
 - 15 credits in Grade 10 and 11 courses.
- Science—a minimum of 3 credits.
- Grade 12 courses—5 credits in English Language Arts 30 or English Language Arts 33, or English 36¹ if completed prior to September 1974, plus a minimum of 10 credits in other subjects at this level.

Credits earned in other approved high school courses may be used to obtain the required 100 credits.

The principal forwards a letter to the Information Services Branch indicating for which diploma requirements the student is eligible. This information may be provided at any time during the school year.

See also the Alberta High School Diploma Graduation Requirements in this *Guide*.

¹ The English 36 course referred to here should not be confused with the Integrated Occupational Program English 36 course. There was no departmental examination for the English 36 course referenced here.

High School Equivalency Diploma

Alternative 1

There are two alternatives for achieving a High School Equivalency Diploma.

A person, 18 years or older as of September 1 of the current school year, who is deficient in the credits needed for an Alberta High School Diploma, and who has been out of school for at least 10 consecutive months, and who wishes to obtain a High School Equivalency Diploma, should apply to the principal of a senior high school in the community. The principal will forward the High School Equivalency form to the Information Services Branch, indicating that the following requirements have been met. All necessary documents should be included with the letter.

The candidate shall obtain 100 school credits as set forth below:

- A minimum of 60 credits must be gained through classroom instruction in a school or other institution accredited by or acceptable to Alberta Education (for out-of-province students), offering approved senior high school courses, as follows:
 - a high school course in mathematics 5 credits
 - a high school course in science 3 credits
 - English Language Arts 30 or 30-1 or
English Language Arts 33 or 30-2 5 credits
 - one other 30-level course, other
than English Language Arts 5 credits
 - additional high school courses 42 credits
- A minimum of 40 additional credits, which must be earned as follows:
 - additional high school courses
 - additional approved adult education courses under recognized agencies; e.g., public colleges, institutes of technology, extension divisions of universities, adult evening classesAND/OR
 - a maximum of 15 credits for maturity, according to the following scale:
 - age 21–24 (inclusive) 5 credits
 - age 25–29 (inclusive) 10 credits
 - age 30 and over 15 credits
 - a maximum of 5 credits for extensive travel
 - a maximum of 5 credits for extensive reading or private study.

Alternative 2

A person, 18 years or older, who has been out of school for at least 10 consecutive months, who passes all five tests in the General Educational Development (GED) test battery with a minimum standard score of 450^❶ or better in each test, and meets the eligibility requirements, will be granted a High School Equivalency Diploma.

For more information regarding Alternative 1, Alternative 2 and the GED program, contact the Provincial GED Administrator, Learner Assessment Branch.

❶ The GED standard has not changed. The reporting of the standard was changed from a 2-digit system to a 3-digit system effective January 2002.

Special Cases Committee

Frame of Reference of the Committee

Student Evaluation Regulation
Alta. Reg. 177/2003,
Section 12

The Minister under Section 12 of the Student Evaluation Regulation, A.R. 177/2003, appoints members of the Special Cases Committee. The Committee addresses matters that require the interpretation and application of policy relative to an individual's program.

The Special Cases Committee is the final procedural level in the appeal process before one can ask the Minister of Education to review a decision. All other avenues of appeal are to be explored at their jurisdictional level before making an appeal to this provincial body.

Membership of the Committee

The Minister appoints members of the Committee. The committee is chaired by the Director, Examination Administration, Learner Assessment Branch and is comprised of four other directors of Alberta Education, or their designates, as approved by the chair.

Functions of the Committee

The Committee is responsible for hearing appeals from decisions on matters, including the following:

- **determining the number of high school credits to be awarded to out-of-province students who have appealed an Alberta school evaluation**
- **ruling on disputed evaluation or diploma requirements where no policy or precedent exists**

-
- determining mature student status of individuals
 - reviewing disputed retroactive credits
 - determining permitted practice variations for students writing diploma examinations
 - reviewing any other decision that the Special Cases Committee considers appropriate in the circumstances.
-

Directions for Contacting the Committee

- Individuals who have explored all other avenues of appeal at their jurisdictional level may apply, in writing, for their case to be reviewed by the Special Cases Committee. The written submission should provide reasons for the appeal and rationale in support of the appeal.
- Individuals making an appeal to the Special Cases Committee must advise the principal of the school and the superintendent of the school authority where the student received instruction.
- Upon receiving notice of an appeal to the Special Cases Committee, the principal of the school must submit a written report to the Special Cases Committee outlining recommendations related to the appeal.
- Students shall be informed of their right of appeal to the Special Cases Committee.

RESOURCES AND SERVICES:

Learning Resources

Introduction

In terms of provincial policy, learning resources are those print, nonprint and electronic software materials used by teachers or students to facilitate teaching and learning. Many learning resources, publisher developed, Alberta Education developed, and Alberta teacher published, are available for use in implementing school programs. Decisions about the selection and use of resources are a local matter and should take into account student skill levels, interests, motivations and stages of development.

Alberta Education authorizes learning resources in three categories:

- basic student learning resources
- support student learning resources
- authorized teaching resources.

Authorization indicates that the resources meet high standards and can contribute to the attainment of the goals of the program. However, the authorization of these resources does not require their use in program delivery.

Almost all basic and support student learning resources, and authorized teaching resources, are available for purchase from the Learning Resources Centre of Alberta Education.

Accessibility, availability, pricing and ordering information for all authorized learning resources is available from the Learning Resources Centre, or the *Learning Resources Centre Resources Catalogue* (also available in CD-ROM and print formats).

Denotes a hyperlink in the online version to a referenced government document.

Denotes a hyperlink in the online version to a referenced government Web site.

Denotes a hyperlink in the online version to a referenced section within this *Guide*.

Learning Resources Credit Allocation

The Learning Resources Credit Allocation (LRCA) is applicable to all products purchased from the Learning Resources Centre. The credit allocation is available, up to a specified dollar limit, through the Learning Resources Centre for eligible or approved Alberta school authorities for the purchase of any learning resource carried by the LRC. Further information for the present allocation is provided in the *Learning Resources Centre Resources Catalogue*, at their Web site, in the LRCs School Information Package, or by calling the LRC.

Basic Student Learning Resources

Basic learning resources are those student learning resources authorized by Alberta Education as the most appropriate for addressing the majority of outcomes for a course(s), substantial components of a course(s), or the most appropriate for meeting general outcomes across two or more grades, subject areas or programs as outlined in provincial programs of study. Basic learning resources may include any resource format, such as print, computer software, audio, video or manipulatives.

Support Student Learning Resources

Support learning resources are those student learning resources authorized by Alberta Education to assist in addressing some of the outcomes for a course or components of a course; or to assist in meeting the outcomes across two or more grades, subject areas or programs as outlined in provincial programs of study. Support learning resources may include any resource format, such as print, computer software, audio, video or manipulatives.

Learning Resources for Students with Visual Impairments

The Learning Resources for the Visually Impaired (through LRC's Materials Resource Centre) provides alternative formats for curriculum materials, such as braille, large print and audiotape, as well as equipment and kits for visually impaired students in Alberta. Materials available for students who are visually impaired may also be useful for students with perceptual disabilities.

The MRC currently loans to school authorities the following:

- braille, audiotape and large print curriculum and leisure reading resources
- kits including sensory, concept and skills development materials, tactile games and maps
- professional resources for use of educators of the visually impaired
- specialized equipment including brailers, braille notetakers, 4-track cassette recorders, talking calculators, closed circuit televisions, large print calculators, large print typewriters and electronic dictionaries.

For more information, contact the Materials Resource Centre Unit at the Learning Resources Centre.

**Locally
Developed/
Acquired
Student
Learning
Resources**

A school board may develop or acquire instructional materials for use in programs or in schools under section 60(2)(b) subject to the provisions of section 39 of the *School Act*.

In developing/acquiring instructional materials, the school board should take into account such criteria as curriculum fit, criteria for promoting respect and understanding, appropriateness for student developmental stages and criteria for instructional design.

**Curriculum Support
Resources for Teachers**

The provision for curriculum support is a responsibility shared by school authorities and Alberta Education. Materials and activities are designed to help teachers implement the course or program of studies. Support materials include print and nonprint items and support activities include orientation sessions and/or workshops.

Most curriculum support materials are available for purchase from the Learning Resources Centre.

A number of teacher inservice programs are available on video from ACCESS: The Education Station.

Information about curriculum support materials and activities is available from the Learning and Teaching Resources Branch of Alberta Education.

For all French language program curriculum support resources, please contact the French Language Services Branch.

**Authorized
Teaching
Resources**

Authorized teaching resources are those teaching resources produced externally to Alberta Education and authorized by the Minister; e.g., resources produced by publishers, reviewed by Alberta Education, found to meet the review criteria, and to be the best available resources to support the implementation of courses/programs of study and the attainment of the goals of education. Teaching resources produced as documents by Alberta Education, such as guides, diagnostic programs and monographs, are approved by definition.

In exceptional circumstances, a teaching resource may be given basic teaching status.

**Resource Materials from
Learner Assessment
Branch**

The Learner Assessment Branch provides a variety of materials to support teachers and students. For more information, see the *General Information Bulletin: Diploma Examinations Program*.

Learning Resources Centre Resources Catalogue

The *Learning Resources Centre Resources Catalogue*, and its Internet Web site, with electronic inquiry/ordering capability, provide a comprehensive list of all student and teaching resources authorized by Alberta Education for use in Alberta schools. The Learning Resources Centre carries almost all resources authorized by Alberta Education and provides affordable access to resources in English, French, and other International and Aboriginal languages.

All resources available from the Learning Resources Centre are sold on a not-for-profit basis. In addition, LRC's ordering, pricing and business practices are available in its *Learning Resources Centre Resources Catalogue*, on the Web site, or by calling LRC. As well, for each resource carried in stock, the LRC provides such product information as:

- grade and subject of intended use
- authorization status
- language of content
- title
- publisher
- edition
- author
- publication year
- ISBN
- LRC product order number
- LRC selling price.

French language instructional materials for French first language and for French alternative language programs (includes French immersion) are listed on the CD-ROM version of the Learning Resources Catalogue in French.

The Learning Resources Centre carries the following categories of learning resources for school purchase:

- basic student learning resources, print and nonprint
- support student learning resources, print and nonprint
- authorized teaching resources
- distance education print and some nonprint course material
- English, French and other languages instructional materials
- Alberta Education legal and information/service publications, such as programs of study, guides to education, and Western Canadian Protocol framework documents
- preadministered Grade 12 diploma examinations
- some standardized test materials
- additional learning resources that do not go through review or evaluation by Alberta Education but may be listed by LRC for school purchase due to high demand and usage by schools.

The LearnAlberta.ca Web site at www.learnalberta.ca offers engaging digital learning resources for students, parents and teachers in Alberta's Kindergarten to Grade 12 community. These multimedia learning resources can be accessed at school, at home or from any computer with an Internet connection.

Basic Learning Division

Introduction

The Basic Learning Division works with the province's school authorities and early childhood services operators to provide learning programs that affect birth through adolescence. This includes programs for preschool and school-age children. The work of the division focuses on providing courses and programs and setting standards for the province's school authorities. As well, the division provides services to support program implementation. Numerous specialized functions and projects related to special programming initiatives, such as Aboriginal education, coordination of the Alberta Children's Initiative, Francophone education, and programs for those with special needs, contribute to laying the foundation for lifelong learning for all of Alberta's youth.

Provincial Standards and Processes Sector

The Provincial Standards and Processes Sector develops, communicates, assesses and supports the elements, expectations and programs related to Alberta's Kindergarten to Grade 12 education system.

Governance and Program Delivery Branch

The Governance and Program Delivery Branch works with clients, stakeholders and branches in Alberta Education to ensure provincial policies and programs are aligned and support learners' access to education, as defined by the *School Act* and related legislation:

- standards and processes for reviews, inquiries and investigations
- school authority governance
- the *Guide to Education: ECS to Grade 12*, the *School Act*, policies and regulations
- Attendance Board, establishment of separate school districts
- disposition of property, board elections and private schools.

Curriculum Branch

The Curriculum Branch works with clients, stakeholders and branches in Alberta Education to develop the learning outcomes for Kindergarten to Grade 12 learners that will prepare them for daily life, further studies and the workplace:

- provincial standards and processes related to the design and development of Kindergarten to Grade 12 curricula, with a specific focus on core and optional curricula
- Kindergarten to Grade 3 programming
- curriculum development in career education, essential competencies, Integrated Occupational Program, Aboriginal languages and cultures, and international languages
- standards related to the format in which programs of study are prepared for use by school authority staff.

French Language Services Branch

The French Language Services Branch works with clients, stakeholders and branches in Alberta Education in all matters related to French language education including Francophone education and alternative French language programs (includes French immersion) and French as a Second Language. Activities include:

- developing the learning outcomes for Kindergarten to Grade 12 learners
- selecting and developing print and digital instructional resources for learners and support materials for teachers that meet acceptable provincial standards and processes
- developing standards and processes in support of alternative ways of addressing the unique needs of individual learners
- developing standards and processes to ensure French language quality in Alberta Education documents
- administering Federal/Provincial agreements in support of French language programs.

Learning and Teaching Resources Branch

The Learning and Teaching Resources Branch works with clients, stakeholders and branches in Alberta Education in selecting or developing instructional resources for learners and support materials for teachers and in ensuring these resources meet acceptable provincial standards and processes:

- resource reviews in all subject areas
- authorization of learning and teaching resources for English, French and other language programs
- Western and Northern Canadian Protocol Resource Reviews for mathematics, English language arts
- development of Guides to Implementation to support implementation of new and revised programs and development of other teacher resources.

Teacher Development and Certification Branch

The Teacher Development and Certification Branch works with clients, stakeholders and branches in Alberta Education in developing provincial standards and processes in matters related to professional staff who are key to the teaching process:

- teacher certification services and teacher registry maintenance
- due process for any Albertan to address concerns or make a complaint about a teacher's teaching or professional conduct (non-ATA members only) under the Practice Review of Teachers Regulation
- administrative services and support to the Council on Alberta Teaching Standards and the annual Excellence in Teaching Awards Program
- policy support to the basic learning system about quality teaching, including teacher career-long growth, preparation, supervision and evaluation.

Special Programs Branch

The Special Programs Branch works with clients, stakeholders and other branches in Alberta Education in developing standards and processes to support alternative ways of addressing the unique needs of individual learners:

- ECS to Grade 12 programs for learners with mild, moderate and severe special needs, and those who are gifted and talented; and other supports for students, including guidance and counselling, transitions from school to work to post-secondary, safe and caring schools and student health;
- responsiveness to student needs and parent interests through such programs as home education, charter schools, alternative programs, blended programs, online programs/schools and outreach programs/schools.

Field Services Sector

Field Services Branches provide “one-stop” provincial standards and program implementation services to meet the unique needs of school authorities, key education stakeholders, and the public. Branches identify emergent issues, provide clients with support in problem resolution, and facilitate two-way communication between school authorities and Alberta Education. Service areas include five geographic regions and Aboriginal communities throughout the province. Field Services fosters effective professional development practices provincially and acts as a liaison between Alberta Education and the six regional professional development consortia. Field Services also provides assistance to jurisdictions on the Alberta Initiative for School Improvement (AISi) through the School Improvement Branch.

The Field Services Sector is comprised of the following branches:

- Zone 1 Services
- Zone 2/3 Services
- Zone 4 Services
- Zone 5 Services
- Zone 6 Services
- Aboriginal Services
- School Improvement.

Zone 1 to Zone 6 Services Branches

The Zone Services Branches work with clients, stakeholders and branches within Alberta Education to provide “one-stop” provincial standards and program implementation services to school authorities and the public in Alberta:

- consult with school authorities regarding the particular needs of clients and interests of stakeholders, and in collaboration with other branches, adapt service delivery of provincial governance, curriculum, learning and teaching resources, professional development, special programs, and learner assessment standards and processes accordingly
- identify emergent issues, provide clients with support in problem resolution, and facilitate two-way communication between school authorities and Alberta Education.

Aboriginal Services Branch

The Aboriginal Services Branch works with clients, stakeholders and branches within Alberta Education to provide “one-stop” provincial standards and program implementation services to school authorities and other education partners on all matters related to First Nations, Métis and Inuit education and culture:

- implements First Nations, Métis and Inuit Education Policy Framework, reviews First Nations, Métis and Inuit Education Programs, and provides support to school authorities for improving the implementation of these programs
- consults with school and band authorities, Indian and Northern Affairs Canada, and other education partners regarding provincial governance, curriculum, learning and teaching resources, professional development, special programs and learner assessment, and adapts service delivery according to the needs and interests of First Nations, Métis, Inuit and other Aboriginal clients and stakeholders
- provides leadership for Aboriginal awareness and professional development sessions in partnership with other division branches and regional consortia.

School Improvement Branch

The School Improvement Branch (SIB) works collaboratively with partners and stakeholders in the design, development, implementation and sustainable management of the Alberta Initiative for School Improvement (AISI). The SIB also works with partners in the design and delivery of provincial “supports” to AISI; e.g., thematic inservices, sharing symposia, research abstracts clearinghouse, to enhance the success of projects leading to meaningful and sustainable improvement of student learning and performance. SIB determines provincial AISI outcomes and communicates these outcomes and key lessons learned in an annual report.

Addresses

Alberta Education Branch Addresses

Note: To be connected by telephone, toll free, from inside Alberta, dial 310-0000 and ask the operator for the desired number.

- The electronic address (URL) for Alberta Education on the Internet is:

- www.education.gov.ab.ca

- The mailing address for most Alberta Education branches is:

- 44 Capital Boulevard
10044 – 108 Street NW
Edmonton, Alberta
T5J 5E6

- The following branches have individual telephone and fax numbers, as noted.

- Aboriginal Services Branch
Telephone: 780-415-9300
Fax: 780-415-9306

Appendix 1

Provincially Authorized Senior High School Courses, Course Codes and Course Names

Courses within each category are listed in the sequential numerical order of the course codes. Prerequisite courses are indicated by their linear arrangement across the page, or by the line symbol  used to indicate a prerequisite that leads to more than one course. Course credits are shown in parentheses.

Prerequisite courses for Career and Technology Studies (CTS) are identified in the program of studies for each CTS strand.

Implementation years are noted in the table of contents of the *Program of Studies: Senior High Schools* and further documented in the footers of individual courses and programs of study.

Note: For courses and course codes approved after the printing of this *Guide*, check the online version of the *Guide to Education: ECS to Grade 12*. The newly approved courses and course codes will be shown with a colour shaded background in the online version.

(continued)

- ① Each course, at each level, may be offered for 3, 4, 5, 6, 7, 8, 9 or 10 credits. Beginning in the 1994–1995 school year, the maximum total that can be credited toward the 100-credit graduation requirement is 15 credits. The course challenge and waiver of prerequisite provisions do not apply to work experience courses.
- ② Each course, at each level, may be offered for 1, 2, 3, 4 or 5 credits. The course challenge and waiver of prerequisite provisions do not apply to special projects courses.
- ③ There is significant content overlap between Field Crop Production courses and Irrigated Field Crop Production courses. Students can, therefore, earn credits in either:
 - Land Preparation and Planting 33 OR Field and Crop Preparation 33
 - Harvesting Operations 33 OR Field Crop and Forage Harvesting 33.

① Prerequisite courses are identified in the program of studies for each CTS strand.

② The prerequisite provision does not apply to CTS courses, except in one instance (see Exceptions under the Waiver of Prerequisites and Credits for Waived Prerequisite Courses section).

★ The computer system accepts only 25 characters for a course name, including spaces, and that is how courses appear on the Student Profile statement on transcripts. These 1-credit courses are rolled up under strand names.

Appendix 2

Registered Apprenticeship Program (RAP) Course Codes and Course Names

The Registered Apprenticeship Program (RAP) is a program in which students spend part of their time in school and part in industry as registered apprentices in one of the designated trades. Students enrolled in RAP courses are counted as full-time high school students and as registered apprentices.

To enter the program, students must be in senior high school and meet the grade entrance requirement to the selected trade or pass the trade entrance examination. Students enrolling in RAP must be registered with both the Curriculum Branch and Apprenticeship and Industry Training. Complete details about apprenticeship can be found on the Web site at www.tradesecrets.org.

Registered Apprenticeship Program courses are classified as locally developed courses. School jurisdictions intending to offer this program should refer to the following policy and service documents:

- Off-campus Education policy found in the *K–12 Learning System Policy, Regulations and Forms Manual*
- *Off-campus Education Guide for Administrators, Counsellors and Teachers, 2000*
- *Registered Apprenticeship Program: Information Manual, February 2003.*

Note: For courses and course codes approved after the printing of this *Guide*, check the online version of the *Guide to Education: ECS to Grade 12*. The newly approved courses and course codes will be shown with a colour shaded background in the online version.

Course Challenge

Course challenge is a provision that allows senior high school students to challenge the outcomes for a course by participating in a formal assessment process, rather than taking the course.

General Information

Assessment process is the process of a student performing a number of tasks and showing samples of work that demonstrate the degree to which the student has achieved the expected standards for the outcomes of the course. The student's performance and the quality of his or her work are evaluated by a certificated teacher who has expertise in the subject/course in question.

Course refers to a course at any level in a course sequence. There are some exceptions. The course challenge does not apply for courses having no specifically defined content in the program of studies; e.g., Special Projects 10, 20 and 30 and Work Experience 15, 25 and 35.

Exceptions

The following courses are also excluded from the challenge provision:

- French 13
- Mathematics Preparation 10
- All RAP courses
- CTS courses completed in grades 7, 8 and 9.

Course challenge is a provision that allows senior high school students who believe that they have acquired the knowledge, skills and attitudes as defined by the program of studies for a given course (and are ready to demonstrate that achievement) to participate in a summative assessment/evaluation process, be given a final course mark, and, if successful, credits in that course.

Course challenge in diploma examination courses applies only to the school-awarded mark component of the course, and therefore will NOT result in a final course mark or in credits until after the student successfully completes the diploma examination for that course.

Course sequence refers to a sequence of courses that together comprise a complete set of prerequisites; e.g., French Language Arts 10–20–30.

School authority includes a school board, a charter school or an accredited private school.

Summative evaluation means final evaluation of learning outcomes.

The following procedures are mandated by Alberta Education.

The course challenge process shall be available to a senior high school student in Alberta who believes that he or she possesses the knowledge, skills and attitudes for a senior high school course as specified in the program of studies, and is ready to demonstrate that achievement through a formal, summative assessment. For diploma examination courses, this applies only to the school-awarded mark component.

Students

The student shall initiate the course challenge process and shall take the responsibility for providing evidence of readiness to challenge a course; e.g., a portfolio, other collection, or documentation of work and/or experience, a recommendation from a junior high school teacher.

A student may not initiate a course challenge for a course in a lower level sequence if the student has already completed a course in a higher level sequence. For example, a student who has earned credits for Pure Mathematics 30 may not challenge Mathematics 24. However, a student who has been waived to a higher level course in a sequence may challenge the lower level course(s) in that sequence. For example, a student who is waived into Pure Mathematics 30 may challenge Pure Mathematics 20.

A student who successfully completes a course challenge of the school-awarded mark component of a diploma examination course must write the diploma examination in order to be eligible for a final course mark and credit in that course.

High School Principal

- Course challenges shall be administered by the senior high school according to its policy, only after the student is enrolled in the senior high school.
- A student's readiness for course challenge shall be determined through consultation that includes the senior high school principal, student, parent(s), and subject teacher(s). The consultation shall include discussion of the student's chance of successfully meeting the acceptable standard for the course, and the student's apparent capacity to handle successfully the course at the next level.

- The senior high school principal shall make the final decision about the student's readiness for the course challenge. The principal shall base this decision on the consultation noted above.
- The senior high school principal shall ensure that assessment for course challenges includes strategies that will assess the breadth and scope of the learning expectations for the course as outlined in the program of studies, in a timely and practical manner.
- The senior high school principal shall assign the administration and evaluation of assessment for a course challenge to a certificated teacher who has taught the course.

Marks, Credits, Reporting

- The senior high school principal shall report a student's achievement in a course challenge according to the directive under Reporting Student Achievement in Senior High School Subjects in the Student Assessment in Senior High School Subjects section.
- A student who successfully demonstrates through the course challenge process that he or she possesses the outcomes for the course to at least the acceptable standard, shall be awarded a final course mark and credits for the course challenged, except in diploma examination courses, which require the school-awarded mark to be blended with the diploma examination mark before a final course mark or credit is possible.
- Upon a student's successful completion of a course challenge, waived prerequisite credits and a "P" for pass for courses lower in the course sequence shall be reported by the principal. A course challenge is to be reported upon completion.

Funding

- A school shall not charge funded senior high school students or their families a fee for administering course challenges. Schools shall receive 20% of the full credit enrollment unit funding for a student who completes a course challenge and who does not choose to take the course in that semester. See below.
- A student who challenges the course, either successfully or unsuccessfully, may subsequently choose to take the course.

- If a student chooses to take a course in the same semester in which he or she attempts a course challenge either successfully or unsuccessfully, the school shall submit only the course mark. That is, in such circumstances, any mark achieved through the course challenge process is invalid, and the school will be funded for the full credit enrollment unit.
- A student shall attempt a particular course challenge only once. If the student is unsuccessful, but wants credit in the course, or wishes to raise his or her mark, the student is required to take the course.

School Authorities

- Each school authority shall have a policy that governs the administration of course challenges in the senior high schools under the jurisdiction of that authority.
- Each school authority shall establish procedures to communicate to parents and students the availability of, and procedures for, course challenges.
- A school authority shall make arrangements to provide appropriate course challenge assessments for the full range of senior high school courses offered by the school authority, other than for those exceptions noted under General Information above and in the Awarding Course Credits section.
- A school authority may choose to provide for requests to challenge courses not offered by the school authority by arranging with other school authorities for such challenges. A student who undertakes such a course challenge shall assume all expenses, other than those normally assumed by a school for assessment; e.g., personal transportation.

Appendix 4

Information Bulletin on HIV/AIDS in Educational Settings

Background

This information bulletin provides information and advice for school authorities and regional health authorities to meet their joint responsibility in providing educational programming to all eligible children and to protect the general public from communicable diseases.

AIDS (acquired immunodeficiency syndrome) is the end phase of a HIV (human immunodeficiency virus) infection. This virus attacks the body's natural defense mechanisms, the immune system, steadily weakening one's ability to resist various infectious diseases and cancers. It often takes ten to twelve years, or longer, for adults infected with HIV to develop AIDS; in infants and children AIDS may progress much more rapidly.

There is no vaccine to prevent HIV infection; the ability of the virus to undergo a continual process of mutation makes it unlikely a successful vaccine will be developed within the next several years. While presently there are no drugs that will "cure" HIV infection, encouraging progress has been made in recent years in the clinical management of persons living with HIV/AIDS. By taking a combination of newer antiviral drugs, often referred to as a "cocktail," the amount of virus present in the body can be vastly reduced, allowing the body's immune system to return toward near normal levels. Along with other medications aimed at preventing the onset of the most common of the so-called "opportunistic infections" (*Pneumocystis carinii* pneumonia, PCP), current therapy allows many persons with HIV infection/AIDS to maintain active, productive, relatively healthy lives for many years. However, adherence to the intensive, and expensive, drug regimen is challenging for even the most conscientious individuals. Furthermore, the virus can mutate to develop resistance to the antiviral drugs currently available, with the result that HIV infection must still be considered as a potentially lethal disease.

However, HIV infection is preventable. We know how to reduce the risk of someone becoming infected. Among adults and adolescents in Canada, HIV is spread mainly through sexual contact, both heterosexual and homosexual, and by the sharing of needles and syringes to inject drugs. This can include injection of steroids by athletes or body-builders. Since November 1985, all blood donors in Canada have been tested for HIV and the risk of being infected through a blood transfusion has been virtually eliminated. Laboratory tests have shown that HIV is present mainly in blood, semen and

vaginal secretions; although the virus has been detected in small amounts in saliva and tears, there are no documented reports of HIV spread from contact with these fluids.

Casual contact, such as hugging, shaking hands or sharing a glass, does not result in transmission of HIV.

There are reports of relatively small numbers of health care workers who have been infected with HIV in the workplace. Exposure to the virus has usually taken place through penetrating injuries with needles or other sharp instruments contaminated with blood. Other forms of contact, such as having blood splashed into the eyes or mouth, or prolonged contact with blood on skin damaged by disease or open wounds, have rarely resulted in HIV infection. Caution is urged for anyone handling another person's blood or other body fluids since these may contain HIV or viruses that cause hepatitis B or C; in many instances, both infected individuals and their attending physicians may be unaware of the infection.

Despite the amount of knowledge gained about how HIV is and is not spread, some persons are still very fearful of becoming infected with the virus through day to day activities and contact with people in the workplace. Efforts should be made to recognize that the fear is very real for those people and should be dealt with through patience, understanding and improved education about HIV transmission.

HIV Infection in Children

The majority of children with HIV infection acquired the virus from their infected mothers. HIV may spread from mother to infant during pregnancy, during the delivery or, less commonly, through breast-feeding. A few children in Canada were infected through transfusions of contaminated blood or blood products; e.g., those with hemophilia. A few isolated reports of HIV spread to children in a household where there is someone known to be infected have revealed unusual situations that probably accounted for unrecognized exposure to blood.

As of December 31, 1997 there were 170 cases of AIDS reported in Canada among children less than 15 years old, and most of these children have died. The number of infants and children currently infected with HIV is not known.

None of the identified cases of HIV infection in children in Canada or the United States has been transmitted in school, day-care and foster care settings, or through casual person-to-person contact. There is no evidence that the types of interaction usual among school children pose any risk of transmitting the virus, nor is there reason to believe there is any

risk from most situations where exposure to blood could occur in a school setting; e.g., someone with a nosebleed. Nonetheless, standard precautions should be taken. When children/infants are unable to control bodily functions due to illness or have behavioural problems, such as biting, precautions should be taken.

Guidelines

HIV/AIDS is covered under the Communicable Diseases Regulation of the *Alberta Public Health Act* and there is no legal basis on which to prevent children infected with HIV from attending school. The medical record of the child cannot be divulged by medical or health personnel without the permission of the parent or unless this is required for protection of the child or the public, as considered necessary by the local Medical Officer of Health. No notification to school authorities is necessary except in these instances. Similarly, there is no basis on which to exclude HIV-infected teachers or other school staff from the work setting. There is no need for notification of this diagnosis to school authorities. Should school authorities become aware of the diagnosis of HIV infection, the right to privacy of the student or employee must be respected. The information must be kept strictly confidential and the number of persons who are aware of the diagnosis must be on a need-to-know basis only.

The following guidelines have been established on the advice of Alberta Health officials and are based on recommendations made by the Laboratory Centre for Disease Control, Health Canada, and the U.S. Centers for Disease Control. Policies of Alberta school authorities regarding HIV/AIDS should be consistent with these guidelines and should be developed with the assistance of local health personnel. A mechanism for ongoing communication between school authorities and regional health authorities should be established. The provincial government will review these guidelines and, on a regular basis as more information becomes available, revisions or modifications may be made.

- **The child's educational setting should not be restricted.**

For most HIV-infected school-aged children, the benefits of an unrestricted setting would outweigh the risks of their acquiring potentially harmful infections from other children; e.g., chicken pox, and the extremely low or nonexistent risk of transmission of HIV through casual contact. HIV-infected children should be allowed to attend school and ECS programs in an unrestricted setting unless, in the opinion of the Medical Officer of Health and the child's physician, in

consultation with the Provincial Health Officer, there are special circumstances that necessitate some restriction.

The need for any possible restricted environment should be reassessed periodically by the Medical Officer of Health and the attending physician.

- **The setting should be based on the child's needs.**

Decisions regarding the type of educational and care settings for HIV-infected children should be based on the behaviour, neurologic development, and physical condition of the child and the expected type of interaction with others in those settings. These decisions are best made using the team approach, including the child's physician, public health personnel, the child's parent or guardian, and personnel associated with the proposed care or educational setting. In each case, potential risks and benefits to both the infected child and to others in the setting should be weighed.

- **A few children may need special settings.**

For the infected preschool-aged child, and for some neurologically handicapped children who lack control of their body secretions or who have behavioural problems, a more restricted environment may be required as determined by the Medical Officer of Health.

- **Mandatory testing inappropriate.**

Mandatory testing for HIV infection as a condition for entry into school or ECS programs is not warranted. Neither students nor staff should be subjected to such tests.

- **Informing school authorities.**

Providing that routine hygienic practices and policies are in place (see below), the HIV-infected student does not present a risk to other students or staff; consequently, there is no need to inform school authorities or other staff of the diagnosis, except in instances where it is required for the protection of the child or the public. In the unlikely event that this notification is necessary, the number of personnel who are made aware of the child's condition must be kept to an absolute minimum. Should persons involved in the care and education of such students become aware of the HIV infection, the child's right to privacy must be respected and any record kept must be strictly confidential. Confidentiality of information is required by the *Alberta Public Health Act*.

- **First aid procedures.**

School personnel should be aware of first aid procedures. Proper equipment, including disposable gloves (latex or other similar material) to be worn for any direct contact with blood, should be part of first aid kits. Review first aid procedures with local public health staff.

- **Establishing hygienic practices and policies.**

Routine hygienic practices and policies regarding the cleansing of materials and surfaces contaminated with blood or body fluids should be reviewed with local public health staff to minimize the risk of transmission of any infection, including HIV. Hygienic precautions should be encouraged for all contact with blood or body fluids regardless of whether or not the school has any children known to be infected with HIV. All educational activities involving the extraction and analysis of samples of human fluid or tissue are prohibited in Alberta schools.

- **Staff should not be restricted.**

School staff with HIV infection do not present a risk to either students or other staff. There is no need for any restrictions on their employment. There is no need for notification of this diagnosis to school authorities.

- **Implementing provincial guidelines.**

School authorities, with the assistance of local public health personnel, should develop policies that are consistent with provincial guidelines regarding HIV/AIDS and other infectious diseases. Such policies should be reviewed regularly by school authorities and local health authorities and regular communication maintained on all health matters.

Additional information on HIV/AIDS or other health related matters is available from:

Disease Control and Prevention, Alberta Health
10025 Jasper Avenue
Edmonton, Alberta
